A Christmas Message

WITH EACH succeeding day, men and women the world over learn more about the majesty of the universe. Every discovery in space, every development in nuclear physics gives us a clearer view of the mighty works of God.

In spite of the revelations of the wonders in space, we believe that Man is God's highest creation. And when we join our efforts to make the universe a better place in which to live, we are taking an active role in the Divine Plan.

At this happy time of year, when we pause to observe the birthday of Jesus Christ, we might reflect on the power that God has given Man. Surely, Man, with all his divinely bestowed resources, can solve the problems of nations which threaten to flare into a nuclear holocaust.

All things are possible to men of good will. During this Christmas season, let us ask for enough of Jesus' humility, power and love to enable us to seek peace on earth, so that all men may share the blessings of health, happiness and plenty.

To Goodyear men and women around the world, we offer kindest regards of the season. May you and your families have a Merry Christmas and a Happy New Year.

Santa, Toys, Candy

Hey Kids! Don't Forget Saturday Yule Party

Goodyear Gym Saturday will be turned into a children's paradise when the annual Christmas Party, replete with Santa Claus, toys, movies, candy and music will be held for the 43rd year.

Doors to the gym will open at 8 a.m. and close at 6 p.m.

Adding to the gala festivities (in addition to that giant Christmas tree) will be the Goodyear Youth Band which will play marches and Christmas music periodically throughout the day.

Of course, the main event of the day will be Santa Claus and his helpers who will give a toy and a bag of candy to each child under 12 years old, upon presentation of a ticket.

Posted signs will guide party visitors to correct entrances and proper exits.

THAT WONDERFUL world of toys, synonymous with the Goodyear Christmas Party, is also filled with children, such as these three. Children of Dale L. Smith, 251B, stock preparation and tire building, the trio is looking over the varied types of toys ready

for distribution to children at the party Saturday in Goodyear Gym. Left to right, Phillip, 5; Mark, 9; and Debbie, 8. Christmas has a double meaning for Phillip and Mark. It's also their birthday.

Industry Outlook

Forecast More Foam, Rubber Use In 1963

An expected increase in the consumption of polyurethane foam for automotive uses should more than compensate for an expected drop in the use of latex foam during 1963, a Goodyear official has predicted.

Urethane foam has been growing steadily in use and is expected to increase enough next year to offset an anticipated 15 per cent drop in latex for automotive use, according to F. R. Evans, general manager of the Foam Products Division.

Overall 1963 production of foam for auto interiors should be about 10 per cent over 1962, he said.

Main reasons for urethane's phenomenal growth, Evans reported, are price and weight. Urethane foams are considerably less in price and are less than half as heavy in weight. In addition, all phases of production are considerably faster with molded urethane, he explained.

Contributing to the across-the-board increase in popularity is the fact that an increasing number of automobiles are being produced with bucket seats and padded instrument panels.

In 1961, Evans said, about nine per cent of all new cars had bucket seats. Some 15 per cent of 1962 models featured bucket seats and that figure is expected to increase in 1963 models.

Mainly because of safety factors and improvements in interior decor, padded instrument panels and other interior trim are rapidly being switched from optional to standard equipment, and have spread to autos in all price ranges.

At present, Goodyear uses urethane foam for all of its padded interior trim production

and latex for a portion of its auto seat output.

Rubber consumption, often called the barometer of American industry, is expected next year to equal or exceed the all-time peak reached in 1962.

Unless there is an unexpected sag in the nation's economy, consumption of synthetic and natural rubber in 1963 should reach at least 1,690,000 tons, the amount expected to be consumed this year, Robert E. Workman, general manager of the Chemical division, has predicted.

A continuing high level of automobile sales and the growing use of rubber in non-automotive fields were the major factors considered in the forecast, Workman reported.

Synthetic rubber, which accounted for about 73 per cent of all rubber consumed this year, undoubtedly will continue to edge out natural rubber in commercial use, he said.

Styrene-butadiene rubber, which makes up the bulk of synthetic consumption, is expected to reach 930,000 tons in 1963. Butyl, neoprene and nitrile rubbers will account for about 205,000 tons, while the new "stereo" rubbers (those with a three-dimensional molecular structure) are expected to account for 130,000 tons.

Total synthetic consumption in 1963 is estimated at 1,260,000 tons, compared with 425,000 tons of natural rubber. The declining use of natural rubber is reflected in the statistics of recent years. In 1950, a total of 720,000 tons was consumed, while 1962's total consumption will run about 453,000 tons.

Goodyearite Gets Award

Eduardo F. Dibos, executive president of Goodyear-Peru, received a "Man of the Year" citation from the International Road Federation at its annual conference in Madrid, Spain.

Dibos was given the award for his work in international highway development. The Goodyear man was also instrumental in founding the Peruvian Highway Federation.

A 27-Footer

Yule Party Pine Tree 'A Beauty'

Shaking and swaying to the throaty cry of "timber!" a firm, full 27-foot Norwegian pine came tumbling to the snowy ground.

The sky-scraping tree, felled Tuesday, is now in Goodyear Gym and will be decorated in time for Goodyear's annual Christmas Party, Saturday, Dec. 22.

