ATOMIC EDITION

THE BEST IS YET TO COME

VOLUME III PIKE COUNTY, OHIO, WEDNESDAY, OCTOBER 19, 1955 NUMBER 1

ALL-IN-ONE CAMPAIGN NETS OVER \$37,000 AS 93% OF EMPLOYEES GIVE TO DRIVE HELD OCTOBER 3-10

Employees Urged To Take Advantage Of Influenza Shots Now

Inoculation against influenza is being offered on a voluntary basis to all Goodyear Atomic employees.

R. M. Andre, M. D., medical director, said the shots will be given at the hospital until January 1, 1956. The inoculations will be given on a 24-hour basis. The company requests employees to take advantage of this service as soon as possible, since it is offered as a preventive measure against a possible influenza epidemic.

Dr. Andre said employees who are allergic to egg, chicken or chicken feathers should not sign up for the shots. The medical director said the vaccine is taken from the allantoic fluid of chick embryo infected with influenza virus.

Dr. Andre stated that those who had similar shots last year need only a booster shot, 1/2 cc.

Carl B. Massie Cited By Greek Government

Carl B. Massie, standard practice department, has been awarded the War Cross with a bronze crown by the Government of Greece.

The award was presented this month to Massie for his service as a tank group commander during the Korean War. Massie was a Captain in the Army in Korea.

Massie's group, the 15th Infantry Regiment of the 3rd Infantry Division, gave support to the Greece Expeditionary Forces.

The citation reads: "Because, in his circle of responsibility, he gave invaluable services to the Greece Expeditionary Forces in Korea, contributing greatly to the successful outcome of the missions undertaken by these forces against enemies of the United Nations for the defense of world freedom."

GAT Employees

Have Worked 2,074,288 Manhours
As Of October 17, 1955
Without A Disabling Injury

First Agreement Is Signed Between Goodyear Atomic, Police Local 66, UPGWA

Negotiations between the United Plant Guard Workers of America, International Union, and its Amalgamated Local 66, and the Goodyear Atomic Corporation were concluded October 12, 1955.

The new agreement, the first to be written between the Company and this union, includes the establishment of a grievance procedure, seniority provisions, a liberalized vacation plan, lay-off allowances, sick pay and the furnishing and up-keep of uniforms.

No wage increase is involved in the present agreement. A wage re-opening clause does provide an opportunity for consideration of wages in November of this year.

During the final meetings of the negotiating committees Federal Mediation Service Conciliators participated.

The Agreement is subject to ratification by the Local Union and approval of the AEC.

REPLACE DAMAGED BADGES AS AID TO SECURITY PROGRAM

Employees whose identification badges are damaged should have the badges replaced.

The security department, phone 2560, will handle the replacement badges upon request of the department supervisors.

An identification badge should be replaced when it becomes cracked, broken, badly bent or discolored, and when it can no longer be attached to clothing in the proper manner.

Remember! A defective badge decreases the effectiveness of the Security Program.

Badges To Be Displayed

A complete list of the 24 plant-site badges, in natural color, will soon be displayed on each of the 43 company bulletin boards.

Each employee should become thoroughly familiar with the appearance and coding of all authorized badges.

EMPLOYEE PARTICIPATION in the All-In-One Campaign nearly reached 100 percent. In the top picture five members of the fire department listen as M. G. Warnock, left, Local 10-689 CIO, Committeeman, explains the campaign and tells of the groups that will benefit from it. Seated, from left, are E. C. Vanderhoof, Jr., G. M. Cole, G. M. King, and O. B. Cutlip. Standing right is A Shift Steward, G. T. Sammons. All donated to the campaign. Union representatives and GAT superintendents served as an advisory committee for the drive.

IT TAKES A CONSIDERABLE amount of work to keep track of all the pledges during a drive such as the All-In-One. W. E. Ellsesser checks the pledge cards and arranges them by departments to facilitate posting by Mrs. Z. L. Perry. They are in the training department.

ADDITIONAL PARKING LOTS TO BE PLACED IN USE

When the perimeter fence is put in use, privately owned vehicles will not be permitted within the fence.

However, plans have been made to build four additional parking lots. They will be located as indicated: southwest corner of the X-326 Building; northwest corner of the X-326 Building; northwest corner of the

X-330 Building; northeast corner of the X-333 Building.

