

THE WINGFOOT CLAN

GOOD YEAR

ATOMIC EDITION

THE BEST IS YET TO COME

VOLUME VII

PIKE COUNTY, OHIO, WEDNESDAY, OCTOBER 21, 1959

NUMBER 2

Review of Labor Relations

William R. Murphy, Jr., chemical cleaning department, is the new President of Local 10-689, OCAW. He was installed at a regular meeting October 6. His election was the result of a special election held September 29, to fill the unexpired term of G. W. Coffindaffer, cascade maintenance department, who resigned.

The Local was represented at the OCAW International Convention earlier this month by J. F. Wettstein, electrical maintenance department; C. A. Romine, electrical maintenance department; H. N. Stone, instrument maintenance department; and B. D. Hurley, process area 4.

Sealed Bid Sale October 30

Goodyear Atomic Corporation will conduct a sealed bid sale at 2:00 p. m., on October 30. The sale will take place at Surplus and Salvage Sales Warehouse No. 4.

The property consists of approximately 18 used office desks, filing cabinets, drafting table and counter; one lot of 45 used chairs; one lot of used and unused office and photographic supplies; and one lot of 150 used and unused fire extinguishers, gas masks, boots and miscellaneous safety supplies and equipment.

Reactor Program

S. R. Sapirie, Manager of the Atomic Energy Commission's Oak Ridge Operations, has announced establishment of a new division for coordination of the reactor programs of Oak Ridge Operations.

The new Reactor Division was formed because of additional responsibilities assigned Oak Ridge Operations in the Commission's reactor programs. Recently, Oak Ridge Operations was assigned primary responsibility for the gas cooled reactor program and a feasibility study for a small nuclear power plant. Other reactor programs administered by Oak Ridge Operations include primary responsibility for the thermal breeder reactor program, including the homogeneous and molten salt reactor concepts, support effort for maritime and military reactor systems, and operation of six reactors at Oak Ridge National Laboratory.

THE CONCLUSION OF A SUCCESSFUL ALL-IN-ONE CAMPAIGN. Representatives of Goodyear Atomic Corporation and area United Fund leaders met on plantsite last week. Area leaders received the share of the employee and company contribution allocated to each county. Pictured from left are Vernon Beasley, co-chairman, GAT All-In-One; P. F. Bliss, co-chairman,

GAT All-In-One; D. H. Francis, general manager; D. W. Doner, manager, industrial relations; F. J. Vander Werf, United Fund of Ross County; A. C. Sanger, Jackson County United Fund; W. J. Fleck, Pike County United Fund; and David A. Vetter, Scioto County Community Chest.

Company Adds \$10,800 To Total \$33,706.15

GOODYEAR ATOMIC EMPLOYEES CONTRIBUTE \$22,906.15 TO AREA UNITED FUNDS

Goodyear Atomic's All-In-One Campaign was labeled a success last week when final reports were verified by the tabulating service department.

GAT employees contributed \$22,906.15. To this, the Corporation added \$10,800 to swell the total amount to \$33,706.15.

A total of 61.7% of the employees checked a payroll deduction pledge card. This brought the percentage figure to 91.4% which compares very favorably with last year. The average contribution per employee was somewhat larger than last year.

Area United Fund representatives were invited to plantsite last Thursday, October 15, to receive their share of the employee and company contribution.

The following is a percentage breakdown as designated by the employees which determined the amount of money contributed to each County.

Jackson County—10.8% — \$3,635.63 (includes \$20.98 undesignated share).

Pike County—29.5%—\$9,946.70 (includes \$57.30 undesignated share).

Ross County—18.5%—\$6,229.64 (includes \$35.94 undesignated share).

Scioto County—41.2%—\$13,894.18 (includes \$80.03 undesignated share).

The All-In-One Week was October 5-9. The above figures do not include contributions that came to All-In-One headquarters after October 14. When this money is added the employees will have contributed well over \$23,000. Money and pledges which came in after the Campaign closed will be sent direct to the designated United Fund.

