GOODYEAR

ATOMIC EDITION

THE BEST IS YET TO COME

1960

*All In One Campaign*

**Goodyear Atomic Corporation**

**FOUR MILLION MAN-HOUR SAFETY RECORD.** The technical division received recognition certificates for its record of 4,126,000 manhours without a disabling injury, September 10. D. H. Francis, far right, general manager, is shown presenting the first certificate to Dr. C. R. Milone, manager, technical division. C. L. Stewart, left, superintendent, safety and fire protection, and D. W. Doner, manager, industrial relations division, watch the presentation.

**Safety Recognizes Things That Don't Happen**

**Recognition Given Technical Division For Envious Safety Record**

On September 10, the technical division established a very enviable safety record . . . 4,126,000 manhours . . . 2,444 days without a disabling injury.

Recognition for this accomplishment came at a luncheon in the GAT cafeteria attended by technical division supervision.

D. W. Doner, manager, industrial relations division, acting as a master of ceremonies, introduced the subject of "Safety" by pointing out that Goodyear has a forty year history of formal safety-consciousness. He referred to Jack Kidney, now retired, saying that anyone who had been associated with Goodyear, through the years, automatically thinks of Mr. Kidney whenever the word "Safety" is mentioned. Mr. Kidney was associated with Goodyear safety programs for forty years.

Mr. Doner also mentioned the Slusser Safety Contest which was originated twenty-five years ago. He noted that Goodyear Atomic participates in the Slusser Safety Contest, inasmuch as GAT is compared with all other Goodyear plants safety-wise.

D. H. Francis, general manager, presented the first Safety Recognition Certificate to Dr. C. R. Milone, manager, technical division.

Dr. Milone expressed his appreciation to Mr. Francis, Mr. Doner, and the safety representatives for the Recognition Luncheon and, in turn, expressed his thanks to all supervision "for the job you have done." He stated that the presence of supervision at the luncheon points up Goodyear's recognition of supervision's responsibility for the safety of all em-

ployees.

"Safety needs," Dr. Milone said, "the cooperation of all people. Please extend my appreciation to all technical division people for the job they have done. Be assured that their efforts are appreciated."

"The certificates which you are being given today are, in actuality, given to your people through you. You are the custodians of the certificate."

"Recognition will, we hope, bring renewed effort to maintaining and thereby attaining a still greater record. Inasmuch as safety is the recognition of things that don't happen, it is difficult to visualize the meaning and importance of a safety program. But safety demands the best possible thought on the part of all of us. Safety isn't a coincidence. We cannot accept that safety just happens."

"Mr. Doner, in bringing the luncheon to a conclusion, reiterated that safety, like all other industrial achievements, gets results through people. The safety department, he said, did not make this record. The safety department is available for professional service and is anxious to serve, but the people made the record. He also pointed out that the safety department would like to give credit to S. D. Schneider who should be recognized for his efforts in developing the technical division's safety programs.

There is little glamour in the day by day maintenance of a safety record. The tendency, once a record has been attained, is to "lay back on your oars" and feel that accidents just can't happen. This is just the time that accidents do happen!

**All-In-One Week October 5-9**

**ALL-IN-ONE CAMPAIGN GETS UNDERWAY MONDAY; PAYROLL DEDUCTION EMPHASIZED**

October 5, marks the kick-off of the 1960 All-In-One Campaign. A joint Labor-Management Committee has been selected and, in past years, will work cooperatively in seeking one-hundred per cent participation by the employees.

The Campaign benefits residents of Jackson, Pike, Ross, and Scioto Counties. For those employees residing in Kentucky, east and west of Portsmouth, the Scioto County Community Chest will cooperate by sending employees' contribution to the designated United Fund agency. Monetary goals sought by counties are: Jackson County—\$33,000; Pike County—\$20,500; Ross County—\$119,604; and Scioto County—\$175,966. The grand total of \$349-

070, is a decrease in the aggregate goals sought by the four counties last year.

Serving as co-chairman with Dr. Paul F. Bliss, community relations coordinator, is Vernon Beasley, utilities maintenance, committeeman of Local 10-689, OCAW. They had this to say about GAT's All-In-One Campaign — "GAT employees who give their 'fair share' in this concerted effort will be helping their own community. This is done conveniently by pledging a fair share gift to the All-In-One Campaign through payroll deductions through the year. The All-In-One Campaign is designed to concentrate charitable solicitations into one campaign and is the only drive authorized on plant-site

throughout the year."