Owner of the Christmas pine was Warren Cain, foreman in 182A, experimental job shop.

To Cain, who lives on six acres in Mogadore, the tall beauty, planted 15 years ago in front of his house, was just another tree — no sentiment attached. Included on his acreage are hundreds of other pines and Colorado spruces, plus his personal golf range and a swamp which he hopes to turn into a natural lake.

"Goodyear expressed an interest in this tree almost a year ago," says Cain, "and my wife said 'let them take it!' I cut down one of our own spruces this year for our family Christmas tree."

The actual cutting of the big pine was accomplished with the help of six Goodyearites — three riggers, two carpenters and a truck driver.

Using a cross-cut saw, the carpenters had the tree down in about 10 minutes. Most time-consuming part of the operation was loading the tree on the truck.

Getting the pine into Goodyear Gym was child's play compared to several years ago when revolving doors to the gym had to be taken off before the tree could be moved in.

WIELDING AN ax on the 27-foot Christmas tree is Joe Mullins, 113B, carpenter shop. Lending a hand with the rope are Warren Cain (center), 182A, experimental job shop, and Chick Evans of the carpenter shop. Owner Cain doesn't mind the loss of the pine from his front yard. He has hundreds of other pines and spruces on his six acres in Mogadore.

Factory, Offices Schedule Listed

The factory and general offices will be closed on Monday and Tuesday, Dec. 24 and 25, and will resume operations at the regular starting times on Wednesday, Dec. 26.

The factory will close at 12 midnight on Saturday, Dec. 22, and will resume operations at 6 a.m. Wednesday, Dec. 26. Plant C will close at 11 p.m. Saturday, Dec. 22, and will resume at 7 a.m. Wednesday, Dec. 26.

Clan Will Be Late

Because of the Christmas holiday, next week's issue of The Clan will be distributed on Friday, Dec. 28, instead of on Thursday.

Other GIC Appointments Listed

Top European Posts Announced

A change in Goodyear International's management responsibilities to meet changing patterns of world-wide business—especially in the European areas—was announced today by Richard V. Thomas, president.

Effective immediately, Sullivan Kafer, former regional director for Europe, assumes the newly-created post of director of operations for GIC, with headquarters in Akron.

Milton S. Meyer, presently managing director of GIC's English subsidiary, The Goodyear Tyre & Rubber Company (Great Britain) Limited, was named to the post of regional director for Europe.

In recognition of the increasing interdependence of European markets, Meyer will be located in new regional headquarters at Brussels, Belgium.

"The greater commerce between the countries of Europe resulting from the common market has brought us to the stage in development of our business where it is essential that our regional director be located in the field, close to his markets," Thomas said.

Goodyear has manufacturing facilities in the common market countries of France, Benelux, Germany and Italy, as well as in Great Britain, which may soon become a member, and Sweden.

To further strengthen the headquarters organization, Thomas

said that Marshall F. Gillespie has been appointed to the newly-created post of assistant to the president. He formerly headed manufacturing for Europe and has recently been handling special assignments in the office of the president.

Thomas also announced that John Temple-Raston, former advertising manager for Goodyear-France, has been named advertising manager for the European region and will be assigned to the new Brussels headquarters.

Filling Meyer's former post in England will be A. H. Pendree, a native of Great Britain, who has served as sales director there since 1957.

Charles J. Pilliod, presently managing director of Goodyear-Brazil, has been named sales director in England, succeeding Pendree.

J. Frank Corcoran, vice president and managing director of Goodyear-Peru, is named to fill Pilliod's post in Brazil.

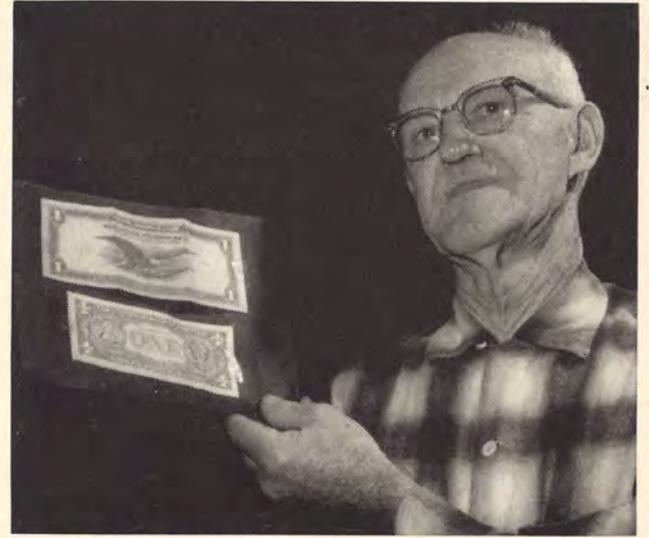

Thomas W. Harrington, since 1961 sales manager for the Western Hemisphere with headquarters in Akron, will take over the post vacated by Corcoran in Peru.

George J. Mahl, sales manager of Goodyear's operations in Venezuela, will return to Akron to handle Harrington's former post and will be replaced by C. N. Bevans, who is presently manager of the tire department in Venezuela.

