THE BEST IS YET TO COME

VOLUME V

PIKE COUNTY, OHIO, WEDNESDAY, NOVEMBER 20, 1957

NUMBER 4

Review — OF — Labor Relations

On November 6, 1957, the Company advised the Union that on the following day all Welder Trainees would receive notification of an opportunity to be upgraded to Welder Second Class.

The following notification, in part, was given to Welder Trainees on November 7:

"Notwithstanding the provisions of Article XI, Section 3, subparagraph (g), employees with six months service in the classification of Welder Trainee who have qualified in the four operational tests specified below, will be afforded an opportunity to take the written Welder Second Class test conducted by the Employment Department. The four qualification tests are:

1. Mild Steel "Arc" Welding
2. Mild Steel "Gas" Welding
3. Arc Air Scarfing (Manually)
4. Flange Welding

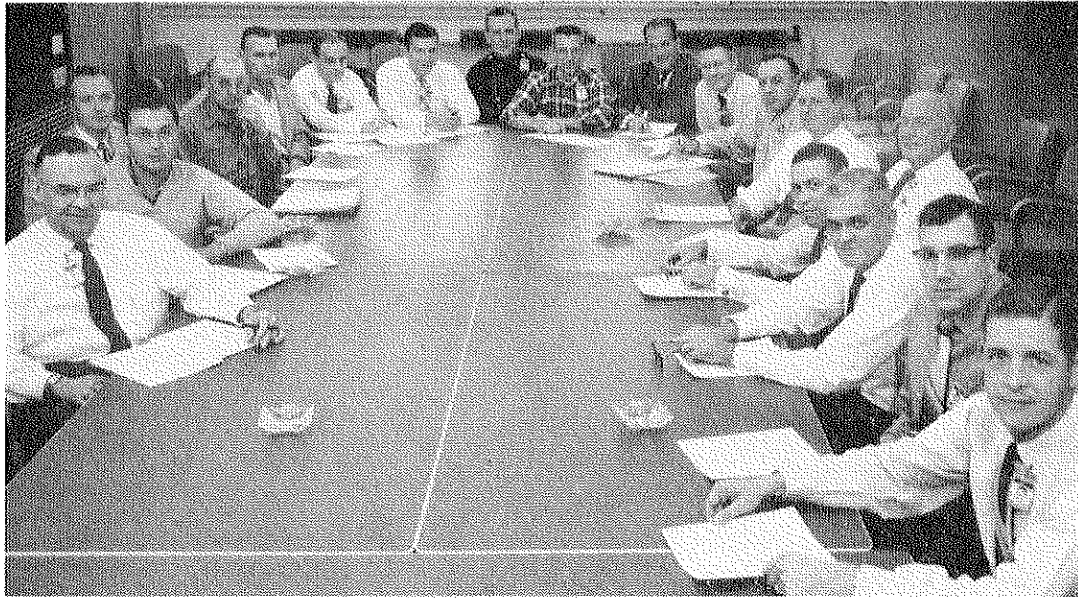

Welder Trainees satisfactorily passing such written test for Welder Second Class will be promoted to the latter classification effective the following Monday."

Tests were conducted during the week of November 11 and all but one of the Welder Trainees available satisfactorily passed the tests and have been promoted to Welder Second Class.

The list of division committeemen, alternate committeemen, stewards, and alternate stewards has undergone changes since originally published in the August 7 *Clan*. The employees listed below have been elected since August.

Alternate committeeman, maintenance division, and steward, welder maintenance — R. L. Dever, utilities maintenance department; alternate steward, D Shift, cascade and utilities maintenance — E. C. Martin, cascade maintenance department; alternate steward, utilities maintenance — Don Clithero, utilities maintenance department; steward, seal, valve, and scale shops — C. D. Evans, shops maintenance subdivision; steward, compressor shop — J. G. Fairburn, shops maintenance subdivision; steward, machine shop — R. C. Weimer, shops maintenance subdivision; alternate steward, welder maintenance — J. H. Beech, shops maintenance subdivision; steward, barrier assembly — J. D. Culp, shops maintenance subdivision.

