THE BEST IS YET TO COME

VOLUME II

PIKE COUNTY, OHIO, WEDNESDAY, APRIL 13, 1955

NUMBER 7

CHECK CAR-CHECK ACCIDENTS IS MAY SAFETY THEME

SIGN CONTRACT. Representatives of Goodyear Atomic Corporation and the Oil, Chemical and Atomic Workers sign their first contract, subject to ratification by members of Local 10-689 and the approval of the AEC and the International. Affixing his signature is H. C. Hilliard, manager, industrial relations division. Look-

ing on, from left to right, are L. E. Fuller, J. W. Rigrish, D. H. Francis, W. A. Brown, C. L. Jenkins, L. D. Hochberg, and D. W. Doner, all representing management. Continuing from Mr. Hilliard's left are union representatives E. T. Crace, A. W. Bragg, international representative, J. B. Adamson, C. C. Day, E. E. Flinders, V. W. Montavon, and C. A. Romine.

Boy, Aged 3, Saved From Drowning By Alert Thinking, Fast Acting, GAT Man

Quick thinking and fast action on the part of a Goodyear Atomic employee saved a 3-year-old Chillicothe youth from drowning last month.

The employee, whose fast action matched his thinking, was L. K. (Kip) Prario, process operator in Department 810.

The youth whose life was saved was Jay Becker, son of Mr. and Mrs. Edward Becker, a neighbor at Western Hills Apartments, Chillicothe. The boy's father is an employee of the Grinnell Corporation here at plantsite.

The near tragedy occurred about 11 a. m., March 23.

Standing In Kitchen

Prario, who was on night shift at the time, had just gotten up. He said he was standing in the kitchen eating when he saw two youngsters playing around an open hole about 200 feet from his apartment. Turn-

ing to his brother Vince, who also is an employee in GAT's 810 Department, he commented, "That's a dangerous place for children."

As he turned back he saw the Becker child fall into the hole, which was about 7 feet deep, 6 feet wide, and contained about 5 feet of muddy water.

That was all Prario needed to send him running to the water-filled sewer excavation.

Boy Was Floating

"When I got there," he said, "the boy was floating on top of the water face down."

Prario kicked off his shoes and then jumped in after the young boy. He had to throw the boy out of the water onto the bank since he was unable to get out of the pit while holding the victim. The water came to the shoulders of the 5' 11" Prario.

(Continued on page 3)

Strauss Satisfied With Local Plant Progress

The chairman of the Atomic Energy Commission, Lewis L. Strauss, expressed satisfaction with the progress—both in construction and operation—of the Portsmouth Area Atomic Energy Plant.

He expressed his satisfaction during his first visit to the local plant earlier this month.

He was met at the plant landing strip by Kenneth A. Dunbar, manager Portsmouth Area, AEC; Albert J. Gracia, GAT general manager; Russell DeYoung, vice president in charge of production, Goodyear Tire

& Rubber Company, and George Holling, general manager, Peter Kiewit Sons' Company.

Strauss was conducted on a tour of the local plant by the four representatives.

Later, he met with GAT's division managers and members of the AEC's Portsmouth Area staff.

Accompanying Chairman Strauss were Sam Sapirie, manager Oak Ridge Operations; Everett Holles, special assistant to the chairman, and Bryan LaPlant, chief of security operations in the Washington Area.

Credit Due Negotiators On Contract Accord—Gracia

In announcing the recently consummated agreement between the Corporation and its employees in the bargaining unit, General Manager A. J. Gracia pointed out that great credit was due all the negotiators, union and management alike.

He said that both sides set the highest of standards in the negotiations and that this resulted in the formulation of a workable contract embodying mutually satisfactory arrangements.

United Plant Guard Workers Union To Represent GAT Police

Hourly rated employees of GAT's police department, exclusive of the locksmiths, chose the International Union, United Plant Guard Workers of America, as their representative for collective bargaining purposes.