Employees of Goodyear Atomic Corporation have been and continue to be community minded citizens. They have always responded when the needs of their community are known. Following is the history of employee contributions in previous years:

Year	Employee Contribution	% Employee Participation
1955	\$23,644.00	92
1956	26,000.00	93
1957	20,024.55	66
1958	25,687.92	90.2
1959	24,523.25	91.8

Help those who need help to help themselves by contributing to the All-In-One Campaign.

H. McClelland

**15-Year Pin To McClelland**

H. (Mac) McClelland, supervisor of GAT's training department, was presented his 15-year service pin Friday, September 25, by Lloyd Fuller, superintendent, personnel services subdivision.

The award presentation was made in the presence of training department personnel and other co-workers in personnel services.

(Continued on page 4)

**COMPANY STRESSES TEAM EFFORT IN ALL-IN-ONE CAMPAIGN**

An organizational meeting of the 1960 All-In-One Campaign for division managers, superintendents, campaign co-chairmen and union representatives was held in the top secret conference room September 21, with Co-chairmen Vernon Beasley and Dr. Paul F. Bliss presiding.

D. H. Francis, general manager, emphasized that the All-In-One Campaign is the only authorized in-plant solicitation during the year. "Again this year," Mr. Francis said, "we are stressing payroll deductions and are seeking one-hundred per cent participation by our employees." He complimented GAT employees for their fine efforts in the past in the support of the United Fund effort.

D. W. Doner, manager, industrial relations division, hit upon three important points as an aid for a successful All-In-One Campaign. (1) The job can't be done alone; (2) Each one in attendance at this meeting must accept his responsibility in doing his "fair share"; and (3) Double our efforts on payroll deductions.

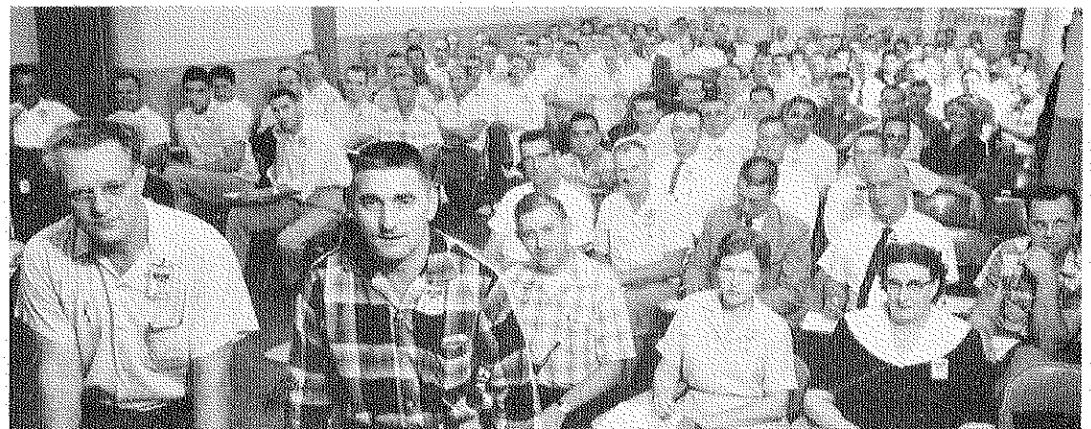

Vernon Beasley, co-chairman of the 1960 All-In-One Campaign, introduced the superintendents and union representatives for the various divisions. C. L. Stewart and R. J. Kinker, 200 division; M. R. Zigler and C. C. Day, 400 division; A. H. Wernecke and T. F. Hammond, 500

division; J. K. Boughton and S. K. Davis, 700 division; R. J. Nance and C. E. Adkins, 700 division; W. F. Culp and A. W. Reynolds, 700 division; C. A. Mentges and J. N. Sansom, 800 division; J. B. Mitchelson and H. L. Smith, 800 division; and R. M. Rutherford and R. B. Arnett, 800 division.

The union representatives selected will work cooperately with the superintendents in picking solicitors to team with supervision in canvassing employees. "We accept our responsibility," Beasley stated, "in explaining the needs and purposes of the United Fund Agencies to members of Local 10-689, OCAW."