(Continued on page 3)

THE CHRISTMAS PARTY COMMITTEE held its first meeting on November 5, to discuss preliminary arrangements. Before the Party, to be held at Waverly High School on December 14, becomes history, the above individuals and others who will serve on the various committees will have devoted many hours in preparing for the estimated 8,000 persons who will attend. Though the Party itself will be held from 10:00 a. m. until 5:00 p. m., the decorations committee members will begin work at 6:00 p. m. the evening of the 13th to decorate the gymnasium. In the morning at about 7:00 the arrangements committee members will start preparations for distributing the toys, and the refreshments people will start fulfilling their responsibilities. Finally, at 6:00, after everyone has left, the clean-up committee members will come in to remove the mass of papers and other debris left by the crowd of 8,000. And, of course, there will be dozens of em-

ployees on other committees who will be working both before and during the Party. The committee chairmen, co-chairmen and representatives shown above, left to right, are H. McClelland, distribution of candy; M. Geneva, decorations and transportation; W. T. Brown, representing C. R. Milone, advisory committee; W. M. Oberle, also decorations and transportation; J. O. Sellars, toy arrangement and distribution; J. K. Boughton, entertainment; R. J. Tank, information; W. E. Flanagan, co-chairman of parking committee; F. D. Hyland, assisting in general coordination; W. M. Armstrong, refreshments; L. T. Oyler, safety; R. M. Zeek, toy arrangement and distribution; D. H. Francis, general manager, and G. H. Reynolds, advisors to general committee; P. E. Smith, tickets and identification; G. A. Poole, procurement of toys and refreshments; R. F. Jones, general chairman, and A. L. Lowry, publicity.

FAREWELL FOR DUNBAR—GT&R officials from Akron and AEC officials from Oak Ridge who worked most closely with Kenneth A. Dunbar during his five years as manager of the Portsmouth Area honored him at a farewell luncheon in the GAT cafeteria on November 6. Shown as they recall some of the incidents which took place in the early days of the project are, left to right, Belden Scherer, assistant comptroller for

GT&R, A. J. Gracia, first GAT general manager and now GT&R manager of research and development, Russell DeYoung, GT&R executive vice president, Dunbar, D. H. Francis, GAT general manager, and S. R. Sapirie, manager of the AEC's Oak Ridge Operations Office, who has the Portsmouth Area under his jurisdiction.

McCulloh New Manager Of AEC Portsmouth Area; K. A. Dunbar To Chicago

Kenneth A. Dunbar, manager of the AEC's Portsmouth Area Office since its inception, has been promoted to manager of the Chicago Operations Office. The announcement of the appointment, effective December 1, was made in Washington last month by Kenneth E. Fields, general manager of the Atomic Energy Commission.

Replacing Dunbar will be Robert H. McCulloh, who has been deputy manager of the Portsmouth Area since 1952. McCulloh's promotion was announced by S. R. Sapirie, manager of the Oak Ridge Operations Office, under whose jurisdiction the Portsmouth Area is operated.

Dunbar joined the atomic energy field in 1943, when, as a captain in the U. S. Army, he was assigned to the Manhattan District in Oak Ridge. The Manhattan District handled all phases of atomic energy prior to the formation of the AEC in 1946. In 1946, as a civilian, Dunbar was made manager of the AEC's Dayton Area Office, returning to Oak Ridge in 1949 as director of production and engineering of the Oak Ridge facilities.

Won Service Award

In 1951, he was sent to Paducah to supervise the building of the Kentucky gaseous diffusion plant. He was named manager of the Portsmouth Area the next year. Achievements as manager of the Portsmouth Area won him the AEC's Outstanding Service Award in 1956 for "outstanding ability, faithfulness and devotion to duty which have contributed substantially to the national defense effort and the security of the nation." The presentation was made by Lewis L. Strauss, chairman of the Atomic Energy Commission.

The Chicago Operations Office, Dunbar's new responsibility, is one of three reporting to the Reactor Development Division in the AEC's Washington Office. The Chicago office is actually located at Lemont, Illinois, site of the Argonne National Laboratory. Operations are involved primarily with nuclear reactor research and development.

Principal Contractors

The University of Chicago, which operates the Argonne National Lab, is one of the principal contractors under the Chicago office. Westinghouse, another contractor, works under the Pittsburgh Area, and General Electric is a third major contractor

WISE OWL NUMBER 11 — J. R. Peters, cascade maintenance department, receives his certificate of membership in the Wise Owl Club from W. A. Brown, manager, maintenance and plant engineering division. Others in the picture, from left to right, are J. H. May, W. P. Brown, and W. F. Culp. Peters' foreman, supervisor and superintendent. Peters escaped injury to his right eye when a flying chip of steel was stopped by the lense of his safety glasses.

Employee Made Member Of Wise Owl

Boy Scouts, Tri-Hi-Y Hold Unique Meeting

The Boy Scout Explorer Post in Waverly has discovered a very effective way to attract its members to meetings. They invite girls to participate in some of their programs.

The Explorer Post, on November 13, sponsored a "glamour panel" with four teen-aged girls from the Tri-Hi-Y providing the glamour.

The panel members answered questions from the Scouts and other members of the Tri-Hi-Y concerning dating and teen-age problems. Examples — "When should dates end?" "Should a boy be introduced before asking a girl for a date?" The question-answer session, originally scheduled for 30 minutes, lasted three times that long.

Following the panel discussion, the 40 Tri-Hi-Y girls and 20 Scouts danced and had refreshments.