Of 128 eligible voters, 101 voted for the Union and 24 against. Three did not vote.

The election was conducted April 7 and 8 at plantsite.

Reynolds On Hospital Board

G. H. Reynolds, manager, production division, was one of the six trustees named to administer the new Pike County hospital.

The committee has named a Columbus architect and is now in the progress of selecting one of the fourteen sites that have been made available.

The proposed 50-bed hospital will cost as estimated \$800,000.

GAT Will Receive Two Safety Awards For 1954 Record At April Banquet

Goodyear Atomic Corporation will receive two safety awards during the Safety Awards Banquet April 21, at the American Legion Hall in Portsmouth. One award will be presented by the Atomic Energy Commission and the other one will be presented by the Industrial Commission of Ohio.

Goodyear Atomic earned the right to receive the awards by the magnificent safety record employees established during 1954. GAT employees worked 3,229,178 manhours, from January 11, 1954 to December 10, 1954, without a lost time accident.

Banquet At 6:30

The banquet will get underway at 6:30. In addition to GAT, several other companies in the Portsmouth area will be honored for their 1954 safety records.

The program which is sponsored by the Industrial Commission of Ohio through the Portsmouth Safety Council, is held to give recognition to firms that have had outstanding safety programs.

Dr. Secord Main Speaker

The main speaker of the evening will be Dr. Arthur Secord. Dr. Secord is supervisor of adult education and associate professor of speech at Brooklyn College. His topic will be "Personality and the Management of People."

Between 50 and 60 tickets will be distributed to employees of Goodyear Atomic. An estimated 500 persons will attend the program.

Fires Destroy Homes Of Three GAT Families

Fires of undetermined origin destroyed the homes of three employees last month.

The home of Mr. and Mrs. George Starrett, located in West Portsmouth burned March 27.

The home in Sciotoville, occupied by Paul E. Weaver and his parents, burned to the ground March 25.

The residence of Kenneth T. McMannis, of Wellston, burned March 16.

Weaver is in Department 823. Starrett is in Subdivision 520 and Mrs. Starrett is employed as a secretary-steno in Subdivision 620. McMannis is in Department 732.

Drivers Asked To Have Car Given 10 Point Examination

A challenge which cannot be ignored because it affects every individual in every walk of life in every section of the country is being spread throughout the nation during the month of May.

The challenge: to have vehicles inspected voluntarily for safe operation.

The inspection should have special significance to Goodyear Atomic employees. Since January 1, 1955, 18 persons have died in highway accidents in the area surrounding the plant. Some accidents might have been avoided if the vehicles had been in proper operating condition.

Throughout Organization

Every employee throughout Goodyear's organization is requested to take part in the campaign which calls for the inspection of 10 items that greatly affects the safe operation of a motor vehicle. They are tires, brakes, front and rear lights, steering, exhaust system, glass, windshield wipers, rear view mirror and horn.

National sponsors of the campaign are the National Safety Council, Look Magazine and the Inter-Industry Highway Safety Committee. Slogan for the campaign is "Check Your Car—Check Accidents."

Plans for the inspection are being laid locally by AAA Clubs and law enforcement agencies.

One Million Checked Last Year

Last year, about one million vehicles were checked, and 25 per cent of the checked vehicles were found to be unsafe. This year a goal of two million vehicles has been set for checking.

At first glance, that might seem to be an ambitious figure but it is relatively small when compared with the total of 58 million vehicles which were in operation in this country as of January 1, 1955.

Some 300 cities in 38 states will be participating in the program this year.

The human element in car driving is undoubtedly the most important single factor relating to the safe operation of vehicles. But no matter how careful, courteous or cautious a motorist is, unless he is operating a safe vehicle, he is inviting disaster.

Only Safe Way

The only safe way to be sure an automobile is in safe operating condition is to have it inspected regu-

(Continued on page 2)

PANSY CARTER, left, is making a new address plate on the Graph-O-Type. Lillian Cutlip runs the plates through the address-o-graph after they have been made by the graph-o-type machine. The address-o-graph machine has an automatic feed and can address communications at the rate of 100 pieces a minute, thus speeding up the process of mailing. The two new machines, located in the mail department, went into operation last month.