THE ATOMIC AREA OPERETTA GUILD STARTS CASTING

The Atomic Operetta Guild starts casting Tuesday, October 27, at St. Mary's Hall in Waverly for their production "Naughty Marietta". The Guild presented "The Mikado" last year. This year the Guild plans to give performances in five locations: Portsmouth, Jackson, Waverly, Chillicothe, and Circleville.

The chorus rehearsals will start November 11, and continue until the first of the year. Rehearsals will recess through the holiday season and resume in January. It is anticipated that rehearsals after January will be at the Waverly High School.

Many GAT employees are active in the Atomic Operetta Guild. Serv-

ing as officers for the current season will be: S. J. Zangri, process engineering department, president; V. S. Emler, metallurgy department, vice-president; and Virginia Isaman, accounts payable and cashier's department, secretary. Members of the Board of Directors include Robert G. Stone, safety department; and Mrs. Carolyn Musil, wife of Frank Musil, physical measurements department. Production manager will be John Cannon, metallurgy department. Merlin Hanson, electronics department, will head the program and publicity committee. Other committee members are: W. C. McCluggage, operations analysis department;

Clarence Neal, engineering & maintenance services department. A. H. Pickelheimer, police department; and Robert Hook, chemical analysis department.

Other Board members are Mary Ann Rinehardt of Portsmouth and Tom Peters of Jackson.

The music will again be under the direction of Mrs. John Boggs, wife of J. M. Boggs, fluorine generation department. The dramatic co-directors will be Vince DeVito, SS engineering department; and Mrs. Mary Walder, wife of A. Walder, utilities maintenance department.

AEC Fellowships Available

The Atomic Energy Commission is accepting applications for 1961 academic year in three programs which offer graduate training in specialized fields relating to nuclear energy. The fellowships are in the fields of nuclear science and engineering, health physics, and industrial hygiene. All are for U. S. citizens.

The programs are administered for the Commission by the Oak Ridge Institute of Nuclear Studies, an educational corporation of 37 southern universities and colleges with headquarters at Oak Ridge, Tennessee.

Applications and further information on all three programs may be obtained from the Fellowship Office, University Relations Division, Oak Ridge Institute of Nuclear Studies, Post Office Box 117, Oak Ridge, Tennessee.

Bloch Promoted By AEC

E. J. Bloch has been appointed Assistant General Manager for Manufacturing for the Atomic Energy Commission. Mr. Bloch was Director of the Commission's Division of Production.

Mr. Bloch first became associated with the Nation's atomic energy program in 1943 when he was assigned to the Manhattan Engineer District. He joined the AEC in November, 1946, as Executive Assistant of the Commission's Research Division.

THE Atom IN INDUSTRY

The Atomic Energy Commission has invited bids for the construction of a bio-medical building in Puerto Rico as part of the Commission's new Puerto Rico Nuclear Center.

One of the Center's main objectives is to provide training and research programs in the applications of radioisotopes and radiation to the field of medicine.

The contract with Mallinckrodt Chemical Works for operation and management of the Atomic Energy Commission's feed materials facilities in the St. Louis, Missouri, area has been extended to June 30, 1964.

Mallinckrodt presently operates the new feed materials plant at Weldon Spring, Missouri, which is used for production of uranium salts and uranium metal through refining of ores and concentrates received both from the United States and abroad.

SERVING HIS TWENTIETH ANNIVERSARY CAKE, Dr. R. B. Stambaugh, superintendent, development laboratory, received his 20-year service pin October 1. He is pictured preparing to serve cake to fellow members of the technical division in honor of his twenty years with Goodyear.

Began On Production Squadron

Stambaugh Completes Twenty Years Continuous Service With Company

Dr. R. B. Stambaugh, superintendent of the development laboratory, was awarded his 20-year continuous service pin October 1.

Presentation was made at a luncheon attended by technical division supervision. Dr. C. R. Milone, manager, technical division, made the presentation.