Rawland Rickey, president, Local 66, UPGWA, stated that representatives would be appointed from the UPGWA as solicitors to cooperate with police supervision.

In conclusion, Beasley reviewed the various materials to be used in this year's campaign. He pointed out that all bulletin boards would show a day to day chart giving the progress of employee contributions.

**1960 ALL-IN-ONE CAMPAIGN SOLICITORS MEETING.** Pictured above are the solicitors responsible for carrying out this year's All-In-One goal of 100% participation. In the left foreground are the co-chairmen for this

year's drive Dr. Paul F. Bliss and Vernon Beasley. The campaign begins October 5, and runs through October 9. Major emphasis this year is on (1) team effort; (2) increased payroll deduction.

**FIRE PREVENTION**

Fire Prevention Week 1959 (October 4-10) is a good time to eliminate fire hazards from your work area and home . . . to examine your habits and practices for invitations to the tragedy of fire . . . to do all in your power to protect yourself from the heartbreak and economic loss a fire leaves behind.

# THE WINGFOOT CLAN

**ATOMIC EDITION**

THE BEST IS YET TO COME

Published semi-monthly in the interest of employees of the Goodyear Atomic Corporation.

Office: X-100 Building, Second Floor, South Wing  
Telephone 2165

Editor . . . . . F. D. Hyland

Community Relations Coordinator . . . . Paul F. Bliss

Member Association of Nuclear Editors and affiliated with International Council of Industrial Editors.

## SCHOOLS STARTED . . . LET'S GET GOING!

A slang expression heard often at the ending of a day is . . . "School's out! Let's go home."

Area schools have been in session for a month. Perhaps we as community minded citizens and parents should say, "School's started . . . Let's get going!"

Many GAT employees realize their personal responsibility to the school in their community. Many of our employees are very active in local PTA's, school boards, city councils, school building committees, curriculum studies, etc.

Schools have changed since most of us entered the first grade. The "little red schoolhouse" has almost completely faded from the scene. The one-room school building has been replaced by a modern, consolidated, up-to-date edifice. We all want the educational program to keep pace with the modern buildings. There is much discussion concerning what adds to or detracts from the educational program.

Some people wonder if television has been a deterrent . . . it can be . . . but some believe that TV has helped . . . it can. There are programs designed to stimulate the students interest in learning and help them to keep abreast of current affairs.

Parents can help guide their children through their early schooling in many ways. Perhaps the most important factor in helping children is for them to know that their parents are interested. Children will respond when parents show interest, and provide encouragement. Help them to set worthwhile goals . . . of good attendance . . . good deportment . . . high grades; it will help them to know what is expected of them.

Parents also should teach their children the value of safety; to stop, look, and listen before crossing streets or railroad tracks. It's not old-fashioned to be cautious.

Parents and teachers should cooperate in aiding the student. Each should get to know the other. Find out from the teacher if the student is working near the level he is capable of attaining . . . how he measures up to standards set for his grade . . . and how well he gets along with others.

It will help you to help your child if you will remember how much education has changed since you went to school.

## Inoculation Program

Over one-thousand inoculations have been administered in the current preventive influenza program which began September 1. Three-hundred and thirty-two employees had completed the two-shot series through September 24. This corresponds favorably with the total number who participated in the program last year over the same period of

time. Only one inoculation was required last year.

Employees desiring to participate in this preventative program should do so in the near future.

The inoculations must be administered when the employee is free of cold or cold symptoms.

## Our Cover

The *Clan* cover of this issue is a montage prepared by D. J. Landstrom, GAT photographer, depicting various agencies for which the United Funds have accepted responsibilities throughout the four-county area.

The 1960 All-In-One Campaign gets underway Monday, October 5, at Goodyear Atomic Corporation.

The All-In-One Campaign has the full endorsement of the company and is a joint Labor-Management effort.

## IN MEMORIAM

Mrs. Wolanda Barbera, 57, died suddenly in Messina, Sicily, September 17, 1959. A son, Al Barbera, is in the engineering costs and property records department.

Billy F. Birkhimer, 33, was fatally injured September 26, in a motorcycle accident. He was in the utilities maintenance department.

SCIOTO COUNTY MINISTERIAL ASSOCIATION VISITS PLANTSITE. Goodyear Atomic Corporation was host to 35 members of the Scioto County Ministerial Association. The group pictured above was welcomed by D. H. Francis, general manager, who presented an

unclassified description of the gaseous diffusion process. Dr. C. R. Milone, manager, technical division, spoke concerning the present and future applications of atomic energy.

