THE BEST IS YET TO COME

VOLUME VI

PIKE COUNTY, OHIO, WEDNESDAY, AUGUST 5, 1959

NUMBER 21

Review of Labor Relations

The award in the UPGWA arbitration case heard by Arbitrator Robert G. McIntosh on May 22 has been received. It is summarized as follows: **Grievance B-283A**

Grievance: Union claimed Company violated Article XIV, Section 3, when a member of supervision inspected a location in the Security Fence after the bargaining unit fence patrol had been discontinued for the shift.

Discussion: The arbitrator recognized the right and duty of management to inspect the work of patrolmen, but inferred in this instance that since no employee was at work on the task whose duties supervision could inspect or audit, supervision was just doing the work that the employee would have been doing had he not been relieved of his task. The arbitrator reasoned that if there were no employee to be inspected, there was no inspection of his work to do, and concluded that the work done by supervision was therefore that of the bargaining unit employee.

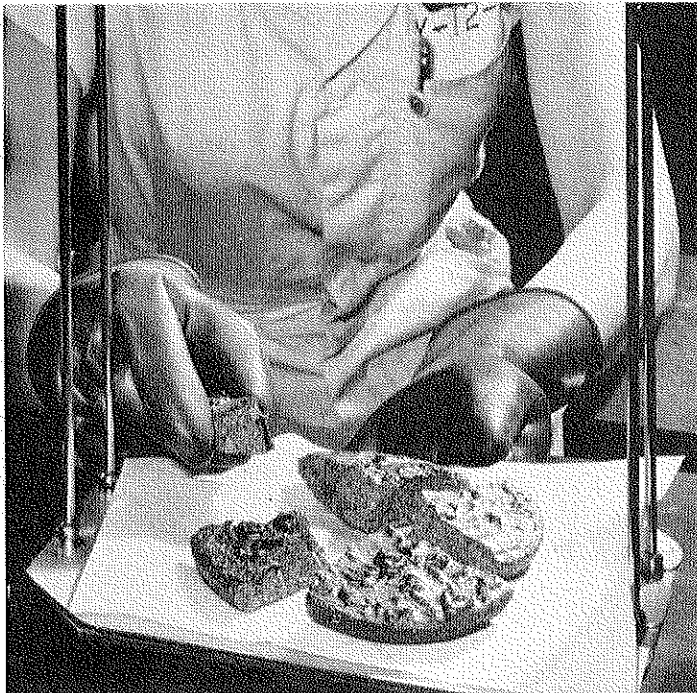

Award: Grievance allowed when a sergeant did work of a bargaining unit employee and the Company is referred to the arbitrator's discussion as to the means of avoiding such conduct again.

The following employees have been appointed as Shift Safety Representatives by Local 10-689, OC-AW:

- "A" Shift—W. J. Pinkerton, process area 5.
- "B" Shift—L. M. Haas, process area 5.
- "C" Shift—J. D. Atkins, fire department.
- "D" Shift—M. Picklesimer, utilities maintenance department.
- "O" Shift—J. H. Bech, utilities maintenance department.

Two arbitration cases have been scheduled for hearing before Arbitrator Frank R. Uible on September 23.

Your Work At GAT Helps Make This Possible

RELATIVELY FEW PEOPLE HAVE EVER SEEN U-235 in its metallic form. The picture, above, shows a technician weighing a broken uranium metal "button". Uranium-235 may be shipped to industry in the form of metal for fabrication for use in reactors.

GOODYEAR HOSTS 7TH ANNUAL GASEOUS DIFFUSION RESEARCH CONFERENCE

Members of Goodyear Atomic Corporation's technical division will be host to scientific and technical representatives from Illinois, New York, Washington, D. C., Michigan, Tennessee, Arkansas, Oregon, Georgia, and Ohio, on August 6 and 7.

The scientific personnel will be attending the Seventh Annual Gaseous Diffusion Fundamental Research Conference. Meetings will be held in the X-710 Building.

The conference which, it is anticipated, will now alternate between Oak Ridge, Tennessee, and the Portsmouth Area is devoted to an exchange of ideas and information relative to current research and development related to gaseous diffusion.

It is planned that the Portsmouth Area meetings center about chemistry, physics, and mathematics. The Oak Ridge meetings will be chiefly concerned with questions relating to barrier and flow in gaseous diffusion.