These four lots are in addition to the present permanent parking lots east of the administration area.

The plan is to have one portal open around the clock with six portals open during shift changes.

Money Given To Areas Employees Mark On Their Pledge Cards

Nearly 100% participation on the part of employees of Goodyear Atomic Corporation was reached as they pledged over \$26,000 to the second United Fund type drive.

This, plus \$11,000 contributed by the corporation, swelled the total to \$37,000. The average employee gift was \$10.33. The average gift per hourly employee was \$7.56. Average per salaried employee was \$13.29.

Percentage-wise, 93% of GAT's employees contributed to the drive. The campaign was held from October 3 to 10.

The donation will be distributed among the four county area—Scioto, Ross, Pike and Jackson—covered by the campaign as indicated by the employees on their pledge cards.

Corporation Gift Divided

The corporation gift will be divided among the counties according to the percent of contributions established by the employees.

Money pledged by employees and the corporation will be distributed approximately as follows.

Scioto County	40%	\$14,800.00
Pike	25%	9,250.00
Ross	23%	8,510.00
Jackson	12%	4,440.00

A. J. Gracia, general manager of Goodyear Atomic, announced that the money raised will be presented to the representatives of the local United Fund or Community Chest groups later this month. Pledged money will be turned over to the local Community Chests as it is deducted from employees' pay.

L. E. Fuller, general chairman of the drive, and his two co-chairmen, C. A. Romine, president CIO, Local 10-689, Oil, Chemical, and Atomic Workers, and P. F. Bliss, supervisor of GAT's community relations department, said of the inplant solicitation:

Share Of Responsibility

"GAT employees, by their response to the campaign, have shown that they are willing to continue to accept a share of responsibility for the welfare, health, and service agencies within their communities."

(Continued on page 2)

Service News

Pvt. Charles J. Jahne has been assigned to the Army Chemical Center in Maryland, doing design work. The group to which Jahne is assigned is concerned with designing various types of equipment used by the combat soldier.

The picture, below, of Jahne was made while he was in basic training at Fort Dix, New Jersey. He formerly was in GAT's plant engineering department.

PRIVATE JAHNE, left, receives congratulations from Brigadier General Robert W. Ward, assistant commander of the 69th Infantry Division of Fort Dix, after being selected "trainee of the week" from post-basic training ranks for proficiency in soldiering.

EMPLOYEES ARE ABLE to purchase any of the above shoes at the shoe counter in Goodyear's stores area, in the X-720 building. The shoes range in price from \$6 to \$9.

Purchase Safety Shoes At X-720 Building

Goodyear Atomic employees can purchase safety shoes at a reduced cost at the store room shoe counter in the X-720 Building.

The shoes range in price from \$6 to \$9. The reasonable price results in a savings estimated at \$2.

The company absorbs part of the cost to encourage the purchase of safety shoes as a safety measure for GAT personnel.

The shoes, which come in brown and black, are attractive and appeal to both supervisory and hourly employees.

You don't even have to worry about "paying" for the shoes. At the time you buy them you just sign a slip of paper and the price of the shoes is deducted from your next pay.

Mr. and Mrs. James C. Jones, (Department 712), son, Richard Kevin.

Mr. and Mrs. Louis J. Homer, (Department 827), son, David Keith.

Mr. and Mrs. E. J. Emerick, (Department 811), son, Johnny Lynn.

Mr. and Mrs. J. H. Kennard, (Department 811), son, John David.

Mr. and Mrs. James W. Burns, (Department 371), daughter, Elizabeth Ann.

Mr. and Mrs. M. B. Herold Jr., (Department 301), son, Bedford Augustus.

Mr. and Mrs. J. L. Goburn, (Department 824), daughter, Karen Lee.

Mr. and Mrs. Ralph V. Howe, (Department 817), son, William Leslie.

New Arrival

The new arrival at the home of Corporal and Mrs. Merrill T. Oakley has been named Constance Marie.

In a letter to Goodyear Atomic, Corporal Oakley writes that the girl weighed 8-pounds, 8-ounces and was born June 22.

Corporal Oakley is stationed in Lawton, Oklahoma. He formerly was in Department 531.

Security Notes

Goodyear Atomic employees must report to the security department both before and after making a trip outside the United States.