Robert Howard, YMCA secretary, was moderator for the panel discussion.

The Tri-Hi-Y leader is Mary Frances Swick, training department. The Scoutmaster is Jack Durant, plant engineering subdivision.

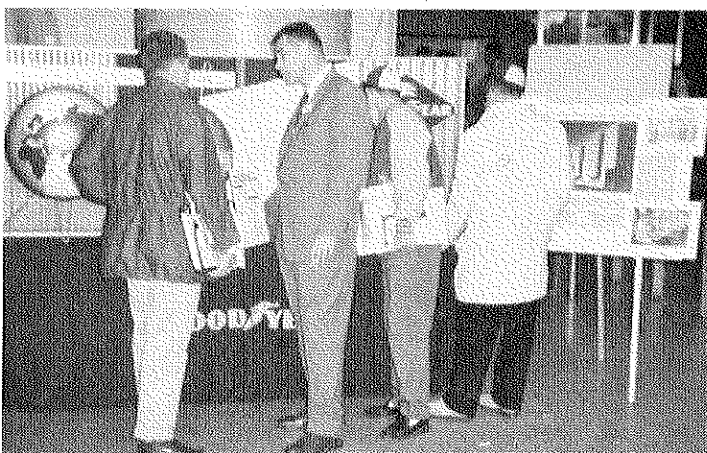

John R. Peters is the latest GAT employee to become a member of the Wise Owl Club.

Peters was wearing his safety glasses on September 26, when he began to cut out the remainder of a chill ring in a 12-inch pipe after it had been cut by a torch. While chipping the ring with a cold chisel and hammer, a piece of steel struck the center of the right lense of the safety glasses. The lense was chipped, but Peters himself was not injured.

Peters, who is in the cascade maintenance department, is GAT's eleventh Wise Owl club member.

He was presented his membership certificate by W. A. Brown, manager, maintenance and plant engineering division. His foreman, supervisor, and superintendent witnessed the presentation.

If you are planning a trip over the Thanksgiving holiday, just remember that thousands of others will be on the highways with you. Drive carefully. Take an extra minute — not a life.

D. E. PRICKETT, employment department, facing camera, gives the Goodyear story to one of the 18,000 college students, high school students, and teachers who attended a "Career Carnival" at Lexington, Kentucky. W. T. Brown, technical division, who accompanied Prickett, took the photograph. The event, sponsored by the University of Kentucky, was held on October 29 and 30 to outline possible areas of employment to students. More than 125 companies sent approximately 400 representatives to explain their exhibits and to talk with the visitors. Prickett and Brown, with assistance from the GT&R employment department, took along the GAT exhibition shown in the background.

Dr. Johnson Moved To Parent Company

D. W. Doner, manager of GAT's industrial relations division, has announced the transfer of C. A. Johnson, Jr., M. D., to the Goodyear Tire & Rubber Company. Dr. Johnson, whose date of transfer is December 1, is Goodyear Atomic's assistant medical director.

Dr. Johnson came to GAT on July 1, 1954, as staff physician after his release from active duty with the U. S. Navy. He was industrial medical officer at the U. S. Naval Ordnance Laboratory in White Oak, Maryland. He holds a commission as a lieutenant, senior grade, in the U. S. Navy Medical Corps.

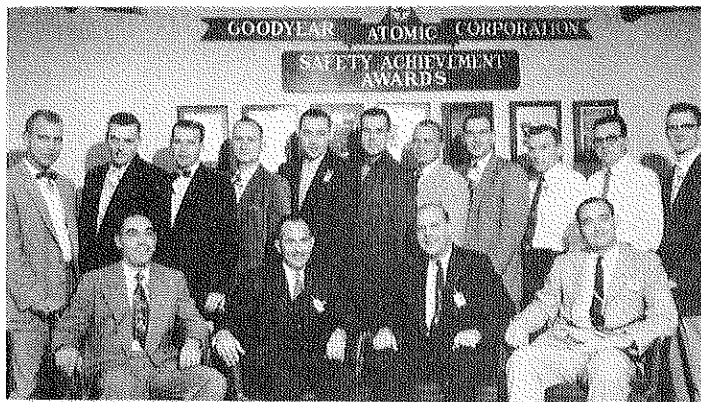

C. A. Johnson, Jr., M. D.

Prior to his service with the Navy, Dr. Johnson was an industrial physician with the Tennessee Coal, Iron, and Railroad Company, Fairfield, Alabama.

He has a BS degree in zoology from the College of Idaho and an MD degree from Creighton School of Medicine, Omaha, Nebraska.

Dr. Johnson is a member of the Industrial Medical Association. He is also a member of the executive board of the Chief Logan Council of the Boy Scouts of America, and the Knights of Columbus.