*Five Year Pins*

Employees receiving five year pins between October 1, and October 15, are as follows:

- |                 |                  |
|-----------------|------------------|
| M. J. Mullens   | J. R. Schneider  |
| P. L. Gulker    | W. B. Blanton    |
| D. J. Walters   | J. A. Brunner    |
| C. L. Wilson    | O. L. Gammon     |
| A. N. Fogg      | H. Williamson    |

## Bid Edmund Becomes Executive Consultant At GT&R

W. H. "Bid" Edmund, widely-known booster of recreational and other community activities, has been appointed executive consultant, at GT&R.

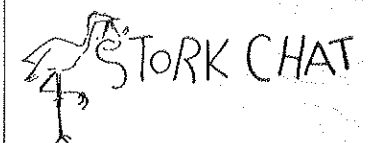

In his new position Edmund will fulfill public speaking engagements at important functions throughout the nation and, in addition, will play an important role in Goodyear's external public relations activities.

Edmund formerly served as director of recreation for Goodyear-Akron, a position he held since 1944. During the past 15 years he has been responsible for employee recreational activities for both the parent company and its subsidiary, Goodyear Aircraft Corp. Under Edmund's direction the company's recreation program has not only been broadened, but it has become an outstanding one in industry.

Edmund served two years as president of the National Industrial Recreation Association and has been prominently associated with the Akron Kiwanis Club for many years. He is past governor of the Ohio District of Kiwanis International.

He is a member of the National Rules Committee of the All-American Soap Box Derby.

Employees at GAT, who attended the 1956 Banquet of Champions, will remember Edmund as the guest speaker.

Mr. and Mrs. Ray McNaughton, (accounts payable and cashier's department), daughter, Cathy Ellen.

Mr. and Mrs. Jack C. Good, (instrument maintenance department), son, Michael David.

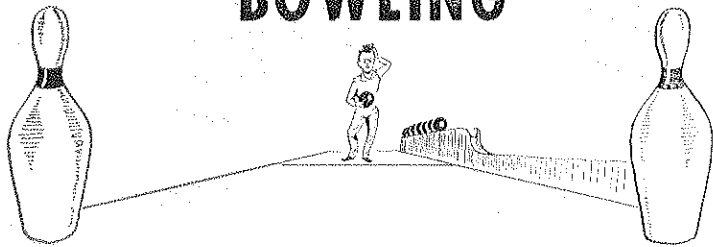

Mr. and Mrs. James G. Burke, (process area 4), daughter, Donna Rose.

SUMMER SQUADRON PARTICIPANTS. Pictured above are the personnel in Goodyear Atomic's Summer Squadron program for undergraduate technical students. Seated left to right are: Frank A. Blood, Jr., Case Institute of Technology; D. Karl Landstrom, Massachusetts Institute of Technology; Gerald D. Bowling, Ohio University; Ronald C. Hurd, Ohio University; and Jeanne Alexander, Oberlin College. Standing from left: F. E. Pickens, miscellaneous personnel services depart-

ment; D. H. Francis, general manager; R. C. Fleming, employment department; Thomas A. Brackett, Ohio State University; Grant E. Culley, West Virginia University; L. David Laxterman, University of Dayton; Michael Sand, Ohio University; Richard B. Reynolds, Miami University of Ohio; Charles A. MacMillan, University of Notre Dame; James E. McNeer, Jr., Ohio University; Jay M. Wilson, Ohio State University; and James Kennedy, Western Reserve University.

# BOWLING

The *Clan* has been notified of the following as reporters for bowling: G. W. Pelfrey—"A" Shift, Portsmouth; J. K. Stevenson—"A" Shift, Waverly; Mary Allen—Jackson Women; Howard Galloway—Waverly Monday Night; Madge Booth—Portsmouth Women; Warren Farmer—Jackson Men; Bob Adams—Portsmouth Thursday Night; Leonard Lanni—Chillicothe Men.

The "B" Shift Bowling League of Waverly has openings for at least three or four regular bowlers due to realignment in the chemical operations department. If interested contact Paul Cravens, utilities maintenance department, or C. R. McNish, fire department.