Mail Department Address-O-Graph In Use

SAFETY THEME

(Continued from page 1)

larly. And in the final analysis, safe driving is simply a matter of common sense. It doesn't require a great deal of effort to keep vehicles in safe operating condition and it doesn't require any great exertion to operate the vehicle in a sane manner.

A frequently heard—and very misleading boast is the one of the proud car owner who claims his brakes can "stop on a dime".

Misconception

Although it's recognized as merely an expression and not to be taken literally, it does point up some misconceptions about brakes.

A car traveling 30 miles an hour requires 80 feet in which to stop. That's not stopping on a dime by any stretch of the imagination. In fact, you could lay about 1,440 dimes end to end in that space. And a car going along at a 70-mile an hour clip needs a stopping distance of 333 feet, or 5,994 dimes laid end to end.

Goodyear not only is pulling for the nation to top its two million quota but is hoping also that all company employees will cooperate 100 per cent in the campaign.

First name first, last name last! That is the way printed matter is now being mailed to employees on the new address-o-graph machine maintained by the mail department. The new machine was installed in the mail department last month.

J. C. Barnes, supervisor, mail department, said his department would like to know of any mistakes in the spelling of names or addresses. The names and addresses were taken from the employees record as maintained by the personnel services subdivision.

Notify Supervision

If you are receiving mail at a forwarding address you are asked to notify your supervision of your correct mailing address. Supervision can fill out the necessary forms with your correct mailing address and send it on to the proper departments.

If you know of any employee who is not receiving his *Clan* you are asked to have him notify the mail department.

More "square" people per mile might be of greater help to this country than more people per square mile.

T. W. PRIOR, center, director of training, Goodyear Tire & Rubber Company, was a recent visitor at the Portsmouth Area plant. He confers with H. A. McClelland, right, supervisor, GAT's training department, and Lee Cormany, conference leader in the training department. Prior also addressed the annual meeting of the Pike County Provisional YMCA. McClelland was elected president of the Pike County "Y" for 1955.

WEDDINGS AND ENGAGEMENTS

Antill-Rampy

Mr. and Mrs. Chester F. Antill, of Mount Vernon, Ohio announce the engagement and forthcoming marriage of their daughter, Bertha Hale, of Portsmouth, to Gordon A. Rampy, son of Major General and Mrs. T. R. Rampy of Germany, formerly of Washington, D. C. Rampy is in Department 611 and Bertha is in Department 810.

The wedding will take place at the Calvary Baptist Church, April 23.

Allen-Daily

Marilyn Allen, of Beaver, and James Daily, of Chillicothe, will be married April 15.

Daily and Marilyn are both employed in GAT's stores department.

Bobst-Skaggs

Announcement is made of the engagement of Mary Lou Bobst, of Wheelersburg, to Roobert Skaggs, also of Wheelersburg.

Mary Lou is in GAT's stores department and Skaggs is employed in the motor pool.

Kennard-Weaver

Mr. and Mrs. John Kennard, of Sciotoville Route 1, announce the engagement of their daughter, Janet, to Paul Weaver, son of Mr. and Mrs. Isadore Weaver of Sciotoville.

Janet is in GAT's mail department. Weaver is in the decontamination department.

Langford-Berry

Mr. and Mrs. Walter M. Langford of South Bend, Indiana, announce the engagement of their daughter, Lois, to Pfc. William B. Berry, son of Mr. and Mrs. D. J. Berry of Shelby, Ohio.

Berry, a former GAT employee, now in service, is stationed at the Aberdeen Proving Grounds in Maryland.

The wedding has been set for June 25, 1955.

GAT Men Address Clubs About State

The Goodyear Atomic Corporation Speaker's Bureau has been active during recent weeks.