Participants in the conference will include D. H. Francis, Goodyear Atomic Corporation; Dr. C. R. Milone, Goodyear Atomic Corporation; Dr. P. R. Seufzer, Goodyear Atomic Corporation; Dr. Bernard Weinstock, Argonne National Laboratory; Dr. P. R. Ogle, Goodyear Atomic Corporation; and Dr. F. L. Horn, Brookhaven National Laboratory.

Dr. M. T. Roger, Michigan State

University; Dr. H. A. Bernhardt, Union Carbide Nuclear Company; Dr. E. J. Barber, Union Carbide Nuclear Company (Oak Ridge Gaseous Diffusion Plant); Dr. E. A. Jones, Vanderbilt University; K. E. Beu, Goodyear Atomic Corporation; Dr. R. E. Leed, Atomic Energy Commission; and Dr. M. K. Testerman, University of Arkansas.

Dr. D. F. Swinehart, University of Oregon and J. E. Murphy, Union Carbide Company (OR-GDP).

Blair Receives State Honor

Alex J. Blair, instrument maintenance department, has been elected first vice-commander of the Ohio Department of the American Legion. He was elected at the Legion Convention in Cleveland July 26. As vice-commander, Blair will head the membership and policy committee of the Ohio Legion for the coming year.

IMPROVED VENDING SERVICE

During the next 60 days, changes will be made in GAT's vending machine program which will affect service to many employees. Automatic Coffee Break, Inc., the vending company servicing plantsite, will become the sole vendor.

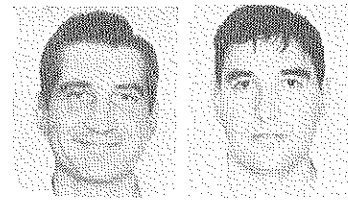

Excellent Response For Bloodmobile

Two-hundred seventy six pints of blood were donated by GAT, AEC, Slater System, and OVEC employees when the staff of the Huntington Regional Blood Center visited the plantsite last week. The visit was conducted under the auspices of the Pike County Chapter, American Red Cross. The excellent response by the employees assures GAT's continuation in the blood program and that an adequate supply of blood will be available should the need arise.

The amount of blood collected last week is the largest since July, 1955, when 280 pints were collected. In January, 1955, 330 pints were collected. Excluding the year 1955, last week's bloodmobile visit was the largest contribution since the inception of the blood program.

August Safety Slogan Winners

The two winners of the August Safety Slogan Contest are G. G. Galles, laboratory services department and A. P. Romero, process laboratory.

G. G. Galles A. P. Romero

Mr. Galles submitted this winning slogan:

"Safety Rules Are Safety Tools"

This winning slogan was presented by Mr. Romero:

"Whatever You Do Take Safety With You"

The August winners were selected from 62 slogans presented during the period June 22, through July 21.

Each employee will receive the customary \$10 cash award and the winning slogan entered in the Semi-annual Safety Slogan Contest.

Safety promotion is a major phase of a continuing safety program at GAT. With the safety man-hour figure well over the two million mark, employees are urged to keep the "green light lit for safety."

All bottled drink dispensers will be removed, and certain cup soda vending equipment will be replaced with improved 9 oz. cup vending equipment retailing the drink at 10 cents. The vending specialists point out that this move will materially improve the quality of the soda vended.

Seven additional fresh brew coffee machines will be installed in locations where the number of sales will assure freshness of the brew. Other locations will be served by combination instant brew—chocolate dispensers. All coffee will be vended in 7 oz. "China-Coat" cups and will sell for 10 cents.

Ice cream vending equipment will be removed since sales are not sufficient to assure avoiding a health problem due to the age of the product. The vending specialists tell us that it is typical of most locations that ice cream bars are not in sufficient demand to warrant vending.

Cigarette machines are to be removed in some locations where another machine is nearby or where volume is not sufficient to assure freshness. A number of two-bank, 22-column machines will be placed in popular areas.

Relocation of some hot food equipment and addition of hot sandwich machines is planned for some locations. Locally baked sweet rolls, doughnuts, etc. will be added to the pastry line in the near future.

The Automatic Coffee Break, Inc., management has convinced GAT that it is interested in providing top quality service. These changes represent an additional capital investment of over \$30,000 in vending machine equipment on the plantsite.