Kafer, a 40-year veteran with Goodyear, joined the company in 1922 as a member of the development department in his native New York state. He joined Goodyear's export company in 1929 and later served as representative in the Near East, in Paris and in Cairo.

In 1943 he became managing director of the Colombia subsidiary, and in 1947 took over the company's operation in Java. He returned to Akron in 1956 as manager of the Western Hemisphere region and served as managing director of the Brazil operation in 1958-59. He returned to Akron as regional manager in late 1959. He was named regional director for Europe in 1961.

Meyer, a native of Buffalo, joined Goodyear in 1927 in the New York branch and served as a traveling auditor and in the Chicago branch before being assigned to export in 1929. His experience also includes pre-war service in Germany, as a special representative in Europe and in the New Zealand subsidiary. He returned to Akron as a member of the comptroller's department in 1942, and in 1944 he became managing director for Goodyear in India. Meyer returned to Akron in 1952 and spent three years as a regional manager before being assigned to England as sales director in 1955. He became managing director there in 1957.

L. E. DALTON holds up two one-dollar bills. The one on top is a gift he received from the company in 1918.

Money Was 'Bigger' Way Back In 1918

Lewis E. Dalton, a 42-year Goodyear veteran who works in 243A, tread manufacturing, commented recently that "money was bigger in 1918 — and it went further, too!"

He was right on both counts. A dollar bill in those days was appreciably larger than present-day bills, and it's common knowledge that a dollar back then would buy a lot more.

"I got that bill the Christmas of 1918 as a gift from the company," Dalton said. "I've always kept it for sentimental reasons and don't suppose I will ever spend it."

Dalton, who lives at 2845 Graham Road, Stow, has made sure the bill won't be lost or mutilated. "I keep it in a safe-deposit box in a bank," he said. The smaller, conventional bills were put into use in the late 1920s, but Dalton still holds onto the reminder of Christmas past.

The annual Goodyear Christmas Party replaced the dollar bill gift years ago, and like the thousands of youngsters who attend the event each year, Dalton wouldn't want it any other way.

NEW EUROPEAN headquarters of Goodyear International, to be located at Brussels, is pointed out by Milton S. Meyer, who has been appointed regional director of GIC. Sullivan Kafer, left, takes over the newly-created post of director of operations for GIC. Looking on is R. V. Thomas, GIC president.

In Goodyear Theater

Employees' Christmas Program Slated Friday

The annual Christmas Program for Goodyear employees, featuring appropriate music and group singing, will be held at 2 p.m., Friday in Goodyear Theater.

Al Rice and his 14-piece orchestra, featuring vocalist Betty Hudson, trumpeter John Lewis and trombonist Charlie Stenross, will provide music for the program.

E. J. Thomas, chairman of the board, will address the employees, while C. E. Bloedorn,

director of recreation, will be master of ceremonies.

The program is expected to last about 35 minutes. All factory and office personnel are invited.

Vol. 51 Thursday, Dec. 20, 1962 No. 51

Bells Ring Out Friday, Saturday

The Christmas carols you will hear coming from the Plant 1 clock tower tomorrow (Friday) from 1:45 to 2:15 p.m. and Saturday at 11 a.m. will be from the bells played by Robert C. Stranahan, who for the past 34 years has been the only man qualified to play the bells.

Goodyear is the only American industry which still maintains the age-old custom of ringing bells on special occasions.

What Our Customers Say

From Kingsley, Pa.:

"I recently drove a set of your Hi Miler tires 109,000 miles on the drive axle of a Mack diesel tractor. These same tires have since been recapped and are now back on the drive wheels. I'm a driver who has driven for a foundry and we pull the maximum weight over all kinds of highways.

"This seems like very good mileage for drive wheel tires since other leading brands I have tried were completely worn out at 50,000 miles."

Down The Chimney

Why does Santa Claus come down the chimney — at least, on greeting cards and in the ads? The myth which old-time Englishmen favored was that Santa was thereby cleaning the chimney of soot, to allow good luck to enter the house at the New Year.

Wesley Named New Labor And Safety Foreman

Walter T. Wesley has been named metal products labor and safety foreman, succeeding J. C. Bryan who retired Nov. 1.

Wesley started on the production squadron in 1943. He has also served as supervisor in warehouse and shipping — rim plant, senior draftsman in metal products engineering, assistant to the manager in merchandise distribution and as supervisor in rim production.

Wesley

A graduate of Greenville College (Illinois), he earned degrees in English, sociology and economics. Wesley and his wife, Velma, live at 3596 Dick St., Mogadore. They have two children.

It Happened On Christmas

Dec. 25, 1776 — George Washington led his troops across the Delaware River to Trenton, N. J., for a surprise attack on the Hessians.

Dec. 25, 1868 — President Johnson proclaimed an unconditional pardon and amnesty to "all who directly or indirectly participated in the late rebellion (Civil War)."

Dec. 25, 1922 — Russia's communist leader, Nikolai Lenin, referred to the party's general secretary, Josef Stalin, with these words: "I propose to the comrades to find a way to remove Stalin and appoint another man more loyal, more courteous and more considerate to comrades."

A. T. Lobinger New Director Of Racing

A. Ted Lobinger, manager of field operations for Goodyear's racing division has been named director of racing, according to W. E. Still, manager of auto tire sales.