Employees who have made talks off plantsite during the past few weeks include: A. J. Gracia, Silver Lake Men's Club, Akron; G. H. Reynolds, Goodyear Women's Club of Pike County, Lake White; J. A. Merrill, Kent University, Kent, Ohio; D. W. Doner, Buckskin Township PTA, South Salem; C. A. Johnson, MD, Nurses Association, Chillicothe.

An angry man opens his mouth and shuts his eyes.

OLD GLORY, in magnificent splendor, flies from atop its new home, the flagpole at the administration building. Scenes from the first flag raising are shown above. In the bottom pictures Police Department Officers, Lt. J. M. Pieper, left, Sgt. E. C. Bennett, center, and Sgt. V. R. Barrett, hook the flag onto the pulley. Top left the flag is half way. Right, the flag flies from its new home. The flag beneath Old Glory is Goodyear's flag.

WRITE TO A SERVICEMAN

There are 28 former employees of Goodyear Atomic Corporation now serving in the armed forces of the United States.

Twenty-seven of them are scattered all over the United States. One is stationed in Japan. None is living at home. Since they do not get home very often, the best way to keep them informed of activity on the "home front" is to write.

It is an easy matter for a person to write a letter if he will just take the time. What can he write about? Many things. The mutual acquaintances, the local sports situation, he can mention the changes that are taking place in his locality and of course, the weather. The weather always provides subject matter.

The Wingfoot Clan is mailed to each employee now serving in the Armed Forces and through it employees are, to some degree, able to keep up with what is happening at the plant. It is impossible, though, for the Clan to write about all the interesting details of these service men's former department.

A letter from "home" to a serviceman is always a morale booster. Many of you who were in World War II and the Korean War know this to be true. A letter goes a long way in helping the servicemen adjust to the extremely different life of the military.

The addresses of GAT men in service may be obtained at the Clan office. Why not take time out from your regular chores tonight and drop a letter to a serviceman.

GOODYEAR ATOMIC CORPORATION'S Portsmouth Square Dance Club is now meeting on Tuesday nights in the Shawnee Room at the Hurth Hotel.

Top picture shows a few of the dancers at a recent Tuesday night dance session. Officers of the Portsmouth club for 1955 are shown in the picture to the right.

They are, from left, Jean Marshall, assistant secretary-treasurer, Wilma Redden, secretary-treasurer, Ray McNaughton, president, and Ed Tepper, vice-president.

BILLUPS GIVEN A "SCOUTER'S AWARD" FOR SCOUT ACTIVITY

Bob Billups, process laboratory department, has been presented a "Scouter's Award".

This award is given to adult scout leaders who have done outstanding Boy Scout work with the young scouts on a minimum basis of three years.

Billups, who is assistant scout master of Troop 12 at the Franklin Avenue Methodist Church in Portsmouth, has been active in scouting for fifteen years.

LIFE SAVED

(Continued from page 1)

Prario said if a surveyor's stick driven in the ground on the side of the hole hadn't been there he couldn't have got out. He was able to reach the stick and pull himself out.

He grasped the youth about the stomach, letting the boy's head and feet dangle, and ran to a nearby store. At the store he placed young Becker on the floor and began giving artificial respiration, which he had learned while in GAT's training school.

The fire department's emergency squad was summoned and young Becker was moved to Chillicothe Hospital where he recuperated.

The hole had been dug to lay a sewer but the work on it had been interrupted by rain. After this incident the hole was covered.

Daydreaming At 'Wheel' Is Dangerous; Avoid 'Spring Fever' When You Drive

Every year about this time we all have a tendency to relax and daydream as "spring fever" catches us. The tendency to daydream means that additional precautions must be taken to prevent highway accidents.

Daydreaming while you're behind the wheel of an automobile can be serious. Last year GAT employees experienced thirty-nine motor vehicle accidents. The primary cause of over 80% of these accidents was attributed to driver negligence. In other words, over 80% of these accidents could have been prevented if adequate caution had been exercised.