Dr. Stambaugh was employed by Goodyear for two years then requested a leave of absence to return to school.

He attended the Massachusetts Institute of Technology where he received the degree Doctor of Science. Following his graduation he returned to Goodyear in the research department.

He transferred to GAT as superintendent of the works Laboratory November 9, 1952. He was assigned as superintendent of the development laboratory on April 1, 1957.

Dr. Stambaugh's undergraduate degree was earned at Kenyon College where he was awarded the BA Degree in Physics. He went from Kenyon to Goodyear as a member of the production squadron.

He is a member of the American Physical Society and the American Chemical Society.

Dr. Stambaugh, his wife Sally, and two children, Priscilla Jean, 14, and Richard Bruce, 12, reside in Brewer Heights, Chillicothe.

AEC Museum Will Remain Open

The Atomic Energy Commission has changed its plans about closing the American Museum of Atomic Energy next June.

It was in August that the AEC announced it would close the museum.

The American Museum of Atomic Energy will remain open. The announcement was made September 29, by a spokesman of the Oak Ridge Operations Office of the AEC that instructions to close the museum on June 30, 1960 has been rescinded.

District Scouters Hear Dysart

James S. Dysart, assistant to the general manager, was the principal speaker when the Shawnee District Scouters met at Lake White, October 14.

The occasion was the annual meeting of the Shawnee District of the Chief Logan Council, Boy Scouts of America. The Shawnee District consists of Pike and Jackson Counties, with a field executive serving the district. The district and council are supported financially by the United Funds in Pike, Jackson, and Ross Counties.

DUSTING THE TROPHY FOR ANOTHER YEAR. Pictured above are GAT employees who are members of the Naval Reserve Electronics Division in Chillicothe. From left to right are: Leo Peoples, chemistry department; H. E. Kelley, electric power area; G. H. Sargent, electric power area; W. L. Bradshaw, medical department; and William Burrell, special and mechanical shops.

Naval Reserve In Chillicothe Wins National Award

The Naval Reserve Electronics Division 4-1 of Chillicothe for the second straight year have won the Commandant's Fourth Naval District Rotating trophy. For the fiscal year ending June 30, 1959, the Division not only won the rotating trophy but also won the National trophy for being rated the best Electronics Division in the Nation, competing with two-hundred and ten other divisions. The rating was based on attendance, number advanced in rate,

standing on examinations for advancement, division strength, and training duty. Efficiency of training and administration were also taken into consideration. Presentation of the awards will be made at a ceremony in Chillicothe High School on November 10, with several top ranking Naval Officers in attendance.

Commander H. E. Kelley, electric power area, was Commanding Officer of the Division. Lieut. Leo Peoples, chemistry department, is a Training Officer. Chief R. M. Hinton, Jr., electrical maintenance department, is the leading Petty Officer in the Training Section. W. L. Bradshaw, medical department, is the Division Corpsman. G. H. Sargent, electric power area, is a radioman for the Division, and William Burrell, special & mechanical shops department, is an electronics trainee. Commander Kelley relinquished command of the Division on June 30. He had served the three year maximum tenure of command. He has been appointed the Commandant's Local Representative for the Naval Reserve Program.

Goodyear To Share In Army Contract

Goodyear Aircraft will share in a \$188,402,905 contract for research and development of the Nike-Zeus anti-ballistic missile system. The Army awarded the senior contract to Western Electric Co. Goodyear's contract is a 15-million-dollar one for developing radar antennas.

THE ATOMIC EMPLOYEES CREDIT UNION

Assets — September 30, 1959 — \$733,958.84

The history of Credit Union started in a small farm village in southern Germany in 1849. Droughts for two years in a row had added misfortune to an area already deep in a general depression. These circumstances had combined to put many of the people of the village deeply in debt to money lenders whose interest rates were exorbitant.

The Mayor of this small village was very much concerned with the plight of the people and determined to do something about it. The plan outlined by the Mayor was instrumental in the formation of the first Credit Union type organization, and Frederick Wilhelm Raiffeisen (the Mayor) became known as the father of the Credit Union movement.

