PIKE COUNTY, OHIO, WEDNESDAY, JANUARY 21, 1959

NUMBER 8

Review of Labor Relations

The following arbitration awards, the first such proceeding between the Company and the UPGWA-Local 66, have been received from Arbitrator Robert G. McIntosh. The grievances were heard on November 21.

Grievance B-278

Grievance:

Union protested Company's temporary consolidation of two adjoining posts when grievant was assigned to handle Verification duties in addition to his portal duties while the Verification officer was assigned to one of the parking lots.

Discussion:

Union claimed the assignment of the Verification officer to other duties pointed up a diminution of bargaining unit work resulting from the transfer in March 1957 of certain call-in work to supervision in the communications center which had previously been handled by the Verification officer. The Union contended this was part of an overall plan to gradually reduce the guard duties. The arbitrator stated that it is basic in labor relations that management has all prerogatives except those bargained away in the contract. The present grievance has no evidence of non-bargaining employees doing bargaining unit work, and there was no showing that grievant or the other guard were deprived of bargaining unit work on the days in question. The arbitrator commented that the earlier transfer of certain call-in work had been subject to a prior grievance and must be considered closed and that the call-in work was a proper management function as a means of directing the workforce. The arbitrator sympathizes with the Union's fears, but there is nothing here to substantiate a claim of violating Article XIV, Section 3.

Award:

Grievance denied.

Grievance B-279

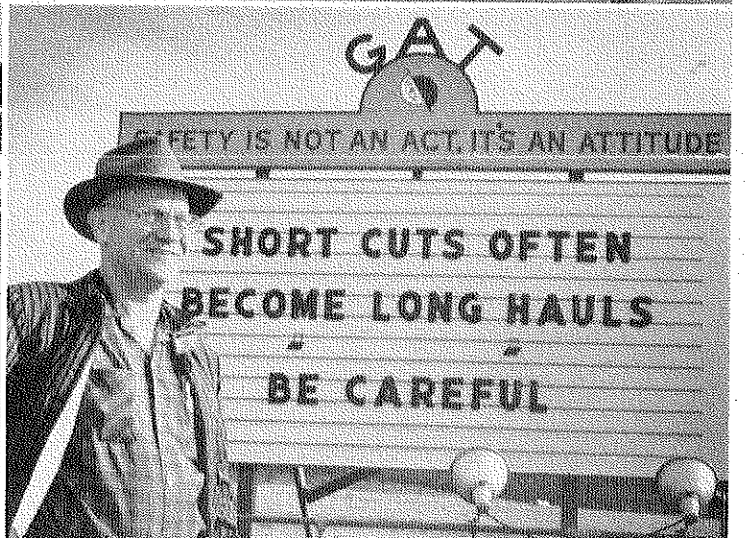

Grievance:

Union claimed Company violated Article XIV, Section 3, when a member of supervision furnished relief requested by the aggrieved employee.

Discussion:

The only justification the Company made was that it was an emergency since the employee seemed to be in such immediate need for relief that there was nothing to do but have a supervisor relieve him. The arbitrator stated that under the Contract, the Company agreed to continue to give employees necessary relief although the time when relief

THE PROGRESS OF A SAFETY SLOGAN SUGGESTION. Top left is Barbara MacDonell stamping an entry. The portion of the blank bearing the name of the person submitting the slogan is removed. The slogan only is turned over to the committee pictured top right. Seated clockwise around the table are Art Clary, Maurice Zigler, Fred Pickens, Chairman Bob

Arndt, Lee Cormany, Howard Galloway and Dick Holthaus. Bottom left is Bob Arndt delivering the winning slogan to Les Oyler, supervisor, safety engineering, who identifies the winner. Bottom right is the end result, E. P. Plummer stands before the Plant Safety Bulletin Board showing his winning slogan.

Bloodmobile Visit Scheduled At GAT's Fire Station; Donors Notified Of Time

GAT's Fire Station will again accommodate the Huntington Regional Bloodmobile when it visits plantsite January 27 and 28.

The Blood Program is organized on a regional basis to provide the total or supplementary blood needs in groups of communities where medical societies and hospitals have expressed a desire for the service and support its operation.

There are now 52 Blood Centers throughout the United States. The Blood Centers have collected 21 million pints of blood over the past 10 years. The present rate of blood collection is two and one-half million pints per year.

The regional blood program, of which GAT is a part, is a volunteer community endeavor. Inasmuch as our plant is located in Pike County, the local American Red Cross responsibility is in the Pike County Chapter.