Lobinger

In his new position Lobinger succeeds Anthony (Tony) W. Webner who assumed new responsibilities on the auto tire department staff.

Lobinger joined Goodyear in his native Youngstown in 1948, and served for many years as a general line salesman in Ohio, Pennsylvania and West Virginia before joining the racing division in 1960.

A graduate of Northwestern University, Lobinger's own sports background is mainly in football. He played end at Bowling Green University, Northwestern University and in the Marine Corps. His father, Al, was a well-known sprint car racer in the late '20s.

Webner joined Goodyear's automotive products sales staff in 1955 after several years in sports publicity, advertising and promotion in Ohio.

He became manager of Air-foam sales for Goodyear's engineered automotive products division in 1957, and two years later became the company's first director of racing.

Goodyear To Aid In Bowl Telecast

Grid fans will be able to see the 17th annual Tangerine Bowl game at Orlando, Fla., on Saturday at 1:45 p.m. The game between Miami University and the University of Houston will be televised by KYW, channel 3 in Cleveland, as part of a special network set up by Goodyear.

The company blimp, "Mayflower II," will hover over the Orlando stadium during the game.

In Memoriam

Michael P. Hannon, 81, of 1848 18th St., Cuyahoga Falls, who retired in 1956 from 242B, bead manufacturing, died Nov. 14 at St. Thomas Hospital. Surviving are his widow, Gladys, and one sister.

Peter Sangrones, 71, of 369 Silver St., who retired in 1957 from 132B, banburies, died Nov. 15 at Akron City Hospital. Surviving are his widow, Encarnacion; one son, three daughters, two grandchildren, one brother and three sisters.

Edward Hazlinsky, 69, of 390 Stanton, who retired in 1959 from 111E, died Nov. 15 at Akron City Hospital. Surviving are his widow, Anna; and two daughters.

Herbert Brown, 64, of Rte. 3, Box 134, Corydon, Ind., who retired Feb. 1, 1962 from 111C, small machines and erecting, died Nov. 17 at Corydon, Ind. Surviving is his widow, Ruth.

Bernard G. Bostaph, 59, of 2474 28th St., who retired in 1961 from 191B, yard gang, died Nov. 17 at Phoenix, Ariz. He is survived by his widow, Lora; one brother and three sisters.

James D. Boone, 53, of 566 James St., who worked in 232B, industrial products — mill room, died Nov. 22 at Akron City Hospital. Surviving are his widow, Loretta; one daughter, one son, two brothers, two sisters and four grandchildren.

Leonard L. Hughes, 56, of 1512 Southeast Ave., Tallmadge, who worked in 111C, small machines and erecting, died Nov. 22 at Akron City Hospital. Surviving are his widow, Mary; one daughter, four grandchildren, his mother, one brother and seven stepbrothers and sisters.

George A. Murphy, 76, of 416 Watson, who retired in 1956 from 152B, cure tires, died Nov. 23 at Akron City Hospital. Surviving are his widow, Pearl, one son, two grandchildren and two sisters.

Pearson Chosen Dept. Foreman At Chemigum

James A. Pearson, formerly staff chemical engineer in 345A, Chemigum production, has been named department foreman.

Pearson

He started on the squadron in 1955, transferred in 1958 as a junior research engineer to the polyester pilot plant, and then to research later that year. He started at 345A in 1961.

A graduate of Purdue University, Pearson earned a degree in chemical engineering. He and his wife, Patricia, live at 1899 Hanover St., Cuyahoga Falls, and they have four children.

Precaution Pays Off

Check These Yule Safety Tips

Have a Merry Christmas, but don't make it your last one.

Check this list for a safer and happier holiday season:

- 1) Keep the tree outside until you're ready to set it up.
- 2) Place the tree away from radiators, heaters or fireplaces to keep it from drying out. The tree should be put in water or moist earth to retard drying.
- 3) If some of the needles near the lights have started to turn brown, change the position of the lights. Have an off-on switch some distance from the tree, and don't leave the lights burning when you're away from home.
- 4) Discard strings of lights which have frayed cords.
- 5) Keep electric trains from beneath the tree, reducing the possibility of the tree being knocked over while playing with junior's new railroad outfit.
- 6) Keep the floor uncluttered

by putting gift wrappings in a nearby wastebasket. No point in feeding a fire in the event one does occur.

7) Make certain all toys are completely safe. Be careful with

Goodyear To Supply Aircraft Equipment

A contract to supply tires, wheels and brakes for the first U.S. cargo and troop aircraft capable of vertical and short takeoffs and landings as well as high speed flight was announced by the Aviation Products division.

The four-engined XC142 is being developed for the department of defense by Chance Vought Corporation, a division of Ling-Temco Vought, Dallas, Tex. Goodyear's contract is for components for five aircraft to be evaluated beginning late next year, according to E. M. Humphrey, division sales manager.

toys requiring alcohol, kerosene, gasoline or carbide lamps, and also chemistry sets.

8) Make sure the ornaments on your tree are made of flameproof materials such as metal or glass, and never use cotton or paper unless it is labeled "fireproof" or "flameproof."