Dr. and Mrs. Johnson and their four sons live in Chillicothe.

JAYCEE GET-TOGETHER — Officers in the Ohio Junior Chamber of Commerce were greeted by GAT employees who are Jaycee members when the state officials visited plantsite on November 7. Seated, from left to right, are B. L. Ulrich, purchasing department, who is also vice president of the Chillicothe Jaycees, E. J. Plott, Ohio Jaycee president, Harry Kuhner, Ohio Jaycee vice president, and Howard Harcha, president of the Portsmouth Jaycees. Standing, from left, are J. L. Cramer and W. W. Wenning, both of the decontamination department, who are Waverly Jaycees; W. C. Underwood, purchasing department, Chillicothe Jaycees; C. A. Mentges, cascade coordination department, Waverly Jaycees; W. F. Potts, power operations department, Portsmouth Jaycees; W. C. Brady, chemistry department, F. S. Samson, maintenance coordination department, D. R. Markley, internal audit department, J. E. Harshman, accounting department, R. E. Mcaughton, accounts payable and cashiers department, and R. G. Murray, chemical engineering department, all of the Waverly Jaycees. Murray is secretary of the Waverly group. The visitors received a perimeter road tour of the plantsite and an unclassified description of the gaseous diffusion process.

Ohio Jaycee Officials Visit Plant Site

Goodyear Atomic was host on November 7, to state and local officials of the Ohio Junior Chamber of Commerce.

The list of visitors was headed by E. J. Plott, Ohio president of the Jaycees, who will travel 50,000 miles this year while visiting the various Jaycee organizations in Ohio.

Plott, in the real estate and construction business in Canton, was accompanied on his visit to the plantsite by the Ohio vice president of the Jaycees, Harry Kuhner, of Portsmouth, and by Howard Harcha, president of the Portsmouth Junior Chamber and William Potts, a member of the Portsmouth Jaycees and a GAT employee.

The visitors were luncheon guests and were given a perimeter road tour of the plantsite and an unclassified description of the gaseous diffusion process.

Plott, in summing up his impressions of the visit, remarked that the one thing which had particularly impressed him in addition to the gaseous diffusion process itself, was the very apparent friendliness which he had observed among GAT employees. He said that of the many plants he has visited thus far, nowhere had he seen employees who were so consistent in exchanging cheerful greetings with one another when they passed in corridors.

Said Plott, "You have a friendly atmosphere here which I'm sure many companies will never attain. I think Goodyear Atomic is justified in being proud of its employees."

Employee's Condition "Good"

The condition of Leonard Howell, process area 1, who was injured in an auto accident on the perimeter road October 30, is now listed as "good" by Portsmouth General Hospital.

Howell, who will be hospitalized probably for several more weeks with leg and throat injuries, is allowed visitors.

Son's College Grades Please GAT Employee

A son enrolled at Morris Harvey College in Charleston, West Virginia, is making a proud papa out of Irwin Osborne, who works in the shops maintenance subdivision's valve shop.

Osborne's son, John, while majoring in biological science and pre-medical courses, has made the dean's list for scholarship for five consecutive semesters. John's point average is a 3.5 out of a possible 4.0.

Active also in extracurricular activities, young Osborne is president of the Men's Dormitory Council and a member of the Student Affairs Committee.

He will receive his BS degree at the January commencement exercises.

EXTRA PAGE

The insertion in this issue of the Clan is a reproduction of a page from the October 23, issue of THE CHRISTIAN SCIENCE MONITOR. It has been included because it was felt that the national recognition given to GAT employees for their efforts in establishing good relations within the communities in which they live should be made known to them. The story is a compliment to every Goodyearite who has helped to establish the name Goodyear as a good "citizen" in his community.

Mr. Dunbar, who has left the plantsite to assume his new duties at the Chicago Operations Office, Illinois, requested that the note which appears below be published in the *Clan*.

"I was physically unable to visit all the people here whom I know and I should like to take this opportunity to express to each and every one my appreciation for the fine work that has been done and to tell you how much I have enjoyed the fine association we have had."

Kenneth A. Dunbar

HOW DO YOU FEEL ABOUT THANKSGIVING?

Next Thursday, November 28, Americans will observe their most traditional holiday, Thanksgiving. To some people, it means another day off from work. To others it is a day when they have an opportunity to get together with relatives or friends at a reunion. To still others, it is a day when they will eat too much turkey and cranberry sauce and pumpkin pie.

To say that people shouldn't celebrate Thanksgiving in only this manner would be repeating what is obvious to everyone. Even though we might not remember the year of the first Thanksgiving, 1621, or the name of the person who first proclaimed a Thanksgiving, Governor Bradford of the Massachusetts colony, we all should remember that these colonists were so happy just to be alive that they devoted an entire day to thanking their Creator.