For the convenience of donors, appointments to give blood has been scheduled in advance to prevent any prolonged waiting at the Fire Station. The need for blood and for reserves of serum albumin, gamma globulin, and other fractions is a continuous one. Whole blood, useable for only 21 days, also must be supplied to civilian and government hospitals in a steady flow.

Employees of Goodyear Atomic Corporation have given 2331 pints of blood through July 30, 1958. Your donation to the GAT Blood Bank makes it possible to have sufficient blood available in time of need

(Continued on page 3)

Have You Submitted Your Safety Slogan?

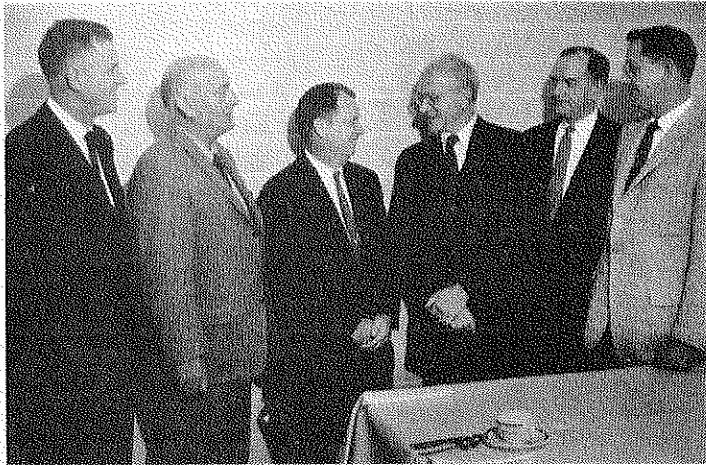

Have you had a good safety slogan turning over in your mind and haven't submitted it? Goodyear Atomic awards two \$10 cash prizes monthly for the two best slogans entered in the Safety Slogan Contest. "It's no use," you say, "I never won anything in my life." How do you know if you have never attempted it? E. P. Plummer, janitor service department, had that idea also — until he submitted his first safety slogan for consideration last month. His winning slogan, "Short Cuts Often Become Long Hauls — Be Careful", appeared on the large safety bulletin board the first half of January. A slogan Plummer thought wouldn't win did win and gained him \$10 besides making him eligible for the semi-annual merchandise prize valued at approximately \$100.

The Safety Slogan Contest was initiated to stimulate safety consciousness among GAT employees. It

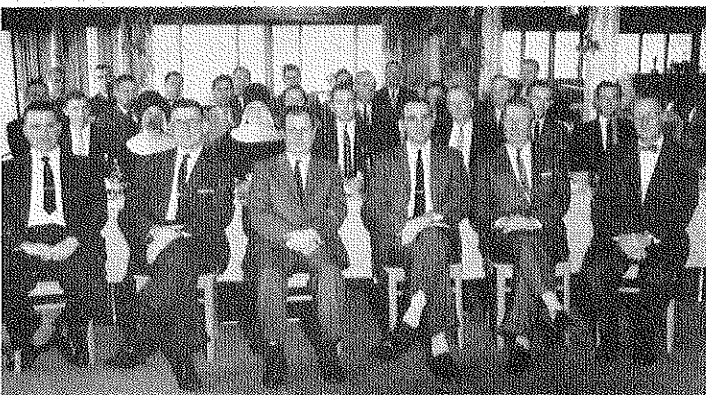

is your program. With your help safety consciousness will become uppermost in everyone's thoughts. The \$10 monthly prizes and the \$100 semi-annual prizes are intended to stimulate interest among employees and their families. These prizes are rewards for their originality and contribution to the GAT safety program.

Winning slogans are selected from those deposited in the Safety Slogan boxes provided about the plantsite. The slogans are turned over to the Safety Slogan Committee for consideration. It should be emphasized that the person's name does not appear on the slogan turned over to the

MR. PHILIP SPORN, third from right, President of the American Electric Power Company, and President of the Ohio Valley Electric Corporation, recently addressed a Supervisory Seminar at Goodyear Atomic Corporation. Pictured above are, from left, D. W. Doner, Manager, Industrial Relations; G. H. Reynolds, Manager, Production; D. H. Francis, General Manager; all of Goodyear Atomic Corporation; Mr. Sporn; Wilbur H. Ruess, Vice President, Ohio Valley Electric Corporation; and R. H. Thalgot, Chief Operations Branch, Portsmouth Area Atomic Energy Commission.