Under the security regulations Goodyear Atomic employees who contemplate travel to points outside of the continental United States must report the proposed trip to the security department.

Visits which require passports should be reported at least three weeks in advance, according to the regulations, regardless of how brief the visit outside the continental limits.

Upon return to work, after having visited a foreign country, the employee must notify the security department.

Reports are required on visits to Canada and Mexico but are not required under normal circumstances on visits to United States' possessions such as Alaska, Hawaii, and Puerto Rico.

Employees should contact the security department, extension 2882, to report information about foreign travel. The circumstances surrounding the proposed visit will determine whether or not a personal interview is required.

The following basic information is required on each visit outside the continental United States:

- Full name, home address and telephone number.
- Job title, department, etc.
- Country, institutions and persons to be visited.
- Dates of departure and return.
- Purpose of trip.
- Family members who will accompany traveler.
- Degree and fields of access to restricted data.

Fire Department Urges All Employees To Check Homes For Fire Hazards

The Fire Department is urging every Goodyear Atomic employee to participate actively in Fall Clean-up by ridding his home of fire hazards.

Most homes, even those considered spotlessly clean, generally contain some items that serve no useful purpose and should be discarded in the interest of fire prevention.

Papers, magazines, old clothing and other combustible odds and ends that have been allowed to accumulate in basements, closets and stairways are perfect tinder for starting a blaze. Such articles stored in attics are often set off by spontaneous combustion.

Known Hazards

With the advent of the home workshop, most basements became a combination recreation room, storage warehouse, factory, chemical laboratory and repair shop. Some of the outstanding hazards worthy of note are oils, turpentine, and the

mineral spirits in paints.

Lacquers contain acetone and amyl acetate (banana oil) and sometimes benzene. Paint removers usually contain benzol. Rags containing paint or linseed oil are always subject to spontaneous combustion.

The importance of clearing homes of fire hazards, the fire department points out, takes on added meaning when it is realized that more than half of the 12,000 persons who burned to death last year were victims of home fires.

Do what the fire department requests—check your home for fire hazards.

IN MEMORIAM

Earl Richard Egbert, 39, who died of a heart attack at his home, on Portsmouth Route 1, September 30, 1955. He was employed in Department 424.

ALL-IN-ONE CAMPAIGN

(Continued from page 1)

The first subdivision to report 100% participation was Subdivision 210. There are 28 employees in the subdivision.

More than 200 solicitors contact-

ed GAT personnel. Representatives of the local CIO union and GAT superintendents acted as an advisory committee.

The drive is the only inplant solicitation that Goodyear Atomic permits during the year.

OUR CHANGING TIMES

In the past fifty years many changes have taken place to give us more comforts and conveniences. Many of us have seen the development and production of the automobile, airplane, television, and the use of atomic energy.

But what does the next twenty years hold in store for us?

This is how industry sees America in 1975. There will be more and better food, better shelter, greater comforts, more leisure time and more ways to enjoy it, and 20,000,000 more jobs—better jobs.

This is a practical view. When industry and trade associations were asked by the Chamber of Commerce of the United States to contribute opinions to a composite picture, they were careful to avoid any type of daydreaming.

Their predictions anticipate logical applications of research already under way, or improvements in products now available. The changes they foresee in our future standard of living are the natural increment of a free, competitive enterprise system. Without such a system the Malthusian theory and other doctrines of pessimism would hold some terrors for a country which, 20 years from now, will need to feed and house 221,000,000 people with no increase in land area. With it, such a population provides new job opportunities, a spur to technological advancement and a multitude of new customers.

Among the things which industry expects to offer these customers are: Chemical heating units to cook food right in the package. House lights operated by a wave of the hand. Automatic eyes that close windows when it rains. Clothes and dishes washed without mechanical agitation (with the clothes emerging both clean and ironed). TV receiving sets as thin as pictures that hang on the wall. Man-carrying rockets girdling the globe, in space. Atomic-powered automobiles, trucks and locomotives. Homes designed for maximum "indoor-outdoor" living. School buildings more spacious and more functional. The city of tomorrow with its taller buildings and highways, streets and airfields built for ever-expanding use.

This sampling of what a few industries plan for the future demonstrates how a dynamic economy continually looks ahead to new products, new services and new developments.