Americans have so much more today than did those of 1621, that one has to wonder what has happened in this 336-year span. Have we become so preoccupied with acquiring more things to add to what we already have that we have lost sight of how wonderfully well off we really are? Have we become more concerned with getting than with giving? Even when it's something as easy as giving thanks?

Perhaps our attitude should be more like that of Sarah Hale, who started out in 1827 to have one day appointed as a nationwide holiday. She wrote, "Would it not be a great advantage . . . to become national in unity when we offer to God our tribute of joy and gratitude for the blessings of the year?"

To which we would add, would it not indeed?

Mr. and Mrs. Henry C. Howard, (electric power area), daughter, Cathy Gayle.

Mr. and Mrs. Walter K. Roe, (special and mechanical shops department), daughter, Patricia Gail.

Mr. and Mrs. William M. Bright, (police department), daughter, Susan Carol.

Mr. and Mrs. Robert E. Clarke, (special and mechanical shops department), daughter, Kathy Louise.

Mr. and Mrs. Clinton E. Snoddy, (special and mechanical shops department), daughter, Terrie Lyn.

Mr. and Mrs. William J. Haag, (special and mechanical shops department), daughter, Angela Marie.

Mr. and Mrs. Robert R. Skaggs, (decontamination department), daughter, Barbara Ellen.

Mr. and Mrs. Charles A. Tudor, (process area 5), son, Charles Allen, II.

Mr. and Mrs. Edward E. Wagner, (electric power area), son, Chris Edward.

Mr. and Mrs. James A. Young, Jr., (process area 4), son, Nathan Todd.

Mr. and Mrs. Robert F. Parsons,

(engineering costs and property records department), son, John William.

Mr. and Mrs. David Lawrence James, (computing department), son, Alan Douglas.

Mr. and Mrs. Charles W. Beaumont, (laboratory services subdivision), son, Thomas Patrick.

Mr. and Mrs. Richard D. Terry, (process area 4), son, Matt Alan.

Mr. and Mrs. Paul W. Mills, (police department), daughter, Pamela Ann.

Mr. and Mrs. William H. Hughes, (instrument maintenance department), son, Harold Eugene.

Mr. and Mrs. Paul E. Riggle, (process area 4), daughter, Carla Jean.

Howell-MacDonell

Barbara Howell and Roderick D. MacDonell, III, were married on November 8, at the First Evangelical United Brethren Church in Portsmouth. The bride is in the safety engineering department. MacDonell is in the standard practice department.

McCULLOH

(Continued from page 1)

under the Lockland Area at Cincinnati. All are involved in the building of reactors at the Idaho test site.

Dunbar received a BS degree in electrical engineering from Purdue University. He was with a utility company in Indiana prior to joining the Army Engineers in 1941.

The new Portsmouth manager has been in the atomic energy programs since 1948, joining AEC at Oak Ridge in 1948 as assistant chief of the production and engineering division. Just prior to his assignment to Portsmouth, McCulloh was chief of the production plant construction division, which had the responsibility for construction of the K-29 and K-31 expansions at the Oak Ridge gaseous diffusion plant.

Received AEC Award

Last year McCulloh received an AEC superior performance award for his work in connection with coordination of the many design and construction contractors who worked on various sections of the plant during the construction phase.

Robert H. McCulloh

A native of Sunnyside, Washington, McCulloh was educated at the University of Minnesota and the University of North Dakota. A civil engineer for 30 years, he spent approximately 16 of those years with the Army Corps of Engineers. His last assignment before joining AEC was as chief of operations for the Western Ocean Division of the Corps.

Mr. and Mrs. McCulloh live in Waverly. They have two sons.

IN MEMORIAM

Mrs. Ella Dysart, 72, died October 28, in a Miami, Florida, hospital. A son, J. S. Dysart, is administrative assistant to the general manager.

Mrs. William Koehler, 79, died November 4, in her home in Cleveland. A son, F. A. Koehler, is in the special analysis department.

Mrs. Oritha Hill, 56, died November 15, at her home in Des Moines, Iowa. A son, R. B. Boeye, is superintendent of security.

Thirteen Employees Elected To Offices By Voters In Area

Voters who went to the polls on November 5, in Pike, Scioto, and Jackson Counties elected a total of 13 Goodyear Atomic employees to various city and county offices. Ross is the only county in the area which does not have a GAT employee serving in an elected position.

Ten of the 13 individuals will fill Pike County offices in the towns of Waverly and Piketon. In Waverly, elected Goodyearites include the general manager, D. H. Francis, who was elected as a member of the Waverly Local School Board. Two new Waverly Councilmen — Dr. F. E. Woltz, analysis and design department, and C. A. Romine, electrical maintenance department—are Goodyearites.

Elected as a member of the Board of Trustees of Public Affairs for Waverly was C. V. Jenner, standard practice department. E. L. Dardene, mechanical inspection department, was elected a constable in Pee Pee Township.