HIGH SCHOOL SCIENCE TEACHERS from Pike, Jackson, Scioto and Ross Counties met to hear the Directors of the local Science Fair and Science Day outline their programs for 1959. The luncheon meeting was sponsored by the Goodyear Atomic Corporation.

High School Science Teachers Guests Of GAT

Goodyear Atomic Corporation was host to the high school science teachers of Jackson, Pike, Ross, and Scioto Counties recently. The luncheon meeting at the Lake White Club, Waverly, was held to give the science teachers an opportunity to learn of the 1959 plans for high school Science Fairs and Science Day Programs.

D. H. Francis, General Manager, Goodyear Atomic Corporation, welcomed the teachers and spoke briefly concerning his Company's interest in leading students to consider a career in the physical sciences.

Dr. N. Bayard Green, of the Zoology Department, Marshall College, and Regional Director for the Science Fair in this area, outlined the program which is sponsored by the National Science Clubs of America. The Science Fairs for 1959 will be held at Marshall College, April 3 and 4. Dr. Green also spoke concerning the Awards which are available to Science Fair winners which included full four-year tuition scholarships.

Dr. James Shipman, Physics Department of Ohio University, and Director of the Science Day Program which includes the four-county area and is sponsored by the Ohio Academy of Science, spoke concerning plans for the forthcoming student Science Day. He said that Science Day for next year will be held in Athens on April 3. Dr. Shipman also made reference to the generous plans for the forthcoming student Science Day. He said that Science scholarships which are available to

winners of the Regional and the State Science Day Programs.

Dr. Green and Dr. Shipman both emphasized that student participation in both programs would be welcomed.

D. W. Doner, Manager, Industrial Relations, Goodyear Atomic Corporation, spoke briefly concerning the corporation's interest in the Science Fair and Science Day Programs and the value the student could expect to derive from participation in these programs.

R. A. Holthaus, President of the GAT Foremen's Club, outlined the aid that members of his club were prepared to give any student who requested help. The GAT Foremen's Club has more than 400 members living in the four-county area. Upon request from a student the club will supply a man who is a specialist in the student's field of interest to give technical advice and counsel. This advisor will meet with the student in the evening or on week ends as needed.

GAT Employees

As of January 21, 1959
Have Worked 985,000 Manhours
Without a Disabling Injury

LABOR RELATIONS

(Continued from page 1)

that proper assignment of the working force should include some provision for relief so that supervision will not have to do it. According to the arbitrator there was no doubt relief was urgent, but urgency is not emergency. Since the time involved was small and there was no showing that any overtime would have been involved, no money assessment was made.

Award:

Grievance upheld.

Grievance B-280

Grievance:

Union claimed seniority rights were denied when Company assigned grievant to another shift for four days without permitting him to select his shift, since he had more seniority than other employees.

Discussion:

The arbitrator commented that the crux of this dispute was the definition of the word "opening" in Article X, Section 4. He concluded that the mere reading of this section clearly shows it was the agreement that an employee shall have shift preference according to seniority only in filling openings. In this case the Company was not increasing its working force, but merely putting more employees in one shift and less in another. It actually was a redistribution of manpower to take care of a short spurt in workload. It was the arbitrator's opinion that the word "opening" meant a new job or permanent vacancy in an existing job and therefore there was no opening.

Award:

Grievance denied.

SAFETY SLOGAN

(Continued from page 1)

is given is not stated. He concluded Safety Slogan Committee. Slogans are judged for content only — personalities are not involved.

The Safety Slogan Committee consists of one member from each division selected by the Division Manager, with the Assistant Manager, Production Division as Chairman. This committee has no way of knowing who submits slogans for consideration.

HAVE YOU SUBMITTED A SLOGAN THIS WEEK?

Five Year Pins

Employees who will receive five year pins between January 15, and January 31, are as follows:

- | | |
|--------------------|----------------|
| A. D. Pickelheimer | Z. G. Phillips |
| O. F. Tussey | C. E. Reiser |
| P. E. Rawlins | D. H. Ranly |

| A. W. Reynolds | D. B. Faigley |
| | S. B. Ray |

Fellowships Available

Applications are now being accepted for Atomic Energy Commission graduate fellowships in the field of radiological physics.