Traffic Accident Costs

STATEMENT	
DUE FROM: OHIOANS	
ITEM	CHARGE
Wage loss	\$73,000,000
Medical expenses	7,000,000
Insurance costs	83,000,000

WINNERS TO DATE

- R. R. Garlits, Piketon, Laboratory Services Department.
- R. D. MacDonell, Chillicothe, Standard Practice Department.
- T. S. Roth, Portsmouth, Mechanical Development Department.
- C. E. Alexander, Waverly, Laboratory Services Department.
- Glenn E. Johnson, Minford, Engineering and Maintenance Services.
- Eugene J. Gemperline, Portsmouth, Internal Audit Department.
- Stanley D. Classic, Portsmouth, Accounts Payable Department.
- W. A. Welton, Portsmouth, Chemical Cleaning Department.

Mouth-To-Mouth Resuscitation

More than two centuries ago, an English surgeon, Dr. William Tossach, encountered a crowd gathering around a cold, gray, limp miner, just rescued from a smoke filled mine. No pulse was detected. Tossach blocked the nostrils, applied his mouth to the worker, and inflated his lungs by blowing into them. Upon the fourth inflation, a pulse and heartbeat could be felt. Within four minutes, the miner resumed breathing.

"To physicians through the ages," says Dr. Vincent J. Collins, President, New York State Society of Anesthesiologists, "the idea of breathing for the unconscious by blowing air into the lungs has apparently seemed a natural and practical solution."

Sometimes called the "Biblical method," mouth-to-mouth breathing

Income Tax Tips

Did you wind up owing Uncle Sam additional income taxes this year because your withholding tax for 1958 was not enough to cover the total amount due?

The Internal Revenue Service says you can avoid this situation next time in an easy way.

You can increase your withholding simply by dropping one or more of the exemptions you claim on Form W-4, Withholding Exemption Certificate.

Taxpayers who wish to reduce the number of exemptions claimed for withholding purposes need only file a new Form W-4 with the Time-keeping and Payroll Department.

Those who need a further increase in their withholding must have a written agreement with the Company.

Buy Goodyear-Sell Goodyear In Final Week; Last Two Winners To Be Selected Monday

"Skyline View."

Two employees' names will be drawn as winners, next Monday, bringing the total to 10 in the current BUY GOODYEAR — SELL GOODYEAR Contest.

An all-expense paid weekend in New York is coming up for all these employees and their wives. Typical New York trip includes a stay at a popular air conditioned Hotel, dinner and dancing at the Latin Quarter, boat tour around Manhattan Island, visit to a major radio and television network studio and tour of the United Nations.

The first winner was chosen at GAT on June 15, following the

has been adopted for use with children by the American Red Cross. The technique is shown in the accompanying illustrations.

Research findings presented during a "Symposium on Mouth-to-Mouth Resuscitation," and reported in the Journal of the American Medical Association (May 17, 1958), conclude that, "these (comparative) studies have indicated the unequivocal superiority of mouth-to-mouth resuscitation over all manual methods in all age groups."

Authors of the various articles point out that some of the advantages of the mouth-to-mouth versus manual techniques are:

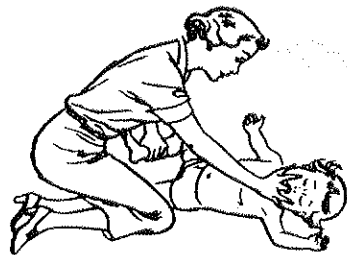

Skillful performance of expired air breathing is an easily learned, life-saving procedure.

Rescuers can maintain mouth-to-mouth breathing for an hour or more without fatigue even though the victim is twice the size of the rescuer.

In expired-air breathing, obstruction of the larynx—the most common cause of failure of any artificial respiration method—is prevented because the hands are free to keep the jaw slightly raised and the mouth open.

If an obstruction occurs during resuscitation, mouth-to-mouth techniques allow for immediate recognition and removal.

This technique can be performed without any extra equipment. With adjuncts, it is adaptable to many specialized resuscitation problems such as those encountered in contaminated atmospheres.

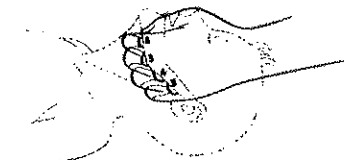

1. Clear the mouth of any foreign matter with the middle finger of one hand. With the same finger press the tongue forward.

2. Now place the child in a face-down, head-down position and pat him firmly on the back with the free hand. This should help dislodge any foreign object in the air passage.

3. Place the child on his back and use the middle fingers of both hands to lift the lower jaw from beneath and behind so that it "juts out."