In Piketon, Wayne Crownover, utilities maintenance department, was elected a Councilman, and Ray Weimer, machine shop, and Russell Pyle, cascade maintenance department, were chosen as members of the Board of Trustees of Public Affairs.

Beaver will have two GAT employees as community officials, with J. L. Allen, utilities operations department, serving as a councilman, and Fred Keppler, mechanical development department, becoming a member of the Board of Trustees of Public Affairs.

F. D. Hyland, recreation department, was elected as a Trustee of Public Affairs for South Webster.

J. C. Jones, health physics and industrial hygiene department was elected a Councilman by Oak Hill voters.

P. J. Harris, plant engineering subdivision, was elected to the Wellston City Board of Education.

Classifieds

All Wingfoot Clan ads must be typed or printed, and contain a "blind" address or telephone number to which initial contact can be made. The ad must be signed in ink and carry the employee's department number, badge number, and plant-site telephone number. This service is for employees who have items to buy, sell, or trade. No commercial ads can be accepted.

FOR SALE

'56 Cadillac '62" — power steering, power brakes, tinted glass, heater, station finding radio (power antenna — speakers front and rear), white sidewall tires, plastic seat covers; 16,000 miles. Call: Chillicothe PR-5-5143.

Beautifully wooded lot at Lake White; approximately 112 x 250. Reasonably priced. Low down payment and terms can be arranged. Call: Waverly 8070-M.

KIP NAMED TO LIBRARY POST

Charles E. Kip has been promoted to the position of head technical librarian.

Kip, who is now a technical reports analyst in the technical review department will assume his new duties on December 1. He replaces Phillip Leslie.

Charles E. Kip

Kip received an AB degree from Princeton, with a major in chemistry, and an MS degree in chemical engineering from Massachusetts Institute of Technology.

Prior to joining GAT in September, 1956, Kip was in explosive and neoprene work with DuPont. He also worked with various textile concerns in textile chemistry and development engineering.

Mr. and Mrs. Kip and their four children live in Chillicothe.

LABOR RELATIONS

(Continued from page 1)

Committeeman, operations division — H. L. Smith, decontamination department; steward, A Shift, power utilities and steam plant operations — W. Pyles, power operations department; shift stewards, chemical operations and development operations, A Shift — C. E. Snyder, chemical cleaning department; B. Shift — R. Callihan, chemical cleaning department; C. Shift — L. Casebolt, materials recovery department; D Shift — G. E. French, materials recovery department.

Alternate committeeman, service division — C. C. Day, stores department; steward, janitor service, day shift — E. R. Gable, janitor service department; steward, janitor service, afternoon shift — J. O. Huffman, janitor service department; steward laundry — W. J. Pennington, laundry department; alternate steward, SS materials handling — W. E. Wickline, SS materials handling department.

Money is an instrument that can buy everything but happiness, and pay your fare to every place but heaven.

Company, Women's Club To Sponsor Two Dances During Next Two Weeks

Goodyearites who like to dance will have an opportunity to attend two dances in the next two weeks. Both dances will be held in Portsmouth.

The company sponsored dance, which will be held at the Eagles Hall on Friday, November 29, will occur first. Approximately 50 tickets, at one dollar per couple, are still available from the recreation department. Bill Carpenter and his orchestra, from Columbus, will play from 9:00 p. m. until 1:00 a. m. for this dance.

The Goodyear Atomic Women's Club of Portsmouth will sponsor a second dance on Saturday, December 7, also at the Eagles Hall from 9:00 p. m. until 1:00 a. m. Music for the event will be provided by Bob Waddell and his orchestra. A buffet luncheon will be served at midnight. The price of the tickets, three dollars per couple, includes the buffet.

The December 7, dance is one of the several events sponsored each year by the Women's Club to raise money for the Happy Hearts School, a charity-supported school in Portsmouth for mentally retarded children.

Tickets for the Women's Club dance may be purchased from Mrs. Walter Shelburn, Mrs. William Kouns, Mrs. Robert Reese, Mrs. Harold Hedrick, Mrs. Arliss Creech, or from the GAT recreation department.

Basketball

A total of 13 teams have entered the GAT basketball league, with "D" Shift, last year's winners, vowing to retain their championship.

League play will begin on Monday, December 2, at 5:00 p. m., and continue each Monday and Wednesday night for approximately three months. A company tournament will be conducted at the end of the season.

Games will be played in the Wakefield Elementary School gymnasium.

League and tournament winners will be invited to the Banquet of Champions.