Safety Commandments

You can do your part in lowering the frequency of plantsite accidents as well as accidents on the highways by observing The Ten Commandments of Driver Safety:

- I. Thou shalt not speed.
- II. Thou shalt not follow too closely.
- III. Thou shalt not insist on the right-of-way.
- IV. Thou shalt not back without looking and honking.
- V. Thou shalt not overdrive thy headlights.
- VI. Thou shalt not cheat at traffic signals.
- VII. Thou shalt not disobey stop signals.
- VIII. Thou shalt not race.

- IX. Thou shalt not drink and drive.
- X. Thou shalt not pass at curves, hills or intersections.

1900 Licenses Issued

At the present time over 1900 AEC driver's permits have been issued to GAT employees. Each of these drivers also holds a valid state operator's license.

Considerable expense has been incurred by GAT and the State of Ohio in testing and training these drivers. Each driver has shown a working knowledge of the operation of a motor vehicle, but this knowledge is useless if it is not assisted by good common sense, and a sense of responsibility.

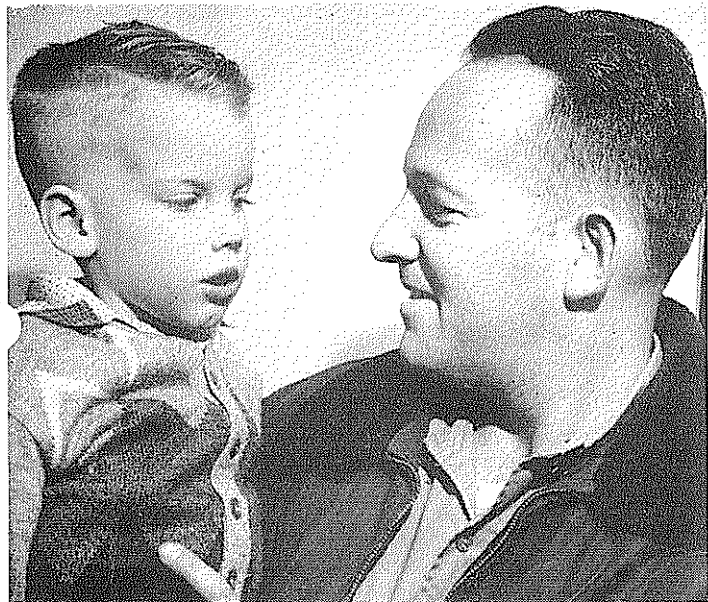

Don't let yourself become Safety Lazy—Drive Safely at all times!

Good Warning Sign

Wearing out of brakes is a gradual process and a good warning sign to observe is when the brake pedal has to be pressed too close to the floor board before the car is brought to a stop.

When this takes place, brakes should be checked immediately. In fact, safety experts advise having breaks checked every 5,000 miles.

THOUGHT FOR THE DAY: Do not resent growing old—many are denied the privilege.

Prario And Friend

"... a dangerous place."

THE SEVEN-ELEVENERS walked off with bowling honors earlier this month when they won the first GAT bowling tournament. They are shown looking over the tally sheet after winning. They are, left to right, Frank Tracz, Merly Baserman, Bill Poolos, Jim Sellars and Noah Gillespie. The Seven-Eleveners bowled in the Waverly league during the regular season.

Seven-Eleveners Win First GAT Bowling Tournament; Edge Lab Keglers 31 Points

The Seven-Eleven bowling team from the Waverly Bowling League was crowned Company Champion at the completion of the first GAT Bowling Tournament. The tournament was held April 2, 1955 at the 20th Century Bowling Lanes in Chillicothe.

The Seven-Eleveners had a total of 3,555 pins. This was only 31 pins better than the Laboratory team from the Chillicothe League which ended in second place.

Dick Schaefer, of the Laboratory team, had high series for the day with 783 pins and Dick Jones, of Recreation, had high single with 252.