Credit Unions were introduced in Quebec in 1900, as a result of conditions very similar to those which prompted the organization of the first Credit Union over fifty years earlier. Alphonse Desjardins, a court reporter, was instrumental in the formation of this group.

The first American to become interested in the Credit Union movement was Edward A. Filene, a merchant from Boston. He was on a trip to India in 1906 when he became acquainted with a British civil servant who was assisting in organizing Credit Unions in Indian villages. Filene studied the Credit Union philosophies thoroughly and was an ardent supporter of the Credit Union movement until his death. Filene was instrumental in obtaining passage of the first Credit Union law in America in 1909, when the Massachusetts legislature passed a bill authorizing Credit Union operations. In 1912, President Taft wrote a letter to all State Governors encouraging them to have Credit Union law enacted in their respective states.

Plans to organize the Atomic Employees Credit Union were formulated early at Goodyear Atomic Corporation.

A committee consisting of both hourly and salary employees was appointed in July, 1955, to discuss the organization of a Credit Union on plantsite. A Charter was applied for and received in December, 1955.

The administration of the Atomic Employees Credit Union is employee sponsored with employees serving in the official family. On March 1, 1956, a full-time employee had been hired, office arrangements had been made and the Atomic Employees Credit Union opened for business.

All employees at Goodyear Atomic Corporation are eligible for membership in the Atomic Employees Credit Union.

Silver Compass Club

The Silver Compass Club will install officers this Saturday, October 24, 7:30 p. m., at Orient Lodge, Waverly.

New officers for the coming year are: C. L. Truman, laboratory services, president; A. C. Boggs, instrument maintenance department, vice-president; J. D. Cannon, process area 5, treasurer; W. E. Turner, SS engineering department, secretary; and L. L. Wise, process area 2, chaplain.

Mr. H. C. Higgins, District Deputy Grand Master, Seventh Masonic District, will be the principal speaker.

High School Science Visitation Program

Goodyear Atomic Corporation has begun the high school science visitation program for the 1959-60 school year. Administering the program is a committee made up of P. F. Bliss, community relations coordinator, as chairman; D. E. Chaney, materials sampling and testing department; H. E. Meacham, training department; M. W. Powell, chemical analysis department; and W. S. Stringham, technical review department.

National Vehicle Safety Check

Results of the 1959 National Vehicle Safety-Check program, show, for the fifth consecutive year, ONE out of every FIVE vehicles to be in need of maintenance attention for safe driving condition. An all-time high of 3,096,630 vehicles were reported Safety-Checked during the program this year at community check lanes, dealer service departments, and at industrial plants, government agencies, and military installations.

The voluntary Safety-Check program is conducted annually during the months of May and June in the 34 states which do not require motor vehicle inspection. It is sponsored by the Inter-Industry Highway Safety Committee and LOOK Magazine, in co-operation with the National Association of State and Provincial Safety Co-ordinators.

IN MEMORIAM

Elmer Hochberg, 54, died suddenly near his home in Caldonia, Ohio, September 29. A brother, Louis D., is "R" Shift Superintendent.

Myrtle Erwin Stringham, 58, died October 3, 1959, in Joplin, Missouri. A son, William S. Stringham, is in the technical review department.

Geraldine Marie Reed, 42, died October 13, in Holzer Hospital, Gallipolis, Ohio. Her husband, Robert J., is in the accounts payable and cashier's department.

ELECTION DAY NOVEMBER 3, 1959

You don't have to be a candidate to vote for yourself. Anybody can put X on a ballot and drop it in the box. This type of voting merely gives a vote to a candidate, but that by itself isn't voting . . . at least, not in the true American way. It's just one phase of voting.

Voting means choosing the person best qualified for the job. It means knowing the records of the candidates, studying the issues of the election, informing yourself as to what each candidate stands for . . . and then going to the polls and casting your ballot.