A BIRTHDAY

The third anniversary has arrived for The Wingfoot Clan, Atomic edition. This month we start a new volume, with a new number.

As employees are aware, The Clan is published to serve as a publication by and for you, to work for and with you, to promote a friendly atmosphere among all of us, to provide a means of contact between departments, to stimulate an interest in our work and to let you know what Goodyear Atomic as a company is doing.

The Clan appreciates the fine cooperation it has received from employees. It can be successful only through such cooperation. The Clan has endeavored to print news about our people and items of interest in their homes, and to promote teamwork, thrift, safety, health, security and other things worthwhile.

Our sincere wish is that we do things better in future issues.

WEDDINGS AND ENGAGEMENTS

Muller-Dials

William R. Dials, Department 851, and Lotte Muller, of Augsburg, Germany, were married recently in the Sciotoville Methodist Church.

Dials met Miss Muller in 1949 while he was stationed with the Army in Augsburg.

He was a corporal working in radio repair.

The newlyweds now are making their home in Wheelersburg.

Reasbeck-Harper

Miss Ronnie Reasbeck, Department 614, and Elton Harper, an employee of Grinnell Corporation, were married this month. The wedding was held October 1, at the bride's home.

Ramey-Price

Josephine M. Ramey, of New Boston, and Harold W. Price, Department 851, were married September 9, at Richmond, Indiana.

Foster-Smith

William F. Smith, III, Department 816, and Delores Foster, of Parkersburg, West Virginia, were married last month in Vienna, West Virginia.

Coban-Haley

Thomas E. Haley, Department 613, and Shirley Ann Coban, were married September 3, in Pittsburgh, Pennsylvania.

Wagner-Murray

Miss Helen Wagner and James Murray were married September 3, in the United Brethren Church, Lucasville. Mrs. Murray is in Department 422 and Jim is in Department 243.

Lintz-Owen

Mr. and Mrs. J. C. Lintz, of Minford, announce the engagement of their daughter, Wilma, to Gene Owen, son of Mr. and Mrs. J. R. Owen, of Canton, Ohio. Both are employed in Department 424.

Staten-Brown

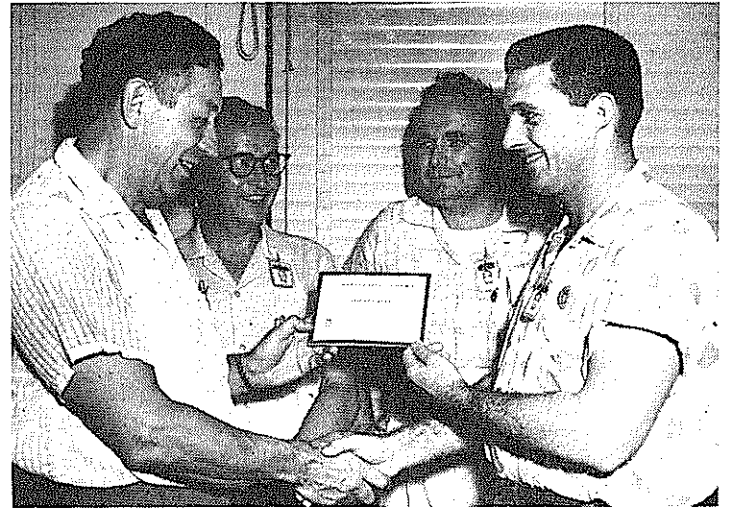

Rose Janet Staten, Department 534, and D. Ralph Brown, Department 816, were married September 16.

The wedding was held at St. John's Lutheran Church, Richmond, Indiana.

Albert-Roseberry

Miss Barbara Albert, Department 644, and Bert Roseberry, of Jackson, were married September 30. The wedding was held at the Jackson EUB Church.

All you get in return for an accident is pain, suffering and loss of money. Be safety conscious.

A. E. CREECH, right, receives congratulations from W. A. Brown, upon his being accepted into the membership of the Wise Owl Club. Looking on are Ray Simpkins, back right, and Ralph Nance.

A. E. Creech, Department 742, First GAT Employee Accepted Into Wise Owl Club

Special Clerical Training Program Being Given To Women Office Employees

A special 8-hour office training program for women office employees of the Goodyear Atomic Corporation is being given by the training department.