Dick Entler, rolling with the Bloopers, made the 6-7-10 split on September 10.

Eileen Ward of the Portsmouth Women's League came up with an "all spare" game September 15, for a total score of 182.

## Dick Entler Wins GAT Golf Title

Ninety-five GAT golfers turned out for the last playday of the season September 19, at the Elks Country Club, Portsmouth.

Emerging as the 1959 Company Champion was Dick Entler, laboratory services. The following were winners in the flight championships: Ed Alexinas, first flight; Ray Jamison, second flight; M. V. Gill, third flight; Harry Baumgardner, fourth flight; Don Burke, fifth flight; and Ollie Vita, sixth flight.

Wayne Pollard, carpenter shop, was runner-up to Entler. Roy Gustavson, mechanical development, finished third in the company championship event.

## Museum Of Atomic Energy

The Atomic Energy Commission has announced that after June 30, 1960, no Commission funds will be available for the operation of the American Museum of Atomic Energy.

The Museum, which has been operated by the Institute since its opening in July 1949, has been visited by more than three quarters of a million people.

## OU Football

A change in policy pertaining to Ohio University football games will affect some 500 area Ohio University Branch students.

Students attending any Ohio University Branch will be admitted to OU's home games by presenting Branch identification cards.

Employees enrolled in Ohio University plantsite courses under the company's educational assistance program will also benefit by this policy change. Identification cards are available through the training department.

Ohio University's home schedule: October 3—Kent State  
October 10—Xavier  
October 31—Western Michigan  
November 21—Bowling Green  
All games will be played on Saturday afternoon.

## McCLELLAND

(Continued from page 2)

McClelland began his career with Goodyear in the fuel cell technical service department September 25, 1944. He also worked in tube technical service, tire mold design and was a technical writer at Goodyear Aircraft Corporation in Akron before joining the staff at Goodyear Industrial University. He was an instructor at GIU at the time of his transfer to GAT, January 16, 1953.

Mac is a graduate of Ohio State University with a B. S. degree in Education. The training program, which he supervises, received national recognition by the American Society of Training Directors when a case study of the program was presented at their annual conference held in Los Angeles in 1955.

He is active in Pike County civic life. He is a member of the Board of Trustees, Pike County YMCA; and a member of the Board of Trustees for the Ohio-West Virginia Area YMCA Council. He is the current president of the Pike County United Fund.

Mr. and Mrs. McClelland live at Lake White. A son, David, is a junior at Ohio State University. A daughter, Mary Alice, is a junior at Waverly High School.

## JACKSON CAMERA CLUB

Don Landstrom, GAT Photographer, was one of the judges in a quarterly print and slide contest sponsored by the Jackson Camera Club.

The Club met September 27, at the Scioto Motel.

## Classifieds

All Wingfoot Clan ads must be typed or printed, and contain a "blind" address or telephone number to which initial contact can be made. The ad must be signed in ink and carry the employee's department number, badge number, and plantsite telephone number. This service is for employees who have items to buy, sell, or trade. No commercial ads can be accepted.

### FOR SALE

Complete Lionel Electric Train set. O gauge track including 8 curved sections, 4 straight sections. Ninety watt transformer and instruction booklet. \$25.00. Telephone Waverly 829-M.

Power Mower—24" self-propelled reel type with 2½ HP Briggs & Stratton Engine. \$25.00. Telephone Waverly 64-J.

Two lots—59 x 145 each. Located in Preston Addition 3½ miles east of Lucasville. Inquire at 4251 Cedar Street, New Boston, Ohio.

1959 Ford Galaxie Convertible. Black—red interior. 10,000 actual miles. Inquire at Trusty's Service Station, Wakefield.

Five-room modern house, garage attached, sun porch glass enclosed, 4 outbuildings, on 4 acres of level ground. Telephone Portsmouth ULS-ter 8-3191.