It means VOTING FOR YOURSELF . . . deciding which candidate will work in the best interests of your family and the community. When you vote on this basis, you're voting for yourself, because whatever is best for them is best for you.

By all means, vote this election. Be informed . . . weigh the facts. Vote for the one you honestly feel will do the best job for you and your neighbors.

VOTE . . . FOR YOURSELF!

Walker Promoted To Foreman

Effective the 1st of this month, William R. Walker was promoted to foreman in the weld shop. He was formerly a welder first class. He will supervise the subdivision activities on the 4 to 12 shift in the X-700 and X-705 buildings. His immediate supervision is W. F. Hackworth,

W. R. Walker general foreman. Walker is a graduate of Nitro High School, Nitro, West Virginia. He attended Capital City Commercial College, Charleston, West Virginia. He also completed the welding course at Charleston Stonewall Jackson Vocational School. Mr. and Mrs. Walker, and three children, reside on RFD 1, Picketon.

Mr. and Mrs. G. E. McDaniel, (process area 2), son, Mark Joseph.
Mr. and Mrs. Vincent J. Tovine, (tabulating service), son, Vincent Joseph, Jr.
Mr. and Mrs. Arnold E. Walters, (chemical analysis department), daughter, Pamela Jo.
Mr. and Mrs. Ralph B. Cornwell, (chemical analysis department),

R. O. Jones W. S. Fleshman

October Safety Slogan Winners

Winners of the Goodyear Safety Slogan Contest for October are R. O. Jones, utilities maintenance department, and W. S. Fleshman, process laboratory department.

Mr. Jones submitted this winning slogan:

"There Are No Short Cuts to Safety"

Mr. Fleshman, the second winner for the month, submitted the following slogan:

"Forethought is Defense Against Accidents"

One-hundred and twenty-four slogans were submitted during the period August 22, through September 21, the period considered for the October contest.

Both winning employees will receive a \$10.00 cash award and become eligible for the semi-annual safety award.

daughter, Robin Elaine.

Mr. and Mrs. Charles H. Skaggs, (chemical analysis department), son, Charles Wayne.

GAT Bosses' King For A Day

Alas, poor boss. For more than two hundred days of each year he sits alone in grey flannels behind glass panels, an inside "outsider." Minus one day, that is. Thanks to secretary Pat Haroski, October 16, was designated National Boss Day.

Pat, an Illinois resident, was concerned over the "hit and miss" treatment accorded most bosses. Celebrating a National Secretaries Day and none for the Boss was putting the cart before the horse. True, individual groups did honor their employers on various occasions, but Pat felt the gentlemen who ran the show deserved unanimous applause on the same day. To remedy this situation, she wrote to the United States Chamber of Commerce and registered October 16, as "His Day."

"King for a Day" was celebrated at Goodyear Atomic on October 16, when secretaries from all divisions were hosts to their Boss. The day had been set aside by President Eisenhower as National Boss Day.

The real aim behind the day is for the secretary to give recognition to an understanding boss.

GAT has eight members in the National Secretaries Association. They are: Genevieve Gundlach, safety and fire protection; Judith Ray, personnel services; Janet Forsyth, general manager's office; Jo Ann Fralley, safety department; Barbara MacDonell, safety department; Ruth Shannon, operations analysis; Mary Mills, process engineering; and Carlene Mowrey, technical division.