"This program," H. McClelland, supervisor of training, said, "is intended for secretary-stenographers, stenographers, typists and those clerical employees whose duties may be partially stenographic in nature."

The objectives of the first three sessions were to improve efficiency, and promote cooperation, therefore, enabling these employees to be of more valuable assistance to their supervisors. The final session will be used to inform the women employees of the meaning and necessity of records management.

Approximately 200 girls, 40 to a section, are receiving the course. Each person was scheduled to attend one 2-hour session each week for four weeks.

Classes are being taught from 1 p. m. to 3 p. m. on Monday, Tuesday, Thursday and Friday, and from 8 a. m. to 10 a. m. on Wednesday.

GAT's eight secretaries — Rita Walsh, Alice Benner, Julia Loyd, Virginia McDonald, Charlotte Webb, Irene Ingall, Janet Forsyth and Kathryn Hayes—acted as a "pilot group" in the preparation of the program.

Watts New Kiwanis Officer

H. Watts, GAT's purchasing agent, has been elected vice president of the Chillicothe Kiwanis Club. Watts, during the past year, has been a member of the club's board of directors. He will be installed as vice president in January.

Plan Study Group

Two employees are interested in forming a group to study and discuss the Civil War.

Anyone interested is requested to contact Thom Strope, plantsite phone 2879, or Jim Lecky, 2156.

A. E. Creech, Department 724, became the first Goodyear Atomic employee to be accepted into membership of the Wise Owl Club of America.

The club, which is sponsored by the National Society for the Prevention of Blindness, is composed of members whose eyesight has been saved by wearing protective eye equipment. Membership in the Wise Owl Club is limited to industrial employees whose eyesight has been saved from injury or loss by wearing safety devices.

Creech was soldering, when molten solder splashed on his face and would have splashed into his eye had he not had on safety glasses.

"I am glad," Creech said, "that I was wearing the glasses."

Without the safety glasses, the safety department reports, both of Creech's eyes would have been injured, and possibly he could have lost the sight of both of them.

W. A. Brown, division manager of plant engineering and maintenance, made the presentation to Creech in the presence of Creech's foreman, Ray Simpkins, and Ralph Nance, superintendent of shops maintenance subdivision.

CAR POOL INFORMATION IS AVAILABLE AT COMMUNITY RELATIONS, TELEPHONE 2514

There are 12 employees in Portsmouth who have room for riders to and from work. There are several other employees who want rides from Ashland, Huntington, and Ironton.

Can you fill any of these requests?

How? Simply call community relations, telephone extension 2514 and list the openings in your particular car.

There are other employees that want to form car pools from Chillicothe, Jackson, New Boston and Portsmouth, to mention but a few.

If you want riders, want to form a car pool, or want a ride call extension 2514.

GAT Jackson Sports Club To Have Turkey Shoot November 12

A turkey shoot will be sponsored by the Jackson Goodyear Atomic Outdoorsmen Association, Saturday, November 12, 1955.

Shooting will get underway at 10 a. m. and will continue throughout the day.

Jim Bluebaum, president of the club, said the Farmer-Sportsman Club grounds will be the scene of the shoot. The grounds are located about 7 miles northwest of Jackson, one-half mile off Route 35.

Bluebaum said shooters will be organized in sets of 15 or less.

Proceeds

Proceeds from the shoot will be used by the group to further conservation projects in this area.

The projects consist of assistance given to the Jackson County game protector in the development of the Cooper Hollow game area; planning a youth program and teaching youngsters how to shoot.

Bluebaum said ammunition will be furnished for the shoot but it will be necessary for each participant to bring his own gun.

Refreshments will be served on the grounds.

Basketball League Being Formed; Submit Names To Recreation Department

Although the football season is still in full swing, the recreation department advises that employees should be thinking ahead to the basketball season.

Any employee who is interested in participating in a GAT Basketball League should make his wishes known to the recreation department.

Perhaps you have your team tentatively organized now—if so, let the recreation department know about it. If you want to play and are not on a team, telephone 2158. Your name will be kept on file until the organization of the league and then you will be placed on a team.

Elect Temporary Officers Of Newly Formed Women's Social Club In Portsmouth

A slate of temporary officers was selected at the initial meeting of the Goodyear Atomic Women's Club being formed in Portsmouth. November 2, was chosen as the date for the second meeting.