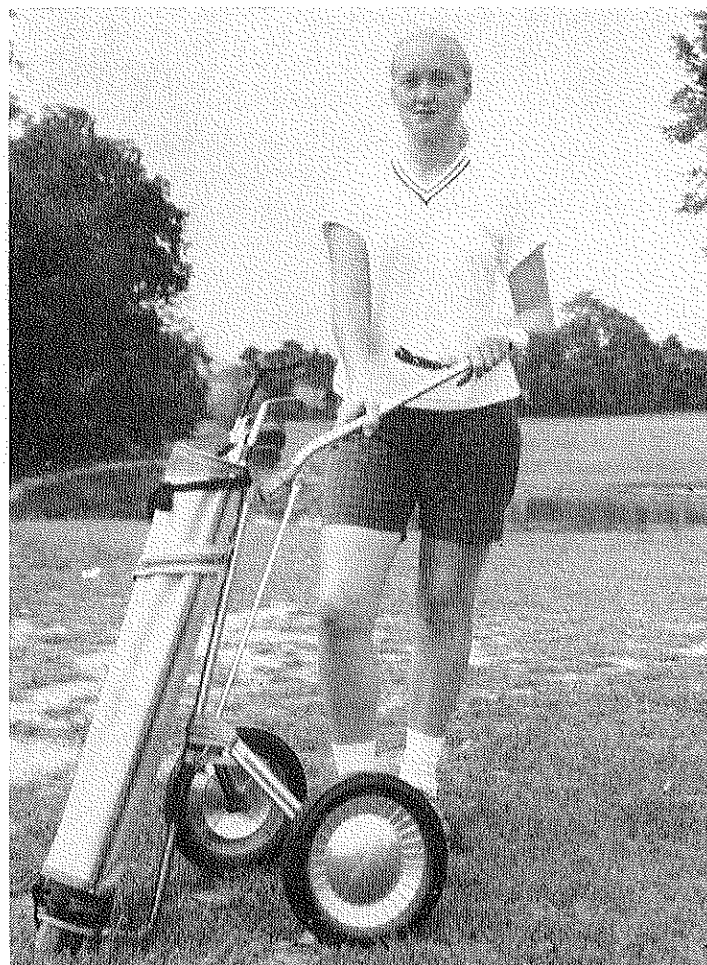

1957 Ford Fairlane Town Sedan. 4-door hard top. One owner car, 36,000 actual miles. New tires. A-1 condition. Telephone Portsmouth President 8-2034.

### FOR RENT

Two bedroom home (furnished or unfurnished). All modern. Constructed 4 years ago. Inquire at 125 Patterson Street, Piketon.

### WANTED

Car Pool Drivers. West Central Chillicothe to plant. O Shift. Inquire at 110 North High, Chillicothe.

CHAMPION OF THE WAVERLY WOMEN'S GOLF LEAGUE. This is Donna Oakley, wife of Merrill Oakley, operations analysis department. Donna won the Women's Golf League in Waverly with 32 points. Her nearest competitor was Jeanne DeVito, wife of Vince DeVito, SS engineering department.

## Regulars Defeat Inspectors Twice To Win Company Softball Title

The Regulars of the GAT Waverly Softball League are Company Softball Champions for 1959. They earned the title the hard way . . . by coming through the loser's bracket after being beaten once.

After being beaten 2-0 by the Inspectors from the GAT Portsmouth Softball League, Manager Howard Cutright and his team came back to take two straight from Tom Taulbee's perennial champions 10-4 and 1-0.

In the first win on September 22, Cutright tossed a 6-hitter to beat the Inspector's Hony Armstrong. Ollie Vita relieved in the 4th. Larry Curtis supplied the power at the bat for the Regulars with a 3-3 effort. Bill Masters had a 2-3 in a losing cause. The next night, September 23, Paul Neff was on the mound for the Regulars. Hony Armstrong for the Inspectors. In the top half of the 1st inning Dick Sparks led off with

a single, followed by Dick Schneider's single. Gene Edens singled Sparks home with what proved to be the winning margin. That was the ball game. Neff scattered 3 hits, struck out 9 and walked 1. Perhaps this win was "poetic justice" for Neff as he was beaten by the Inspectors in last year's tourney 1-0.

### THERE'S ALWAYS A NEED

Anyone may get into trouble. There are disasters, accidents, illness and unexpected deaths. There is crime, poverty, disease, delinquency. The United Fund agencies deal with these problems on a 365 days a year basis.

GOLF CHAMPIONS OF THE PORTSMOUTH WOMEN'S LEAGUE. Janet Eckhart (left) and Rhetha Massie (right) teaming as the Golf Bells won the Women's Golf League in Portsmouth. The team won 62 points over a 15 week period. The second place team, Mary Lou Scott and Barbara Bretz, totaled 57 points.