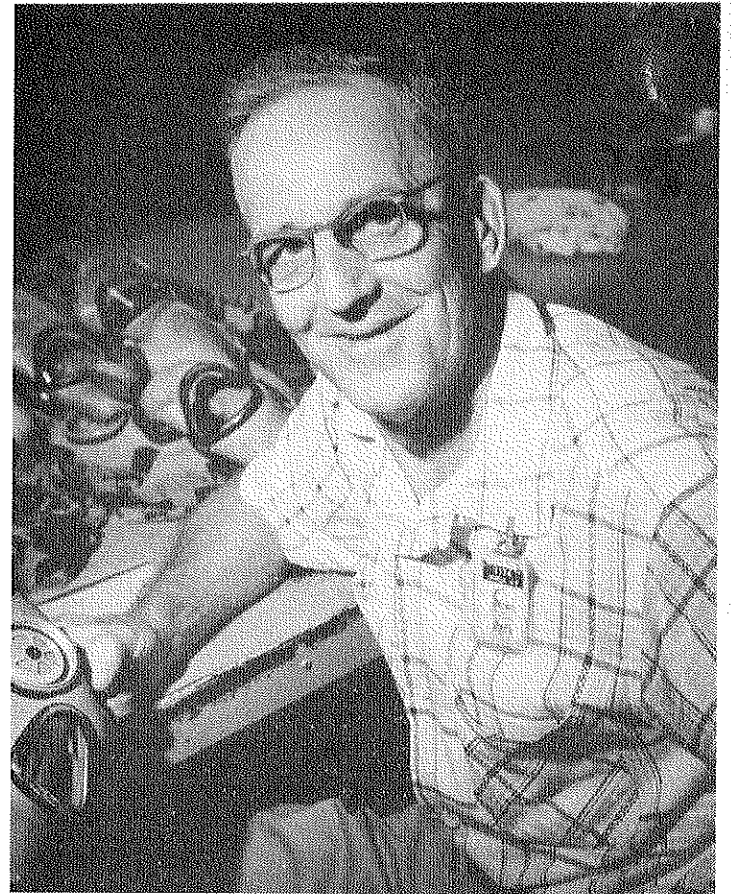

Employees receiving five year pins between October 15, and November 1, are as follows:

- | | |
|-------------------|--------------------|
| L. E. Egbert | L. E. Rumfield |
| R. E. Dever | W. J. Friend |

Foremen's Club

GAT Foremen Club members are reminded that the second annual Outing is this Saturday, October 24, at the Pike County Fish and Game Club. The affair begins at 10 a. m. and lasts till 6 p. m.

Contact Jack Wilkerson, plant engineering, for further information.

PROUD OF HIS ATTENDANCE RECORD AT GAT. J. F. Newell, laundry department, is pictured on the job in the X-705 building. He was hospitalized on September 11, which made him miss his first day of work since coming to GAT. He is back on the job with the desire to better his previous record at GAT.

An Example Of A Competitive Spirit And Desire To Do Better

"It took the hospital to do it." This was Jimmie Newell talking and he was referring to his recent stint in Mercy Hospital.

What's so unusual about anyone entering the hospital? Perhaps you will agree, in Jimmie's case, that it was a little unusual. Until September 11, he had neither been absent nor tardy for work since coming to Goodyear Atomic Corporation. He was hired by GAT on November 23, 1953 as a janitor and was assigned to the afternoon shift in the GAT training building (X-120). On February 27, 1955 he transferred to the laundry department and was assigned the responsibility of inspecting the respiratory safety equipment, which includes, assault masks, welders masks, chem-ox masks, impermeable suits, etc. Dewey Wright, laundry foreman, says, "when Jim signs his initials to the safety tag—we know that piece of equipment is A-1. He is a very conscientious employee."

When Jimmie first came to work for GAT he had been out of the hospital only a short while. He walked with a decided limp which was the result of a near tragic accident which occurred October 3, 1951. At the

time he was employed by General Refractories, Oak Hill, Ohio, as a maintenance welder. Driving home from work, at 3 a. m., he apparently fell asleep. His automobile hit the corner of a concrete bridge. He was unconscious when a passing truck driver found him. He remained unconscious for the next 29 days.

He spent the next six months in hospitals at Oak Hill, Portsmouth, Columbus, and Dayton. His convalescence was slow but finally he was able to return to work in the fall of 1953.

"Goodyear Atomic has been good to me," said Jimmie. "I appreciate the opportunity the company gave me to prove that I could do a satisfactory job despite my limp."