4. Hold the jaw in the position described in Step 3, using one hand only.

5. Place your mouth over the child's mouth and nose, making a relatively leakproof seal, and breathe into the child with a smooth steady action until you observe the chest rise. As you start this action, move the free hand to the child's abdomen, between the naval and the ribs, and apply continuous moderate pressure to prevent the stomach from becoming filled with air.

When the lungs have been inflated, remove your lips from the child's mouth and allow the lungs to empty. Repeat this cycle keeping one hand beneath the jaw and the other hand pressing on the stomach at all times. Continue at a rate of about 20 cycles per minute. After every 20 cycles the operator should rest long enough to take one deep breath. If at any time you feel resistance to your breathing into the child and the chest does not rise, repeat Step 2, then quickly resume mouth-to-mouth breathing.

They Have A Home . . .

All Traffic Stops As Good Deed Is Accomplished

"How could anyone pass up the little fellows?"

This is the question Wanda Shugert, uranium control subdivision, asked as she stopped her automobile, got out and picked up two little puppies that were strolling down the road which leads to the drivegate entering the plant.

Officers

Vesta Cornett, medical department, is serving as a Star Point in the Eastern Star, Chillicothe.

Madge Booth, chemical analysis department, is serving as a Star Point in the Eastern Star, Wheelersburg.

Helen Lewis, medical department, is President of the Ladies Auxiliary, Post 841, VFW, Portsmouth.

"I felt so sorry for those little puppies," she said, "they were dodging in and out between cars — it's a wonder someone didn't run over them."

Evidently a lot of other GAT employees felt the same as Wanda — they patiently waited while she left her parked car, gathered up the puppies, and went on her way to work.

The little fellows now have a permanent home. One was claimed by Eve Burns, property records department, of Jackson, and the other was given a home by Chuck Crabtree, central files department, who lives in Oak Hill.

Economic Cost Of Traffic Accidents

Economic losses as the result of traffic accidents on Ohio's streets and highways during 1958 amounted to \$250,000,000, based on National Safety Council estimates.

This staggering loss, if shared equally by each of Ohio's more than 4,000,000 motor vehicle owners, would amount to \$61, respectively.

Of the \$87,000,000 property damage, \$54,800,000 was actually recorded in the 143,514 accidents reported to the Department of Highway Safety during 1958. The remaining damage was chargeable to the thousands of non-reportable accidents (damage under \$100 to any one person's property).

Although monetary losses can be measured, sorrow and suffering are the incalculable costs of traffic accidents.

Election Held

At a recent election held at the American Legion Post No. 142 in Waverly, Ohio, the following two Goodyear employees were elected to office: E. R. Newman, water treating department, 1st Vice Commander and O. Nice, fire department, Chaplain.

Goodyear employees appointed as chairmen of activities committees are: J. O. Brooks, safety department, Americanism; O. F. Tussey, electrical maintenance department, Athletics; W. W. Carnes, fire protection engineering, Disaster; and E. R. Newman, water treating department, Membership.

Editor F. D. Hyland

Community Relations Coordinator Paul F. Bliss

Member Association of Nuclear Editors and affiliated with International Council of Industrial Editors.

YOU ARE A POLITICIAN!

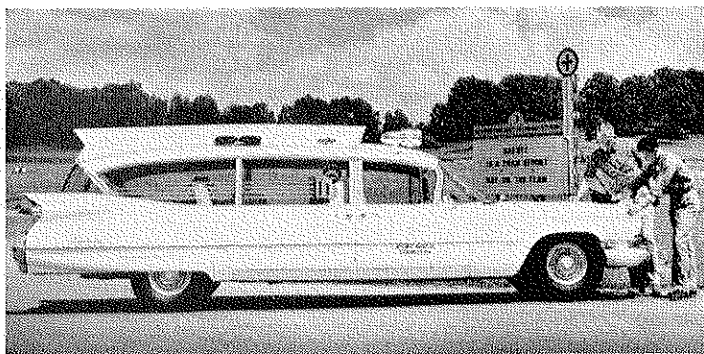

You are involved in political affairs, whether you want to be or not. The only question is whether you intend to have a voice in determining the kind of public policies you are going to have to live with.

Most political issues these days are also economic issues. For example, the level of taxes you pay certainly has a direct influence on your standard of living. And the amount of federal government spending inevitably affects the value of the dollars you have left after taxes — and these dollars have been losing value continually in the last two decades.