Temporary officers are: Mrs. Ralph Armbrister, chairman; Mrs. Maurice V. Gill, secretary; Mrs. John Zoellner, treasurer; Mrs. William R. Shields, social chairman. Mrs. David Goodland, Mrs. Elijah Lowe, Mrs. Richard Fleming, and Mrs. William Bloss compose the social committee.

Mrs. Thomas Leary was named nominating committee chairman. Serving with her are Mrs. Charles Wear, Mrs. Elmo Flinders, and Mrs. George Cooke.

Membership and mailing committee: Mrs. Glen A. Brumitt, chairman; Mrs. W. E. Linville, Mrs. Albert Nelson, and Mrs. Robert Adams.

Constitution committee: Mrs. Gerald J. Shane, chairman; Mrs. Harold Hedrick, Mrs. B. W. Penland, Mrs. James Glenn, and Mrs. James Shoemaker.

Publicity co-chairmen: Mrs. Lloyd E. Fuller and Mrs. Harry Stoops, Jr.

Meeting place committee: Mrs. Walter Shelburn, chairman; Mrs. Marvin Lowman, and Mrs. Charles W. Mock.

Canasta winners at the first meeting were Mrs. Elmo Flinders and Mrs. Albert Nelson.

Bridge winners were Mrs. Harry Stoops, Jr. and Mrs. Louis F. Lauxterman.

Halloween Parties Scheduled

Several Halloween Parties have been scheduled by various Goodyear Atomic groups.