On September 11, 1959 he missed his first day of work at Goodyear Atomic Corporation. He entered Mercy Hospital in Portsmouth and underwent surgery on September 16. He was dismissed from the hospital September 22.

Jimmie is back on the job with the determination to exceed his previous work record at GAT. As Monk Powell, one of his co-workers puts it — "Jim is a fine fellow — does his job and never complains—we missed him while he was in the hospital—we're all glad he is back with us."

Jim, his wife, Ada, and daughter Pat, live on the Lucasville-Minford road in the Meadow Brook addition.

Company Dance

The next company dance will be held at the Elks Club in Portsmouth Friday, November 13.

Music will be furnished by the "Ohioans" under the direction of Lowell Weitz.

The cost will be \$1.50 per couple. Tickets were placed on sale at the recreation office Monday, October 19. Two-hundred tickets will be sold on a first come, first serve basis.

BOWLING

PORTSMOUTH

Men's Thursday Night — Al Nelson is the holder of the season top scratch series and individual game scores with a 256 game and 626 series.

"A" Shift—Charlie Ratliff's 256 single game and 603 series are top scores in this league.

"B" Shift—Dewey Vallandingham tops this league with a 255 game and 635 series score. Edgar Bibbey was winner of an ABC triplicate patch on September 30, when he rolled three identical scores of 159.

"C" Shift—Games rolled through October 3, Roy Wolfe had the highest handicap score of 272. Ben Murnahan rolled the top handicap series of 632.

"D" Shift—Dec Horner tops this league with a 214 single game. Mac McFarland's 566 no handicap series leads all other bowlers.

Women's Tuesday Night—Eileen Ward is really setting the pace in this league with an average of 165. On September 30, Norma Copen, bowling as a substitute converted the 6, 7, 10 for a spare.

WAVERLY

Monday Night—5:15 p. m.—Olaf Jenkins has the top series and single with a 641 and 232.

Monday Night—8:00 p. m.—Carl Walker's 213 single leads this league. Jim Surack holds top series mark with 569.

Wednesday Night—Bob Moore and Virg Emler have the top series and individual respectively in this league . . . 612 and 248.

"A" Shift—C. Sargent is the holder of the top single game effort with 228. Bob Moore is leading with a series score of 560.

"B" Shift—A pair of Jack's holds top marks in the "B" shift league . . . Jack Crawford has a 215 single game and Jack Good has top series of 582.

Women's League—Helen Koons has bowled high series and single game of 495 and 195. She also leads the league with a 154 average.

CHILLICOTHE

Men's League—Dick Schneider leads by a single pin with a 608 series. Art Wilson holds first place with a high single of 233.

Women's League—Helen George holds the top handicap series with 579. Fran Brown's 236 takes single game honors.

GOLF CHAMPIONS OF THE CHILLICOTHE DOUBLE EAGLES LEAGUE. Clark Robinson, (left) electrical maintenance, and Leo Woods, (right) instrument maintenance, are winners of the Double Eagles Golf League in Chillicothe. The Championship was not decided until the final match. Dick Sparks, chemical analysis, and Neil Duffy, laboratory services, were runner-up.

Classifieds

All Wingfoot Clan ads must be typed or printed, and contain a "blind" address or telephone number to which initial contact can be made. The ad must be signed in ink and carry the employee's department number, badge number, and plant-site telephone number. This service is for employees who have items to buy, sell, or trade. No commercial ads can be accepted.

FOR SALE

Fuel Oil Tank, 275 gallon, with gauge and filter. \$22.50. Inquire at 515 Marple Ave., Piketon.

1958 Volkswagon Sedan, 22,000 mi. Telephone Waverly 502-J.

Television Antenna Rotor complete with 50' lead-in wire for rotor. Brick-lined Warm Morning heating stove. Good condition. \$35.00. Telephone Minford SP 9-2869.

One Forced Draft Oil fired, hot air furnace, with clock control thermostat, in excellent condition. Includes two 250 gallon oil storage tanks. Telephone Jackson 1165.