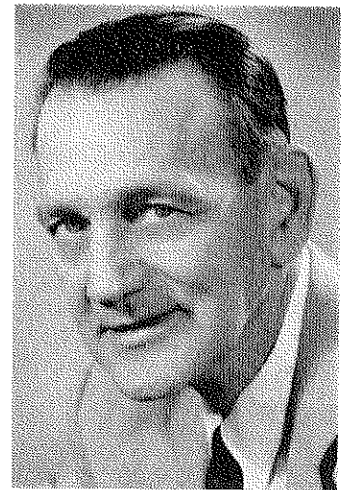

These AEC special fellowships are designed to alleviate the critical demand for trained specialists in radiological, or health physics — a science that has many applications in technical, public health, and management fields. The fellowships provide qualified graduate students with nine months of regular university graduate work in the sciences, plus three months of additional field training at a cooperating installation of the AEC.

Basic stipend for Radiological Physics Fellows is \$2500 for twelve months, plus \$350 for each dependent. Payment of tuition and fees, as well as a travel allowance, are included under the fellowships.

Radiological physics fellowship assignments are made for study at Vanderbilt University, with field training at Oak Ridge National Laboratory or the National Reactor Testing Station; at the University of Rochester and Brookhaven National Laboratory; and at the University of Kansas or the University of Wash-

J. Jones New Manager Atomic Credit Union

The Board of Directors has appointed James E. Jones of Waverly, Manager, Atomic Employees Credit Union.

James E. Jones

Mr. Jones has had 30 years experience in the banking business. He was office manager for Parallel Plastics in Waverly before assuming his duties with the Credit Union. Previous to being employed by Parallel Plastics, he was vice-president of the First National Bank of Waverly.

He is a graduate of Center College, Danville, Kentucky, with an AB in Business Administration.

He is a member of the Masonic Lodge, Waverly Service Club, Lions International, and the Methodist Church.

His wife, Mary, formerly was a Nurse in the GAT hospital. Mr. and Mrs. Jones have two sons. Jim is a First Lieutenant with the Air Force and John is a senior at Waverly High School.

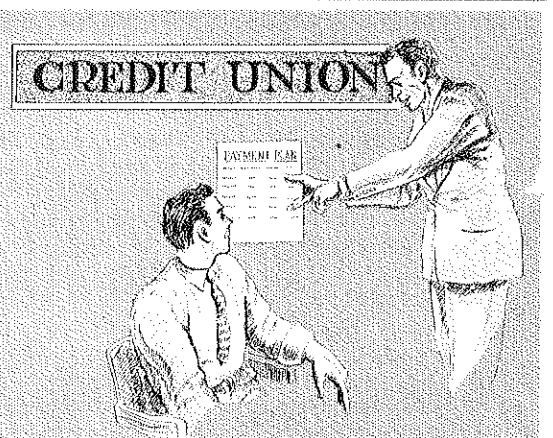

ington, with field training at Hanford.

A brochure describing the program and application materials are available from the Radiological Physics Fellowship Office, University Relations Division, Oak Ridge Institute of Nuclear Studies, P. O. Box 117, Oak Ridge, Tennessee.

Time Was . . .

. . . if you needed extra money, and borrowed from a lender you had to put up everything you owned for collateral. If you missed one payment you were liable to lose everything. Interest rates were as much as 25 percent.

But Now . . .

. . . the total cost of a Credit Union loan cannot exceed one percent per month on the unpaid balance. No hidden charges for investigation, no fees, and no additional charge for loan protection insurance. REMEMBER: You are an owner of the credit union.

A LION STALKS YOUR STREET

This thought-provoking article was recently published in the National Safety Council Safety Newsletter.

A little toddler was recently mauled to death in a lion cage, and the news sent a shock-wave surging through every home in America.

"If it had been my child," thinks a Seattle mother, "I — I just couldn't go on!"

"I'd never get over it. I'd go out of my mind!" declares a Boston father.

In Atlanta, a man looks up from the cruel story, sees his boy through the window, pushing a toy truck over impossible mountain-trails in the sandpile. He tosses the paper aside and — almost desperately — hurries outside to pal around with his son.

And in Des Moines, a young woman's eyes narrow in agony as they follow the story. She knows, too well, what it is to lose a little girl!

But now the Seattle mother starts her car and slams out the driveway, in reverse. She checks the rear-view mirror, but it doesn't pick up the blind spot behind the car where — minutes before — her daughter had been sitting, then crawled off to trail a tantalizing butterfly. The grim lion of tragedy doesn't strike now, but some day . . .

The Boston father starts up his power mower. One swath across the lawn, and his wife calls from the porch, "Oh, Ray — telephone!" He jogs inside, leaving the mower on. His son, on a tricycle nearby, studies the chugging mower, starts to dismount for a closer look at the fascinating whirling blades. Then a neighbor boy shouts, "C-mon, I'll race you 'round the block!" The lion doesn't strike now, but some day . . .