9) Know what to do in the event of fire. Evacuate the house first, then call the fire department. Agree on a place to meet away from the house ahead of time to preclude the chances of a member of your family turning up missing. Be sure everyone knows how to call the fire department.

10) If you plan to have a babysitter for your children during the holidays, be sure she knows what to do in case of fire.

These tips will help to make sure the only fire you have at your house is in the fireplace or furnace.

Mr. and Mrs. Lawrence Edwards address Christmas cards while keeping an eye on their family. Robert (left) and David adjust star on tree. Rita unrolls wrapping paper while

Frank and Frances set up nativity scene. That's Beverly Ann scrutinizing gifts, Glenn arranging stockings and Donald (far right). The family lives at 2877 S. Arlington St.

A 'Most Happy Group'

Christmas With A Family Of 10

Meet a happy group of 10 that celebrates Christmas with an open heart.

It's the Lawrence Edwards family, a contented, closely-knit household which knows and appreciates Christmas in the spirit of togetherness.

Edwards and his wife will usher in Christmas with eight children (including two sets of twins), ranging in age from five to 19. They have two other children, a married son and married daughter, who live in the area.

Their son, Donald, 19, works in 191A, services.

Christmas Eve is a hectic time for mom and dad. Edwards, who works in 188A, plaster shop, spends the entire evening assembling and placing toys around the house for Christmas morning "opening" festivities.

"When you have eight children, it takes time to prepare

the presents," says the 19-year Goodyear veteran. "My wife and I usually don't get to bed until 2:30 in the morning. And the children are so excited that they get up at 5 or 5:30 Christmas morning. Of course, it's all worth while when you see the looks on their faces."

"Our kids don't do much on Christmas Day except play with their toys," Mrs. Edwards adds. "Really, with all those toys, that's about all they have time for. On Christmas morning, our house looks like a department store toyland."

Both Edwards and his wife claim that things were "duller" when the family was small. But as the family grew, so did the excitement and commotion. Come Christmas, the Edwards'

house with its many toys was — and still is — a popular spot for neighborhood youngsters to gather.

"With a family this size, there's very little room for selfishness," says Edwards. "Our kids seldom fight over Christmas presents. They have learned to play with their own toys, and to share them willingly with their brothers and sisters."

Proudly observing their offspring, the Edwards express this joint sentiment: "With a large family, you get real pleasure from Christmas giving. We're certainly not extravagant. That would be pretty hard with eight children. But we do try to brighten up their Christmas with things we never had when we were children."

This Texas Grandmother Thinks Big --- And High

Texans have acquired a wide reputation for thinking big — and grandmothers, it seems, are no exception.

Recently a Goodyear Service Store manager was confronted by a Texas grandmother who was interested in a "large" Christmas present for her grandson.

"Is this the company that makes blimps?" she inquired.

"Why yes, it is," replied the manager.

"Well, I want to buy one for my grandson as a Christmas gift. How much do they cost?"

The manager gulped and quickly explained that blimps ranged in price up to several million dollars for some of the radar-equipped airships Goodyear has made for the Navy.

"That's too much," the grandmother said, and silently walked out.

"What happened to the toys I asked for last Christmas?"

Christmas Is No Exception

Traffic Accidents Are Always In Season

Your living room is dark. That neatly trimmed tree stands as a ghostly silhouette when the moonbeams slip through the brightly decorated window.

Where there should be gaiety, children's laughter, and good cheer on this Christmas Eve, there is silence. Deathly silence.

And yet, it was a mere two hours ago that your wife and children eagerly awaited your return from that last-minute shopping trip. Suddenly they realized you were late.

They were right. You were late by an eternity.

In your rush to join the gay festivities of the Christmas Eve at home you took a chance on that hill and passed a car.

It turned out to be your last one.

You were an average driver. Oh, sure, you bumped fenders a few times and had a couple of parking violations, but nothing serious.

So when the statistics on traffic deaths for this long Christmas holiday weekend started flowing from the mouths of radio and television commentators, and the typewriters of newspapermen you shrugged your shoulders.

"Not for me. I'm a careful driver. This stuff is for the other guy."

Sure.

You didn't remember, did you, the article that poured out earnest pleadings to drive safely? For instance, it pointed out that:

THREE OUT OF FOUR fatal Christmas accidents involve driving too fast for conditions, or in excess of a stated speed limit.

FATAL MISHAPS occur early in the holiday period. During the last six hours of Christmas Eve the hourly rate of fatalities is about five times greater than it is for the remainder of the holiday.

MOST FREQUENT accidents occur between 6 p.m. and 9 p.m. Hours between noon and 6 p.m. are the safest.

ONE OUT OF FOUR Christmas mishaps involve pedestrians. Forty per cent of the accidents occur between 4 p.m. and midnight, Christmas Eve.

THE DRINKING driver is involved in more than half of the fatal Christmas holiday accidents.

So you see, accidents are always in season. They never take a holiday.

Employees Get Letters

Youngsters Appreciate Their 'Y' Memberships

Every year, after the area YMCA membership drive has ended, scores of letters are written by boys who are grateful to receive a membership and want to thank their sponsors. Many such notes have been sent to and saved by Goodyearites in 113D, electric shop.