Four 7.10x15 tubeless tires. Will sell one or all at \$12.00 each. Telephone Waverly 880.

1956 Plymouth 2-door hardtop. Automatic transmission. Excellent condition. Seven tires and 7 wheels. Suburbanites mounted on 2 wheels. Telephone Portsmouth EL 3-4882.

Portable record player. Four speeds. Twin speakers. Used very little and is in excellent condition. \$60. Telephone Waverly 982.

Kenmore Vacuum Cleaner with all attachments in good condition. \$15. Telephone Portsmouth BL 9-5639.

Registered Beagles—two females, black, white and tan markings. Two years old, field trained. Telephone Waverly 8133-J or Chillicothe Prospect 3-5863.

1954 Ford Customline Tudor, six cylinder with overdrive, radio, heater, back-up lights. Excellent condition—new tires—new battery. Motor overhauled this past summer, recently repainted. \$650. Terms may be arranged. This auto may be seen at George White Boulevard, Lake White next to Lake White Marine Sales.

Aquarium, 12 gallon antique made of cast iron and glass. An aquarium planter and some white sand included. \$8. Telephone Waverly 8069-M.

B-Flat Clarinet. Thor ironer, steam iron, waffle iron, G. E. Combination radio-phonograph AM and FM, G. E. automatic washer and girl's bicycle. Telephone Portsmouth ELMwood 4-1671.

Basketball Leagues

The basketball program for the 1959-60 season is scheduled to get underway the first week in December.

Individuals wishing to play in the league should organize their team. Team rosters should be submitted to the recreation department. Roster blanks may be obtained by telephoning the recreation office, extension 2158.

A representative from each team will serve on the basketball committee. This committee will be responsible for formulating the rules and regulations governing the league.

NO LAUGHING MATTER

A man went to an insurance office to have his life insured. The insurance agent asked, "Do you drive?" "No," said the applicant. "Do you fly?" "No." "Sorry, sir," snapped the agent curtly, "but our company no longer insures pedestrians."

GOLF CHAMPIONS OF THE WAVERLY LEAGUE. Members of the winning golf team in the Waverly League are pictured above. From left are: Bill Rymer, instrument maintenance department; Captain Bob Owen, plant engineering; Paul Kimes, plant engineering; and Bob Lozier, purchasing department. The team won 243 points over a 20 week schedule. The second place team had 217 points.

Outdoorsman Club Sponsor Shoot

The GAT Outdoorsman Club of Jackson will hold their annual fall shooting match this Sunday, October 25.

Proceeds from the match will be used for improvement of the club's property. Plans call for tree planting, new shooting range, a lake, and a club house.

Shells will be furnished by the Club for the shoot. Prizes include turkeys, hams, bacon, etc. Coffee, soft drinks, and donuts will be available.

The Club property is located two miles east of Beaver off State Route 124. Employees desiring more information may contact C. Crawford, X-530.

Flying Club

Interest has been expressed once again to organize a flying club.

A meeting of interested persons will be held at the Scioto County Airport, Minford, Ohio, on Tuesday, November 3, at 7:00 p. m.

First Aid Course

C. J. Ostergren, training department, is instructing members of the Piketon Fire Department in the standard and advanced American Red Cross first aid course.

The group meets each Monday from 7 p. m. until 9 p. m. in the Piketon High School.

It's not so much what we know as how we use what we know.

BOWLING TOURNAMENTS

Dates for the 1959-60 company bowling tournaments have been selected. Tournaments will be conducted as follows:

TOURNAMENT	DATE	LOCATION
Mixed Outing	January 16	Sunset Lanes, Portsmouth
Team (Women)	February 20	Jolly Lanes, Jackson
Doubles & Singles (Women)	March 12	Weiss Recreation Center Waverly
Scratch Singles (Women)	March 26	Sunset Lanes, Portsmouth
Team (Men)	January 30	Weiss Recreation Center
Doubles & Singles (Men)	February 6 & 13	Waverly