Two Top Teams

The two top teams in each bowling league were invited to attend this first company bowling tournament. The leagues, teams, and individuals participating were as follows:

Portsmouth League: *Atoms*: Donini, Keyser, Montavon, Creech, and Nelson. *Neutrons*—Colcord, Robison, Littleton, Allen, and J. Harris.

Jackson League: *Maintenance Maniacs*—Aldridge, LaScala, P. Harris, Farmer, and Dunlap. *Short Circuits*—Rogers, McConnell, Clements, Bocz, and Troyer.

Waverly League: *Seven-Eleveners*—Gillespie, Tracz, Baserman, Sellars, and Poolos. *Skid Row*—Marquardt, Pearson, McComb, Wise, and Holthaus.

Chillicothe League: *Laboratory*—Erway, Barnes, Barkett, Schneider, and Stringham. *Recreation* (substituting for Stores who were unable to participate during the tournament)—Williamson, Faigley, Cutright, Gustavson, and Jones.

IN MEMORIAM

Donald E. Smith, 23, of Washington, C. H., who died March 19, in a two-car automobile accident on Route 23. He was employed in Department 712.

LAND OBTAINED IN LOCAL AREAS FOR GARDENING

Plans for employees to have vegetable gardens this spring are nearly complete.

Dick Jones, supervisor, recreation department, said land had been obtained in the four areas and will be staked off.

The land is located at:

Jackson—the housing project located on Route 75 south of the city.

Waverly—The Joseph Jones farm on Route 335. The land is adjacent to the north edge of Bristol Homes housing project.

Chillicothe—Johnson and Kellar Roads on Western Hills.

Portsmouth—Lowry Hollow, behind the Portsmouth Receiving Hospital.

Garden plots 40 feet x 60 feet have been laid out.

Anyone desiring garden space is asked to get in touch with the recreation department, extension 639.

Waverly PTA To Present Talent Show; GAT Folks Elected To 1955 Offices

The Waverly PTA will present a talent show at 8 p. m. on Friday, April 29, in the Waverly High School. There are three divisions: musical, which includes vocal, instrumental, etc., dancing, and novelty.

Children of any age can participate in all divisions. Adult competition covers all form of entertainment singing, dancing, musical instruments, etc.

Other Officers

Several GAT employees and their families were elected to various offices in the Waverly PTA last month.

They were C. W. Josifek, development engineering division, second vice president; Mrs. H. L. Henley, secretary; Mrs. S. W. Dirmeyer, treasurer and Mrs. R. A. Holthaus, corresponding secretary.

Richard Kraumer, maintenance and plant engineering division submitted the slate for the nominating committee.

TURN IN SOFTBALL LISTS

Softball enthusiasts, if they are interested in playing softball this summer, are asked to submit their names or team rosters to the recreation department as soon as possible.

Softball leagues in the four areas will be organized after determination has been made of the number of people interested in participating.

GAT Club Pledges \$500 To Hospital

A pledge of \$500 has been made to the Pike County Hospital Fund by the Pike County GAT Women's Club.

The money will be used to furnish a room in the hospital which is to be constructed in the near future.

The Women's Club will raise the money through a series of fund-raising events, one of which will be a company-wide dance to be held this summer in Portsmouth. Plans for the dance are incomplete at this time.

Spring Supper Dance

The Jackson Goodyear Atomic Women's Club will hold its spring supper dance, Saturday, April 23.

Dancing will be from 9 p. m. to 1 a. m. in the Memorial Building at Jackson with music by Jim Thorson and his orchestra.

Mrs. Paul Davis was named chairman of the dance committee.

IRD DANCE APRIL 16

GAT's industrial relations division will hold its spring dance and buffet supper Saturday, April 16.

The party will be held from 8:30 p. m. to 1 a. m. at Lake Margaret, located off Route 23 six miles north of Portsmouth.

Never underestimate a woman—unless you're asked to guess her age or weight.