Here's what one said:

"Hello. I am writing to thank you again for my third sponsored membership . . . I was in the (Soap Box) Derby again this year. I painted it white with purple lettering. I am enclosing a picture of me, my sponsor and my derby."

Another youngster wrote, in part:

"I thank you for my membership. I could not run or take gym. Because I chipped my heel. I am aloud to take gym now."

"I went to Camp Y Noah this summer. Our cabin won two awards. I won the log throw out of the cabins. This is the 2 time someone has sponsored me."

"Dear Men in Department 113D," a third letter began. "I wish to thank you for the membership. I'm sick today so I might not be able to go swimming or gym but I will be going to crafts Thursday."

"I had a little HO (train) but it ran down. I took it to a radio shop. He said that if he fixed it, it would cost too much. So we bought another train. I put it on a big table."

"Letters like this have helped us when the Y drive is on," said C. D. Crosby, shift foreman in 113D. "They let employees know that the boys really appreciate receiving memberships. The letters also give us a chance to better know the boys for whom we buy memberships."

At Goodyear

Christmas Through The Years

When Goodyearites think of Christmas, their thoughts turn to peace, happiness, joy and service.

Through the years, Christmas, with its many festivities and solemn observances, has been closely linked to Goodyear. Let's unravel history for a moment and view some of our yuletide traditions.

Back in 1898 when the company was incorporated, there were only 13 employees to celebrate Christmas.

In 1903, floor space was expanded to over 200,000 square feet, and sales tripled.

In 1912, The Clan, in its first year of publication, came out with a "Christmas Special," which included a message from President F. A. Seiberling.

In his 1913 Christmas message, Seiberling said: "The year closes with the business world somewhat under a cloud, but believing that the legislative disturbances

GOODYEAR'S CHRISTMAS Party was a big event, even back in 1933. Jolly Old Saint Nick holds Duane Young while E. J. Thomas, with Wanda Ruby, smiles at story Santa as telling. Thomas at the time was general superintendent.

at Washington will shortly clear up, I feel that we are justified in looking forward to 1914 with hope and cheer."

That same year, the Goodyear Relief Association held its annual "Old Fashioned" Christmas dance.

In 1914, when Goodyear Heights was beginning to sprout a few houses, a big community Christmas tree was hauled to Goodyear and lighted. Children gathered by the thousands. Mrs. P. W. Litchfield and Mrs. C. C. Slusser brought gifts and candy for the onlookers.

In 1917, Goodyear Friars helped put on a Christmas show that drew 3,000 at the Akron Armory. The proceeds went to supply soldiers' Christmas boxes for Akron boys in service camps.

In 1919, the first Goodyear-wide Christmas Party was held in the newly-finished Goodyear Gym.

In 1921, thousands attended the "Annual Christmas Masquerade Ball and Carnival" in Goodyear Gym. "Dancing was the big attraction of the evening," according to The Clan. "Most of the crowd wanted to dance and nothing else."

In a 1923 Christmas message, the late Board Chairman P. W. Litchfield, then vice president and factory manager, said: "The past year has seen us at Goodyear well out of the depression of 1920 and 1921 and well on the way toward stabilized and better conditions. . . . There are no insurmountable obstacles in sight and many reasons why we should look forward to a Merry Christmas and a Happy New Year."

In 1926, a Christmas sale at Goodyear offered some bargains. The sales committee of the Industrial Assembly held the sale in the store room next to the Industrial Savings and Loan Company (now Evans Savings Association). Up for sale were fruit cakes, candy and plum puddings. A five-pound box of candy sold for \$1.25 while turkeys were 55 cents a pound.

In 1927, close to 15,000 children attended the Christmas Party in Goodyear Gym. According to The Clan, "In the center of the floor was the band and all about them a joyful, moving mass of young people."

In 1931, at least 40,000 parents and children attended the Christmas Party. With the country deep in depression, Litchfield wrote: "My Christmas message this year is written during a period of worldwide economic distress. We have already found new sympathy and brotherhood during this period. Let us also find wisdom in it. Determine now to make the fullest and wisest use of 1932."

In 1935, as a surprise Christmas gift, the company announced that all members of the Relief Association would be given life insurance, \$1,000 for men and \$500 for women, with premiums paid by the company. A pension plan was announced simultaneously. Robert Stranahan, now merchandise control manager, Metal Products, played Christmas carols on the chimes in the clock tower.

In 1938, a Goodyear-sponsored Christmas menu contest, judged by the Advanced Food Class of Akron University, brought in a raft of sumptuous menus.

In 1941, the United States was thrown into a global war, and it was a solemn Christmas at Goodyear. Defense products were being made in the Goodyear Gym, so the annual party was held in Goodyear Theater.

"The spirit of this Christmas season is not one of merriment," wrote Litchfield in his Christmas message. "Conditions which confront us are much too stern for that. We are at war—and the thought of it will not leave our minds, no matter what may be the time of year."

In 1943, there was the traditionally big Christmas Party, and, as usual, a number of the small departments had parties. For instance, the girls in the timekeeping department had a yule get-together, brought their own sandwiches and exchanged 25-cent gifts.