The man in Atlanta bundles his boy into the car and spins off toward the drug store, slashing through a blind intersection at 25 m.p.h. Another car plunges through from the right . . . three seconds later. The lion doesn't strike now, but some day . . .

Only the young woman in Des Moines is truly wise. She remembers those small fingers, eagerly reaching up for the pot handle jutting out from the stove, and then the cascade of searing, steaming death! The memory is so cruel, so constant, now. Perhaps some day . . .

The grim lion is not confined to zoo and jungle. It stalks the streets of Seattle, Atlanta, Des Moines, Middletown! Do you know this? Do you know that the child-killer is always near? Do you know that you must keep the lion forever caged, or some day — some terrible day . . .!

BLOODMOBILE

(Continued from page 1)

to cover all Goodyear employees, the immediate families of the employees, and the employee's father and mother, and father and mother-in-law; an estimated 19,200 persons.

The Community Relations Department has notified employees of the date and time of their appointment. Although donors have been scheduled from employees who have indicated a willingness to donate blood by signing the permanent blood donor pledge card, "walk-in" donors are always welcome.

Employees who have received a card but are unable to donate are asked to notify the community relations department, telephone extension 2514.

DRIVERS BE CAREFUL!

Stopping a car with normal tire treads on ice takes more than twice the distance at 30-degree temperature than at zero. Temperature is the key to driving on snowy or icy roads.

Many drivers do not realize how greatly stopping distances are affected by temperature changes on icy roads. It's most dangerous between 20 and 30 degrees above zero.

Tests on icy roads show that a braking distance of 114 feet is required at 20 m.p.h. at zero temperature. At 30 degrees, 235 feet of braking is needed.

If these stopping distances are to be used as a guide add 22 feet — the average reaction time needed to get your foot on the brake.

Personnel Transfers

In recent weeks there have been several transfers from GAT to the parent company's operations. Following are a list of those transferred and their new assignment:

Richard D. Davis, plant engineering, to the Goodyear Tire and Rubber Company, plant engineering.

Ralph J. Johnston, instrument maintenance, to the Point Pleasant Plant.

R. D. Davis

R. J. Johnston

E. V. Clarke, Jr., process area 2, to the Point Pleasant Plant.

V. E. Squires, plant engineering, to the Goodyear Tire and Rubber Company, plant engineering.

E. V. Clarke, Jr.

V. E. Squires

Otto Rohrbough, process area 1, to the Point Pleasant Plant.

Richard Nourof, special analysis department, to the Goodyear Tire and Rubber Company (Development Division Training Program).

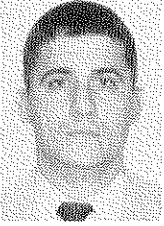

O. Rohrbough

R. Nourof

Lynn Schrier, planning department, to Goodyear Aircraft Corporation (SUBROC Engineering).

Kurt Rutz, technical squadron trainee, to the Point Pleasant Plant.

L. Schrier

K. Rutz

Verne Rinehart, chemical operations, to the Goodyear Tire and Rubber Company (Research Division).

P. F. Edelmann, power operations department, to the Point Pleasant Plant.

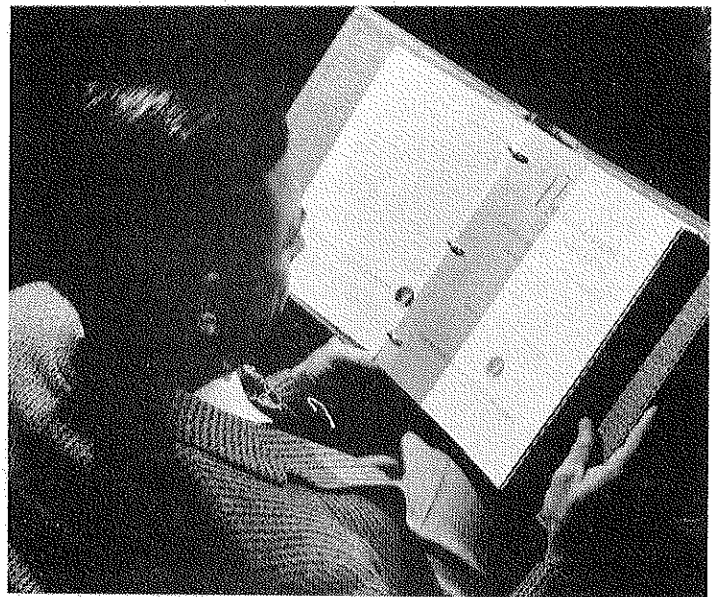

V. Rinehart

P. F. Edelmann

Rinehart and Edelmann will transfer on February 2.