Sports Show Starts Tomorrow; Daily Demonstrations Set

A large sports show covering all phases of sporting activity will be held in Portsmouth tomorrow, Friday and Saturday.

The show is being sponsored by Goodyear Atomic Corporation's Outdoorsmen's Club of Portsmouth and the scout organizations of Trinity Methodist Church.

Belvin Adams, of cascade maintenance,

and Bill Hockenheimer, of the welding shop, are members of the committee promoting the show which will be held at the Ohio National Guard Armory on 17th Street.

There will be a complete line of boats — including plywood, fibre glass and metal — in addition to fishing equipment and other sporting goods. Daily demonstrations in

NEW CHAMPS. The A-Bums are the new champions of GAT's intramural basketball league. They are, back row left to right, Les Brafford, Freddie Sullivan, Dick Schaffstall and Gil Puente. Seated from left are Bob Mays, Eddie Kalb, and Oscar Emswiler. The A-Bums were undefeated in the second half of competition, thus earning them the right to play the first round winner, the Wingfoots.

A-Bums Trim Wingfoots, 55-49, For League Championship; Close Game All The Way

Space Available For Summer Bowling At Classic Lanes

Space is available for summer bowling at the Classic Bowling Alleys in Portsmouth.

The recreation department said two shifts of bowling can be run on Wednesday, Thursday, Friday or Saturday. Starting times are 6 p. m. and 8 p. m.

The Classic Bowling Lanes are air-conditioned. The leagues would get underway May 9.

Anyone interested in participating in summer bowling is urged to get in touch with the recreation department, telephone extension 639.

BLUEBAUM NEW PRESIDENT OF JACKSON OUTDOORSMEN CLUB

James Bluebaum, of Department 732, has been elected president of the Goodyear Atomic Outdoorsmen's Club of Jackson.

He was elected at an organization meeting held last month.

Other officers named were: Emil Bocz, of Department 710, vice president; William Clements, of Department 711, treasurer, and R. H. Gillespie, of Department 512, secretary.

Mr. and Mrs. Kenneth T. McMannis, (utilities maintenance), son, Daniel Bruce.

Mr. and Mrs. C. E. Phillips, (stores department), daughter Cheryl Sue.

the use of the various pieces of equipment on display will be held.

The show, believed to be the first of its kind in the area, is open to the public from 6 p. m. to 10 p. m. Thursday and Friday and from noon to 10 p. m. on Saturday.

Admission is 50 cents per person and the proceeds are to be used in scouting and conservation.

The A-Bums, paced by Oscar Emswiler, Bob Mays, and Les Brafford, became GAT's 1955 league basketball champions when they defeated the Wingfoots 55-49.

It was a fairly close game up until the last minute and a half when Emswiler was fouled and the Wingfoots drew an additional technical foul. Emswiler made all three foul shots.

The A-Bums, as the result of the technical foul, were given the ball out-of-bounds. They turned this advantage into another two points which made the outcome decisive. The Wingfoots were never able to overcome those sudden five points.

High Scorers

For the A-Bums, Emswiler tossed in a total of 17 points on three field goals and 11 foul shots. Mays was next for the winners with 16 points on seven field goals and two free throws. Brafford scored 12 points on five field goals and two charity tosses.

These three were aided by the fine floor play of Captain Gil Puente and Fred Sullivan.

Give Good Fight

Putting up a good fight for the losing Wingfoots was Sonny Ross, who tossed in 16 points on six field goals and four free throws.

Jerry Ross, playing as a substitute, came off the bench in the second half and played fine ball by tossing in 12 points and sparked his team to eliminate the eight point deficit the Wingfoots had when he entered the game.

Others contributing to the Wingfoots were Tom Taulbee with points on four field goals; Gordon Williams, 6 points on three field goals; and Charlie Kinker, 5 points on one field goal and three fouls.

Lost Paycheck Found

Honesty mention goes to L. W. McNeal, Department 426.

McNeal found a paycheck lost on March 31, and returned it to its owner, Pete Jansen, Department 810.