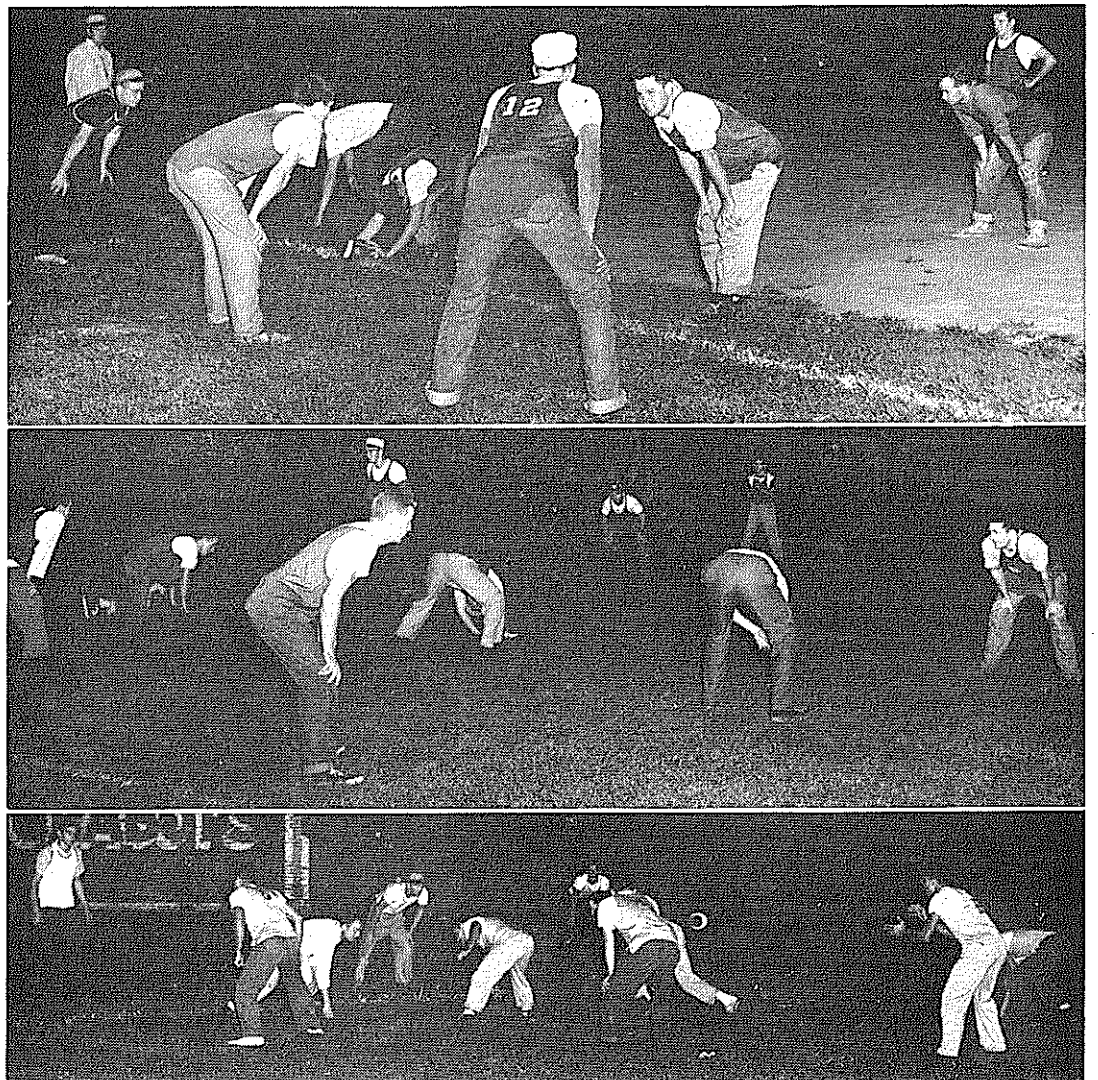

Members of the Finance Division will hold their party-dance at Lake Margaret on October 22.

The 7-11 Club will hold its get-together on October 29, at Lake Margaret.

Industrial Relations Division has scheduled October 28, for its party-dance, also at Lake Margaret.

TOUCH FOOTBALL has been added to the list of recreational pastimes enjoyed by Goodyear Atomic employees. These pictures were taken at a recent Wednesday night of play. The league consists of four teams. They play each Wednesday at 6:30 p. m., under the lights, at Riverside Park, Portsmouth. Members of the finance team are on the offensive in the

picture at the top, while their opponents, the Inspectors are shown on the defensive in the middle picture. The Padazzlers, with backs to camera, and the All Stars battle it out in the bottom picture. The standings, prior to tonight's contests, were: Inspectors, Padazzlers, Finance, and All Stars.

SPLITS AND STRIKES

Goodyear Atomic's eight bowling leagues—three of them composed of women—are in full swing.

The top male bowler in GAT is Frank Steinbach with an average of 176, followed by Fred Sener and Martin Collier with 174, and Bill West and Orin Shellenger with a 172. All bowl at the Classic Lanes in Portsmouth.

The high single game of the season was rolled by Orin Shellenger with 234. Other high games have been rolled by R. W. Richardson, 235, and H. Colcord, Frank Calwell, and Bill West, 222. These men are in the Portsmouth league.

The leading woman bowler in GAT is Phyllis Lallow, Portsmouth league, with an average of 146. Close on her heels is Winnie Chase, of the Waverly league, with 141. Others are Anita Pflug, 127, Jo Bias, 124, and Phyllis Huffman, 123, all bowling in the Portsmouth league.

High single game has been rolled by Phyllis Lallow, 174, followed by Ruth Eckstein, Portsmouth league, 162, and Anita Pflug, 160.

Two Dances Planned By GAT Women's Clubs

Two Goodyear Atomic Women's Clubs—Chillicothe and Pike County—will conduct dinner dances next month.

The Goodyear Atomic Women's Club of Chillicothe will hold its annual fall dinner dance November 4, at the Chillicothe Elks Club.

The Pike County Goodyear Atomic Women's Club will hold its supper dance at the Lake White Club, Waverly, on Saturday, November 5.

Chillicothe

Chairman of the Chillicothe dance is Mrs. Dale Opela. Serving with her are Mrs. Alton Davis, Mrs. Joe Homan, Mrs. Phillip Leslie, Mrs. Donald Jones, Mrs. Paul Seufzer, Mrs.

Bernard Haas, and Mrs. Edward Caruthers. Reservations should be in by Monday, October 31. The affair will start at 7 p. m.

Lake White

Mrs. Maurice Geneva is the chairman for the dance to be held by the Pike County Goodyear Atomic Women's Club. Tickets can be obtained from the ticket chairman, Mrs. J. F. Thom, telephone Waverly 822-W, or Mrs. C. O. Langebrake, telephone Waverly 810-N. Reservations should be made before Wednesday, November 2.

Proceeds from the dance, which will get underway at 9 p. m., will go to the Pike County Hospital Fund.