PRACTICAL ENGLISH AND THE COMMAND OF WORDS. Paul Smith, reproduction department, scans through the binder containing the forty-eight weekly instruction units of a personal development service for adults. GAT employees have until February 28, to enroll in the home study course.

Personal Development Course Is Available

Goodyear Atomic Corporation has arranged to offer employees a new personal development service published by The Better Speech Institute of America.

AIEE Sets Meeting

The agenda for the AIEE will be of general interest to many of our technical people.

"Investigation of Space," is the theme of the 1959 National Telemetering Conference planned for May 25-27 at the Brown Palace and Cosmopolitan Hotel, Denver, Colorado. The conference is sponsored by the American Institute of Electrical Engineers, the American Rocket Society, the Institute of Aeronautical Sciences and the Instrument Society of America.

Twelve technical sessions are scheduled. They will be on special telemetering techniques for satellites and space vehicles, sub-miniaturization, telemetering of bio-chemical information from the "Man in Space," transistorization and data processing. Four papers are planned for each session.

Max A. Lowry, of Data-Control Systems, Inc., Danbury, Conn. is the conference chairman and Allen P. Gruer, of Sandia Corporation, Albuquerque, N. M., is chairman of the Program Committee. Other committee chairmen include: Elliott Ring, C. Benavides and Joseph McKenna, Martin-Deven; Hugh Pruss, (vice chairman), Telemetering Corporation of America; J. L. McKinley, Public Service Company of Colorado; R. Francisco, Secretary, General Electric Company, Missile and Advanced Development Division; J. Winters, Thompson-Ramo-Woldridge; and F. Venditti, Denver Research Institute.

The course, "Practical English and The Command of Words", does not involve the use of books or booklets. It comprises vocabulary development, pronunciation, enunciation, voice, diction, grammar, usage, fluency, spelling, punctuation, conversation, public speaking personality pointers, telephone technique, and the art of "talking by mail".

Each employee who participates will receive one lesson per week for 48 weeks. The course includes an index and four self-administered tests, one for each of the twelve week periods involved.

Presentation of the course is made interesting, non-technical, and easy to master, whether you have a grade school, high school or college education. Every member of your household will have an opportunity to participate because all the material will be mailed directly to your home.

During the period between January 15 and February 28, employees may subscribe on a group basis for the complete service for only \$16.80. The full price of the course individually is \$50.00.

Sample lessons are available for your review in your sub-division office.

The training department is coordinating the program. If you wish to take advantage of this offer, you may telephone extension 2790 for assistance in registering.