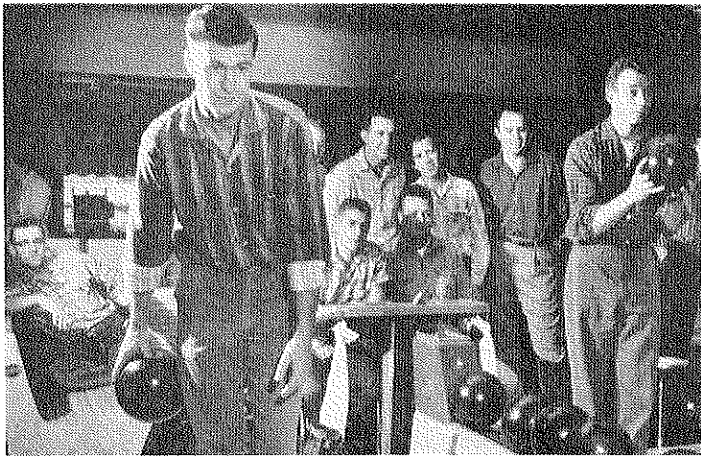

Ping Pong Meeting

Employees interested in a ping-pong league or ladder tournament should plan to be present at the Wakefield Elementary School on Monday, December 2, at 5 p. m.

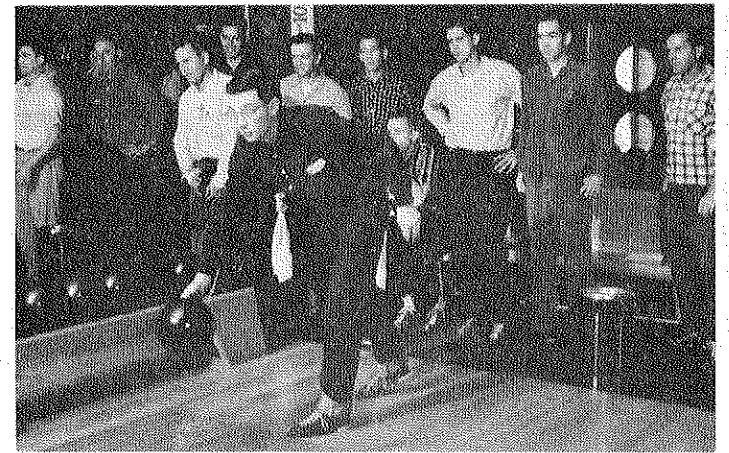

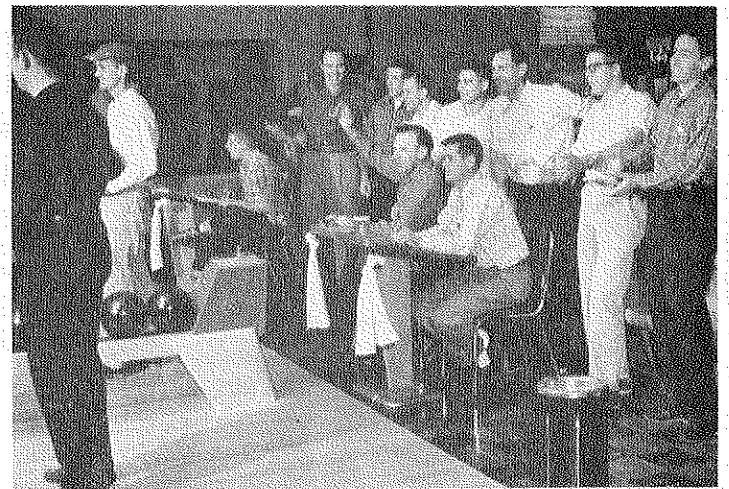

Plans for league play will be formulated by the group attending this meeting.

In February the recreation department will sponsor a plant-wide tournament. Information on this tournament will be disseminated in the *Clan* in January.

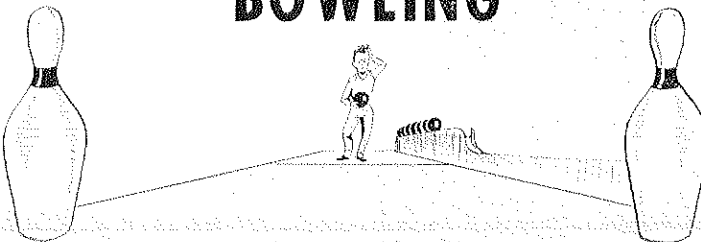

Sign on a winding highway: These curves are different: they get more dangerous after you pass 65.

THIRTY-FOUR "C" SHIFT MEN are having a big time in their Waverly bowling league. The pictures on this page show league members in action on November 6. The results of that day's bowling appear in the bowling column elsewhere on this page. In the picture above, Long, at left, and Crownover take serious aim at the pins while Comer, Conkel and Sleek, seated from left, observe. Standing are Armintrout (just barely visible over Long's shoulder), Plumley, Fritz, and Simpkins. At top right, Overley, standing with back to camera, watches his ball go down the alley as Quinlan, standing at left, prepares to roll. Behind the scorers, are, from left, Simpkins, Wagner, Spencer, O'Halloran, Vondrell, Adams, and Felker. The scorers are Horne and Owens. In the picture at right, Dirmeyer prepares to release the ball while, from left, O'Halloran, Horne, Lee, Painter, Cunningham, Williams, Boothe, Jessee, and Valentine, all standing, watch his style.