Voting once a year is fine. So is taking part in local civic activities, such as fund-raising or other voluntary work.

But these things are not enough to help shape the course of political events which will affect the living standards, and perhaps the individual liberties, of you and your family. When you take an active interest in political affairs all the year 'round . . . let your representatives in federal, state and local governments know your views . . . then you can look at the improving 'state of the nation' and say to yourself: 'I have been a part of this.'

AT YOUR SERVICE. Let's hope none of us have to use this new addition to the GAT Fire Department. Pictured above is the new Cadillac ambulance which is equipped with the latest type first-aid devices. Looking it over is G. T. Sammons, ambulance driver on "A" Shift, and O. F. Tussey, fire chief.

Softball

Several GAT employees are competing in the Amateur Softball Association, District 8 Tournament with the Portsmouth Moose Lodge Team.

The tournament is being conducted in Jackson as a double elimination affair with 18 teams competing.

The winner advances to the Ohio State Tournament at Clyde, Ohio August 21-25.

The Team is co-managed by Jim Gedra, plant engineering, and Tom Taulbee, engineering and maintenance services department. Other GAT employees are Ed Kessinger, Al Nelson, George Kaut, Jim Scott, Les Brafford and Sonny Ross.

Earley-Beoddy

James T. Earley and Frances Ann Beoddy were married July 11, in the Piketon Methodist Church, by the Reverend Waid C. Radford. Mr. Earley is in the chemical analysis department.

Plummer-Shugert

Wanda Jane Plummer and Boyd W. Shugert were married July 18, in the Bigelow Methodist Church, Portsmouth, by the Reverend Charles W. Lovell. The new Mrs. Shugert is in the uranium control subdivision. Mr. Shugert is in the process engineering department.

Ward-Lowery

Walter Ward and Mrs. Lenora Lowery were married June 30, in the Methodist Church, Hilliards, Ohio, by the Reverend John Adams. Mr. Ward is in the electrical maintenance department.

Mr. and Mrs. David Prosch, daughter, Pamela Ann. Mrs. Prosch, (Unadel) is on leave of absence. She was formerly in the industrial hygiene and health physics department.

Mr. and Mrs. Robert E. Shoaf, (chemical analysis department), daughter, Cynthia Yvonne.

Mr. and Mrs. Gene O. Price, (cascade coordination), son, James Roger.

Mr. and Mrs. Norman F. Reiter, (special analysis department), daughter, Patricia Eileen.

Mr. and Mrs. William H. Norman, (fluorine generation department), son, Stephen Owen.

Mr. and Mrs. Edward Tepper, (chemical operations), son, John Michael.

Mr. and Mrs. Robert Fuller, (chemical operations), daughter, Linda Carol.

Mr. and Mrs. W. G. Donahoe, (fire department), son, Robert Eugene.

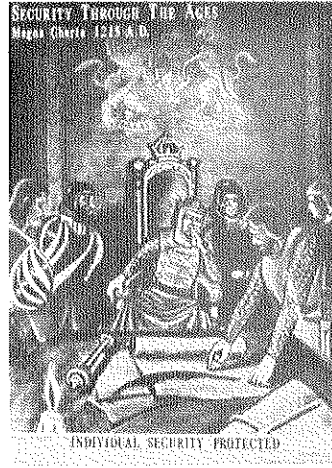

Mr. and Mrs. D. E. Easter, (fire department), daughter, Tammy Lou.

Bowling Meeting

A meeting of the Goodyear Women's Bowling League of Jackson will be held Friday, August 21, at 8 p. m. in the Ohio Fuel Gas Company office. The purpose of this meeting is to form teams for the coming bowling season. All women interested in bowling in Jackson's new bowling alley are urged to attend this meeting, or contact one of the following members to assure being included in this year's league; Janet Forsyth, extension 2101 (plant); Joan Grow, Jackson 328-X; or Irene Bender, Jackson 1082-L.

Security Through The Ages

EIGHTH OF A SERIES

IN MEMORIAM

Edward Ellsesser, 78, died July 20, in Mercy Hospital, Portsmouth. A son, W. E. (Peg), is in the engineering and maintenance services department.

Will J. Lester, 68, died July 25, in Los Angeles, California. A son-in-law, Lloyd Fuller, is in the personnel services subdivision.