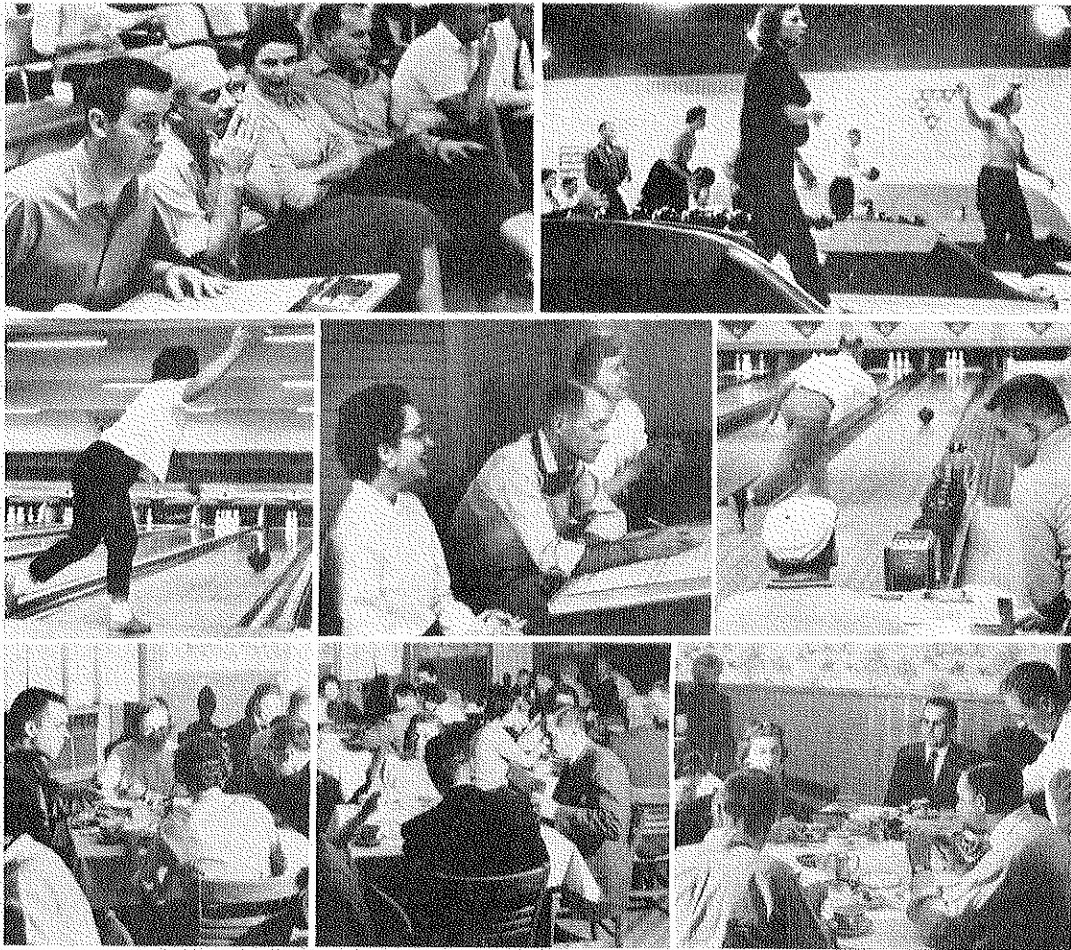

Now See Here . . .

Are alleys 7 and 8 at Weiss Recreation Center grooved? L. R. Mullins, Jr., uranium analysis department, probably thinks so. Grooved for a series score of 466 that is. The last three times his team has bowled on these alleys his three game series has been 466. October 6 — 145-132-189—466; November 10 — 147-158-161—466; January 5 — 146-176-144—466.

Mullins bowls for the "Tormentors" in the GAT Men's Monday Night Bowling League of Waverly. His current average is 144.

IN MEMORIAM

Mrs. JoAnn Rath died January 3, in Dayton, Ohio following a lingering illness. A brother, Richard Schneider, is in the mail and document accounting department.

MIXED BOWLING OUTING. The scenes above were snapped by the roving photographer as GAT bowlers competed in the Second Annual Mixed Outing. Top row from left, Bob Schillinger keeps score as Pat Crow and Mr. and Mrs. Chuck Tabor wait their turn. In the next picture, Nancy Wickline and Maxine Nichols guide the ball down the alley. Second row from left to right, Dorothy Bickett attempts to pick up a score. Jan Forsyth claps her hands as her partner got a strike. Anita

Pflug observes as Albert McCloud tallies the score. Al Nelson displays the form of a good bowler. Tom Brower gets ready to take his turn. The score keeper is Fred Pickens. In the bottom row are scenes from the smorgasbord held following the outing. In the picture far right are Mr. and Mrs. Bill Stringham who rolled the highest score, about to display championship technique at the dinner table. Others are John Henry and Frank Voss.

—Photos by D. J. Landstrom

74 Teams Compete In 2nd Annual Mixed Event

Mr. and Mrs. Bill Stringham walked off with top honors at the Second Annual Mixed Bowling Handicap Outing, Saturday, January 10, in Chillicothe. This is the second straight year in which Bill and his wife copped the championship.

One-hundred and forty-eight persons participated in the outing which was held in the Twentieth Century and Buckeye Lanes. This year's entries of 74 teams topped last year's total by 16 when 58 teams entered.

In posting the high mark of 1069 team total Bill Stringham rolled games of 137, 164, and 203. His handicap of 96 pins gave him a three game series of 600. His wife, Beje, rolled games of 99, 117, and 136. Her handicap was 117 giving her a series total of 469.

Second place went to Mr. and Mrs. Wilbur M. Henderson whose combined total was 1068. Mr. and Mrs. Harley Mayberry came in third with 1046.

The first, second, and third place winners will be invited to the Annual Banquet of Champions next fall.

Following the Bowling Outing, the participants enjoyed a smorgasbord which was held in the Warner Hotel.

The GAT Bowling Committee, consisting of D. L. Wright, chairman, H. McClelland, Ethel Noel, and Phyllis Lallow, deserve the plaudits of all the bowlers for setting up and carrying out this very successful employee activity. A special word of thanks is due those employees who gave of their time to keep score.

Bowling

The Fourth Annual GAT Women's Handicap Bowling Tournament will begin Saturday, January 31.