In 1945, spirits were high as the country enjoyed peace. In his Christmas message, E. J. Thomas, then president, said: "Peace has once more come to the world and we may look forward to this Christmas season with thanksgiving and anticipation of better times in our hearts."

Last year, another successful Christmas Party was held in the Goodyear Gym. This annual party ranks as Akron's largest, and is one of the biggest in the country.

And so we find ourselves swept into the spirit of Christmas 1962 at Goodyear, perpetuating a long and lustrous company tradition.

As Bob Stevens, labor department manager in 1916, said in his Christmas message 46 years ago:

"The combination of Goodyear spirit and Christmas spirit is irresistible. It is that which gives a big organization life and the ability to see, hear and understand; the ability to grow better and bigger in the joy of undertaking work of general betterment and for progress of the whole. It creates out of a great, intangible organization, a powerful cooperation between men, and the end result is a corporation with a soul."

CHRISTMAS IN AMERICA is still a fairly new experience for the Paul Antalvari family. They fled strife-torn Hungary in 1957 and came to Akron to live. Mari Antalvari holds a Hungarian doll as her two sons Art (foreground) and John hang pieces of wrapped candy on their Christmas tree. Her husband reaches for the top branch.

Many Reasons For Happy Yule

At Christmas, Paul Thinks Of Hungary

How would it feel to take your wife and two sons and whisk them out of the country where you have lived all your life — knowing you'll never return — and start a new life in a foreign country?

Paul Antalvari, who works in rim manufacturing, could tell you because just such an experience happened to him. He came to the U.S. as a Hungarian refugee in January 1957 and started at Goodyear shortly after.

"We had the clothes on our backs, but not much more," he recalled, taking out a picture of the ship on which they sailed to the U.S.

Paul and his wife chose Akron to settle because her sister and an uncle live here and they wanted to be near people they knew. "Neighbors on both sides of us speak Hungarian," Paul said, "so it's almost like being home again."

With Christmas less than a week away, Paul's mind often drifts back to his home country and Christmas celebrations there. "Hungarians have trees like those in this country," he said. "Instead of electric lights, though, we would hang pieces of candy and candles."

Sparklers, lighted on the Fourth of July in this country, are used in Christmas celebrations in Hungary. "On Christmas Eve," Paul said, "the children go around from house to house collecting candy and coins—like your Halloween. We used to sing Christmas songs, too."

He and his family are studying to become U.S. citizens. "It takes time to learn a different language and customs of a country," he said, "but we find we are learning more each day."

His two sons — Art, 13, and John, 7 — speak English fluently and frequently converse in Hungarian with their father in order that he may understand a particular point.

Paul's wife, Mari, has a more difficult time with English, and attended night school for awhile to improve her speech. She had to stop, however, when she went to work.

The observance of Christmas in Hungary is a two-day event, Paul said. "One day we go to church and the other is taken up with holiday festivities.

"In the old country, we celebrate St. Nicholas Day on Dec. 6. The night before, children put their shoes on a window sill, hoping St. Nicholas will fill them with candy, nuts, cookies and coins.

"On Christmas day, we exchange presents. Our boys like the American Christmas better because they get more presents," he said with a grin.

Paul never regretted his decision to come to the U.S. "There's no freedom in Hungary now, and it's no place to try to bring up children. People in this country have been good to me and my family, and I'm grateful to Goodyear.

"I like my job and the people I work with. These are reasons enough for me and my family to have a happy Christmas."

YOUNG VOICES ring out from a background of ancient carol titles to remind Christians the world over that the birthday of Christ soon will be celebrated again. In this unusual photo, symbolic of new generations still singing timeless carols, sixth graders

(from left) Terry Heckelman, Robin Clark and Diane Bennetts practice some of the songs included in a special Christmas album produced by Goodyear for the second consecutive year.

And Other Famed Carols

Here's The Story Of 'Silent Night'

The young man burst breathlessly into the home of his friend, a church organist. He was cold from the long run through the snow-covered Austrian village streets, but too excited to feel it.

"Franz," he said, stopping to catch his breath and hold out a sheet of paper, "I have written a poem. I was standing out on the mountain a few minutes ago and it just came to me. So quiet, so lovely out there this Christmas Eve. The words just came to me."

The friend smiled indulgently and took the paper. He slowly read the several stanzas of the poem and looked up admiringly at the young man. "This is lovely," he said. "You ran all the way from the church to show me this? I'm flattered."

"I came to ask a favor," the young man said. "Do you think you can put it to music?"

"I can try."

"Can you do it tonight? Since the organ is broken, we could sing this at the masses tomorrow. Perhaps with a guitar accompaniment..."

Although the dialogue is slightly fictionalized, this brief conversation between two friends signalled the beginning of a composition which was to capture the quiet joy and tender power of Christmas for all times.

The young man was Joseph Mohr, an assistant priest in the tiny village of Oberndorf. His friend was Franz Gruber.

And on that Christmas Eve in 1818 — and within one hour's time — the words and music to "Silent Night" were written.

Not every Christmas carol has such a dramatic background, but the music the world begins to sing at this time every year still reflects the power and the inspiration of men like Joseph Mohr and Franz Gruber. And there are those who say that many of our carols and hymns are divinely inspired.