BOWLING

With this issue, the *Clan* begins its semi-monthly coverage of bowling, a sport which embraces almost 20 per cent of all GAT employees. Secretaries of the 17 leagues are reminded to relay weekly results promptly to the recreation department to insure inclusion in this column.

Week of November 4:

Portsmouth Leagues

Monday Night League — Millian and Butler tied for the high scratch game with 172; high game with handicap was also a tie with Donini and Millian both rolling 210. High series score was a third tie by Flaig and Reiser, each with 457. The "Deadwoods", whose members are Scott, Butler, Richey, Nichols and Pyle are the league leaders with a record of 18-9.

Goodyear Atomic League — Warren Gilliland captured both high game and high series with a 255-644. The series score was a new season high for the league. The "Bloopers", with Adams, Hammond, Pray, Webb and Entler rolling, are in front with a 20-7 record.

"A" Shift League — Hicks had a high game score of 177 while Salisbury won the high series for the week with a 502. Hicks with a 217 and Salisbury with a 563 series also have high scores for the year. The "Strugglers", composed of Whiteside, Ashley, Roth, White and Salisbury, lead the league, having won 17 while losing 9 and halving one game.

"B" Shift League — Bibbey, with a handicap score of 240, won high game for the week, and high series with a 628. The "3 B's & V" team, with a 21-6 record, lead the league. The 3 B's are Brafford, Bernthold and Backus and the V is supplied by Vallandingham.

"C" Shift League — High scratch game was won by G. Parks, with a 226 and the high handicap game was R. Wolfe's 251. High scratch series was captured by Huels with a 570. "Steam Plant" leads the league, having won 24 and lost 9. Its members are Wolfe, Burke, Mitchell, Fain and Potts.

Women's League — Hi-Lofters are in the top spot in the women's league with a record of 22-8. Mary Burks, Barbara MacDonell, Rosie Sell and Betty Faris make up the team. Charlotte McGraw was high scorer in both individual game and series, as she rolled scores of 185 and 446.

Waverly Leagues

Monday Night League — High game was scored by Henry with a 229, while Slaughter captured high series with a 573. The "Laboratory" leads the league with a 20-12 record. Members are Galloway, Slaughter, Koons, Litteral, Nelson, Spring and Early.

Waverly League — Rouff high singled a scratch score of 221. Wright had the high series with a 584. The "Laboratory" team, with a 18-9 record, is currently leading the league.

"B" Shift League — The "8-Ballers", made up of Whaley, Derickson,

Legg, Estes and Good, are on top with a 23-10 record. High game was rolled by Ondera with a 225, high series by Bowers with a 584. Both are scratch scores.

"C" Shift League — High game was rolled by Felker with a 200 and the high series was taken by D. K. Jessee's 546. Jessee's series score was made up of three identical scores of 182. Team "No. 2", with a 17-10 record, is in first place in the "C" Shift league. Members of the team are Spencer, Vondrell, Perry, Hughes, Overley, Adams and Felker.

"D" Shift League — Goodwin had a high individual game with a 210 and a high series of 516. The "Spotters" team, with a 19-8 record, topped the league. Making up the "Spotters" are Anderson, Fraley, Jamison, Cassell and Owens.

Women's League — "Do-Do's" lead the women's league with a 19-8 record. The "Do-Do's" are made up of Alberta Sparks, Carolee Deis, Mildred Brown, Edith Ferguson and Winnie Chase. Mary Hoffman captured high game honors for the week with a 181 and Anita Brower took series honors with a 460.

Jackson Leagues

In the Jackson league the top game was rolled by L. Trapp, with a 195. R. Petty's 534 series topped the other bowlers. The "Maniacs" are made up of Forsythe, Dalton, Fichtborn, Watts, Walker and Devol.

Women's League — Phyllis Lallow captured both high game and series, with scores of 174 and 464. The "Atom Tendoners", who have won 19 and lost 11 games, are in first place. On the "Atom Tendoners" are Janet Forsythe, Meredith Evans, Jean Bluebaum, Nell Farmer, and Dorothy Devall.

Chillicothe League

The "Utilities" team, composed of Wiseman, Robinson, Schillinger, R. Jones and D. Jones, lead the league with a 19-11 record. High game and series were rolled by Nunn with 218-573.

"D" Shift League in Portsmouth and "A" Shift League in Waverly did not report their results.