The team event will be held at the 20th Century Lanes in Chillicothe on January 31, and the doubles and singles events at the Classic Lanes in Portsmouth on February 7.

The bowling schedule for this tournament will be distributed to all participants on January 21.

Bowling

The Fifth Annual GAT Men's Handicap Bowling Tournament will begin Saturday, February 14.

The team event will be held at the Classic Bowling Lanes in Portsmouth on February 14 and 21. The doubles and singles events will be held at Weiss Recreation Center in Waverly on February 28, March 7 and 14.

The closing dates of entries is Friday, January 30. Entry blanks are available from the leagues' secretary or recreation department.

I don't know who my grandfather was; I am much more concerned to know what his grandson will be.

—Abraham Lincoln

Don't Forget You Bowlers!

To be eligible for the company bowling championship, one must bowl in all the company tournaments. Scratch scores of fifteen games will count; nine games in the handicap tournament (team, doubles and regular) and six games in the scratch singles.

Outdoorsmen Club Elect New Officers

New officers recently elected by the Goodyear Outdoorsmen Club of Jackson are President, Carl Crawford, power operations department; Vice-president, Arnold McPhearson, valve shop; Treasurer, Glenn McConnell, electrical maintenance department; and Secretary, Ed Culberson, instrument maintenance department.

Elected as trustees were Russ Petty, cascade maintenance, 3 year term; Al Baughman, process area 2, 2 year term; and L. M. Crow, process area 3, 1 year term.

The Outdoorsmen Club is one of the most active in the GAT employee activity program. The Club has successfully carried out a program of hunter safety classes for the past three years.

Membership of the Club recently voted to buy 60 acres of land one mile north of Jackson on State Route 124. Long range plans call for the building of a club house and construction of a lake on the property.

Swim Club Organized For Pike County Pool

An organization known as The Pike County Swim Club has been organized in Waverly for the specific purpose of constructing a swimming pool in that community.

An incorporated, stock company has been formed to issue 200 shares of \$200 par stock certificates. To date over 125 individuals have purchased membership shares.

Goodyear Atomic employees serving on the board of directors are H. J. Rouff, process engineering, temporary chairman; C. A. Mentges, cascade operations; R. A. Holthaus, chemical operations; and J. G. Crawford, cascade coordination. Other employees active in the venture are W. M. Heber, chemical engineering; R. A. Kohler, cascade maintenance; and C. V. Scott, accounting department.

Rouff reported that the Paddock Engineering firm has been engaged to engineer the job. This company has reviewed six sites which have been under consideration by the committee, and are in the process of drawing up full design sketches of the proposed pool.

Any Goodyear employee wishing to become a member of the Pike County Swim Club may contact the employees mentioned above.

Basketball

Several GAT employees are active in area basketball leagues and exhibition games this season.

Playing under the banner of the "Portsmouth Moose Lodge," the team has played Bevo Francis' Ohio Stars, the Harlem Globe Sattelites, Lockbourne Air Force Base, and the Morehead College Freshmen. A return game will be played with Lockbourne on January 30.

The team is coached by Jim Gedra, plant engineering. GAT employees making up the squad are Norm Christopher, mass spectrometry department; George Kaut, plant engineering; Earl Staten, decontamination department; Art Roch, operations analysis department; and Jack Baer, reproduction department.

Gedra is negotiating with the Cincinnati Royals and the original Harlem Globetrotters to play exhibition games this season. The team also will enter post season independent tournaments at Minford, Lucasville, Portsmouth, Wheelersburg, and South Shore, Kentucky.

The man who is always looking down his nose gets the wrong slant.

Square Dance Class

A Beginner's Class in Western Style Square Dancing began last Friday, January 16, in the Waverly West Elementary Gymnasium. Ralph Howard, former General Secretary of the Pike County YMCA, is the instructor. Mr. Howard has graduated two classes during the past year and is the caller for the Pike Promenaders Square Dance Club. The class will meet each Friday at 7:45 p. m.

Registration for the class will close after the second lesson. The course will last for 12 to 15 weeks. Registration fee is \$1.00 per couple per lesson. Students will be asked to register for a minimum of five lessons.

GAT employees interested in registering for the classes should contact Mrs. Ralph Howard, telephone Waverly 315.

Classifieds

All Wingfoot Clan ads must be typed or printed, and contain a "blind" address or telephone number to which initial contact can be made. The ad must be signed in ink and carry the employee's department number, badge number, and plant-site telephone number. This service is for employees who have items to buy, sell, or trade. No commercial ads can be accepted.