Archie C. Craft, Jr., 75, died July 6, in Whitesburg, Kentucky. A son, Joe Craft, is in the mechanical development department.

Sally Walker, 32, died July 23, in the Oak Hill Clinic. The husband, Ed Walker, is in the sheet metal shop.

James P. Gasaway, 89, died July 4, in City Hospital at Springfield, Ohio. A grandson, Ralph Gasaway, is in the mechanical development department.

DOUBLE ELIMINATION SOFTBALL TOURNAMENT

- Inspectors vs Regulars
- Stores vs Crimson Mules
- Grippers vs "C" Shift
- Flubs vs Turtles

The tournament is scheduled to get underway next week in Waverly and Portsmouth.

SET AND READY TO GO. The ladies pictured above are looking down the alley toward another successful bowling season. They represent the various ladies bowling leagues on the Women's Bowling Committee. In the center is Marian Shawkey, committee chairman, employment department. Others from left are Anita Brower, Waverly, cascade coordination; Anita Pflug, Portsmouth, security department; Eileen Ward, Portsmouth, electronics department; Alberta Sparks, Waverly, purchasing department; Meredith Evans, Jackson, materials and service subdivision; and Janet Forsyth, Jackson, general manager's office.

—Photograph by Don Landstrom

Remaining Golf Events

The GAT Golf Committee has scheduled the following events during the remaining part of the golf season:

Two-ball Mixed Foursome—Portsmouth Elks Country Club.

The Flight Championships—Chillicothe J-C Golf Course and Portsmouth Elks Course.

Tentatively, a two-ball mixed foursome is scheduled to be held at the Elks Country Club on Friday, September 4, at 5:00 p. m. Reservations for this handicap tournament must be made at the Recreation Office no later than Friday, August 28. The top three teams will receive trophies at the Annual Banquet of Champions.

The playoff to determine the company and flight champions will be held on September 12 and 19. Golfers participating in this event will be placed in one of six flights; namely, championship, 1st, 2nd, 3rd, 4th and 5th. A person's handicap will determine in which flight he will play. Each flight will have its own respective champion.

Handicaps will be based upon the four lowest scores shot during the golf season. These four scores will be taken from either league participation or participation in the golf playdays. A cut-off date for determining a person's handicap will be Friday, August 21. Persons who will not have four scores by August 21, may participate in this playoff, but will be placed in the championship flight.

A person placed in one flight may declare his intentions to participate in another, provided that he moves into a lower handicap flight.

Those persons playing in the first and championship flights must play 36 holes. Eighteen holes will be played at the Chillicothe J-C Course on Saturday, September 12, and the second 18 at the Portsmouth Elks course on Saturday, September 19. All other flights will be 18 holes at the Elks Club on September 19. During the week of August 24, information showing in which flight each player will play will be distributed to all golfers.

A playday will be held in conjunction with the flight championship on September 19.

If there are any questions concerning these three events, please telephone the Recreation Office, Extension 2158.

Bowling

Officers of the GAT bowling leagues are urged to organize their respective league for the 1959-60 season.

Employees who would like to bowl but are not members of a team should call the Recreation Department.

Classifieds

All Wingfoot Clan ads must be typed or printed, and contain a "blind" address or telephone number to which initial contact can be made. The ad must be signed in ink and carry the employee's department number, badge number, and plant-site telephone number. This service is for employees who have items to buy, sell, or trade. No commercial ads can be accepted.

FOR SALE

Dachshund Puppies. A registered litter (AKC). One male and one female at \$60 each. One male at \$40. Telephone Jackson 1147 between 9 a. m. and 5 p. m. After 5 p. m., telephone Jackson 3012-J.

House for sale by the owner. Six rooms and a bath. Three bedrooms, living room, dining room, kitchen with built in cabinets, tile bath, knotty pine breezeway, attached garage. Beautifully landscaped lot, 120 x 150. Price \$13,500. Location Coles Park, West Portsmouth, Ohio. Telephone Portsmouth ULster 8-4070.

One 5 1/2 HP Chris Craft outboard motor. One 3 1/2 HP Elgin outboard motor. One Key Machine with 1000 blanks. Telephone Jackson 324L.

14' Crosby Fiberglass boat. Deluxe model with walk-thru deck. 35 HP Evinrude lake motor. 15' Tee Nee Boat trailer. Complete with canvas. Telephone Waverly 857W.

14' Runabout, decked. 25 HP Evinrude. Skis, trailer, remote controls, ski rope. Telephone Waverly 242W or may be seen at 205 1st Avenue, Waverly.

Metal bedsprings with cover (double size). \$5.00. Telephone Chillicothe—Prospect 4-1977.

Nine Hampshire and White IOC pigs. \$10 each. Telephone Piketon 4267.

14' Runabout with 30 HP Evinrude Lark (electric starting) motor. Boat has fiberglass bottom, 18" custom windshield, full convertible top and side curtains, upholstered seats, 4 life packets, water skis, 2 tow ropes and many more extras. Sale price \$695.00. Telephone Sciotoville 184-X.

WANTED TO BUY

Pekingese dog. Prefer female. Registered. Age—less than ten weeks. Telephone Chillicothe Prospect 5-9723.

Deep freeze in good condition. Telephone Portsmouth ULster 8-6623.

Bowling

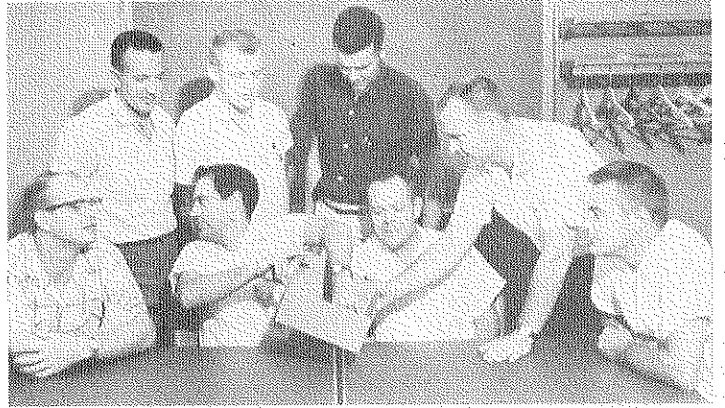

A new league is being organized to bowl at the Jac-Vac Lanes in Wellston. Those who care to bowl in this league should contact Rodney Dye, telephone extension 3103 or Bill Barnett, extension 2259.

Horseshoe Tourney Scheduled

A horseshoe tournament will be held in Waverly on Saturday, afternoon and evening, August 29, 1959. All individuals who care to participate must register at the Recreation Office. Those who participate will be placed in flights. The number of flights will depend upon the number of entries. Each flight will have its own respective champion.

Ringer percentage will determine flights. If one does not have a ringer percentage, he must pitch 100 shoes and record the number of ringers. The ringer percentage must be submitted to the Recreation Department when registering for the tournament. Registrants without a ringer percentage will be placed in the championship flight. All entries must be submitted no later than August 24, 1959.

Winners of each flight will be presented a trophy at the Annual Banquet of Champions.

THE LUCK OF THE DRAW. Representatives of GAT Softball teams get together to draw for positions for the forthcoming Company Softball Tournament. Holding the box is Charlie Kinker, Inspectors, as Marvin Tester, Crimson Mules, makes the first draw. Others in the picture are from left seated: Bob Keefe, Flubs; Bill Conley, Grippers; and Russ Foster, Stores. Standing from left: Howard Cutright, Regulars; Gerald Neal, "C" Shift; and Jim Van Dyke, Turtles.

—Photograph by Don Landstrom

Would You Like To Bowl?

The Thursday Night Bowling League of Portsmouth needs bowlers. Last year the league consisted of 12 teams. This year it is hoped to increase the number of teams to 16.

Various teams need bowlers. One complete team is needed to enable the league to begin bowling on Thursday, September 3, at 6 p. m. in the new Sunset Lanes, Portsmouth.

Employees desiring to participate in this league are requested to contact Ralph Dials, Secretary, X-720 building.

The GAT Women's Bowling League of Portsmouth is attempting to increase the number of participants this coming season.

Last year the league operated as an eight-team league with four women per team. This year it is hoped to increase the number to five per team.

Female employees who desire to

bowl in this league as permanent members or substitutes, or know of any GAT wives who may be interested in bowling, should contact Charlotte McGraw, Secretary, purchasing department, X-100 building.

The league will bowl in the new Sunset Lanes, Portsmouth, on each Tuesday at 6 p. m.

Regular and substitute bowlers are wanted for the GAT Women's Bowling League of Waverly. The league will bowl on Tuesday evening at the Weiss Recreation Center, Waverly.

Anyone interested should contact Ethel Noel, Secretary, plant engineering, X-100 building.