Many interesting stories about carols were turned up by researchers who planned Album Two of the Christmas Album sold this year by Goodyear through its dealer and store outlets.

The first Christmas music came on the first Christmas — when the Heavenly Host of angels rang out with "Glory to God on the highest, peace on earth to men of good will." But the practice of singing in observance of Christ's birthday

Golf Association Elects Officers

Election of officers for the coming year featured the recent meeting of the Wingfoot Golf Association.

Bill Bebout, highway transportation, was reelected president, and will be assisted by the following officers: Bob Brown, 464B, development compounding, first vice president; Larry Taylor, 826, chemical purchasing, second vice president; and Jane Taylor, 470A, Industrial Products, secretary.

didn't get well underway until about the 12th Century.

At that time, St. Francis of Assisi in Italy used the stable scene, plus a small choir, to dramatize the story of the birth. For this, he earned the title of "Father of the Christmas carol."

Down through the years, carols by the carload have been turned out by the pens of talented and inspired writers. One noted song writer, Charles Wesley, turned out 6,500 hymns and carols during the mid-18th Century. His most popular — then and now — is "Hark, The Herald Angels Sing."

Goodyear Retirees Club Elects New President

B. W. Shmock, who retired in 1959 from 233B, industrial products — calender room, was recently elected president of the Tampa Bay Retirees Wingfoot Club.

The club will meet on the last Thursday of each of the next four months at the St. Petersburg Rod & Gun Club. There are now 162 members, and Goodyearites traveling to Florida are invited to attend the meetings. Shmock's address is 7725 71st St. North, Pinellas Park, Fla.

The Name

Our name for the day, Christmas, dates back to the 11th century when it was called Cristes Maesse — literally, Christ Mass. The Germans call the day Weihnachtsfest — Holy Night Feast; the French call it Noel, which derives from the Latin "Natalis," meaning birthday.

His Macaroni Shells Create Yule Novelties

Wade Kerr is a firm believer in the "good neighbor policy" — especially when it comes to his new-found Christmas hobby.

A welder in 111F, Plant 4, Kerr has temporarily turned from building his own home (he's been at it on a part-time basis for three years) to making gaily-decorated Christmas wreaths, bells, houses and trees.

Most of his projects are completed with macaroni shells.

For instance, his wreaths (and he's made more than 30 of them) contain about 240 shells.

"I get a big kick out of making them because it's a temporary change from building our three-bedroom ranch house."

But Kerr only keeps a few of his new creations. His surrounding neighbors are given the rest of them.

For Kerr, whose wife, Nell, works in regional accounting, this is quite a change from

building a house.

"Of course," he said, "where building a house involves mostly manual labor, making these things demands a little more delicate work."

A novice at these Christmas novelties, Kerr said it usually takes a few hours to complete the wreaths, using Styrofoam as a base.

"I usually spray the shells either a bronze color or silver," Kerr said.

The Christmas tree (shown below) involved about nine hours of labor, and contains more than 1,000 toothpicks.

What's the hardest part involving the Christmas creations?

"Keeping my three-year-old son, Joe, away from them," Kerr laughed.

CAUTIOUSLY PLACING three tiny figures on one of his macaroni-shell covered wreaths, Wade Kerr proudly displays some of his Christmas-oriented handiwork at his home on Bridger Road.

Protect Trucks At Loading Area

Goodyear-manufactured rubber dock fenders are offering protection for over-the-road trailer owners whose vehicles come in contact with unprotected loading docks.

The docks are being "built in" by Wilson Trailer Company, of Sioux City, Iowa, which is mounting short lengths of the dock fenders on the rear frame of each of the livestock and grain trailers it manufactures.

The rubber is said to eliminate the chance of bent frames and broken lights. The built-in fendering is of special value in the livestock and agricultural hauling business where loading and unloading is done at timber chutes on farms and in stockyards.

Register Early

Signed up for Goodyear Evening School yet? You have until Jan. 4 to register, but avoid the rush and do it early.

Evening School bulletins are available at the gatehouses of all Akron plants. For further information, call ext. 5680 or Bell 794-3119.

The Wreath

Most popular of Christmas decorations is the evergreen wreath. It represents the crown of thorns which was pressed on the brow of Jesus as He hung on the cross. The red berries symbolize drops of the blood He shed for us.

REMEMBER — No Ads Taken Over Telephone; Deadline Friday Noon

FOR SALE

Four-speed, fully automatic Decca portable Stereo-phonograph, 2 speakers, brand new, \$50; 4-speed Decca phonograph, \$15. UN 4-3122.

Interplant

Mixers, with 40 points, won the first-half league championship. Team members include Lovett Speer, Bob Helwig, Jim Thompson, Glenn Witsaman, Dave Griffiths and Lloyd Hess. Second-place Gutterrats finished with 35 points and Fidlers with 34. Ernie Knaus and Bob Thomson tied for singles high with 235 each. Thomson also took series laurels with a 611. Fidlers recorded a 962 game and Peddlers a 2762 series.

Junior B

Fighting Irish, bowling a 596-1739, is ahead with 42 points. Jetsons are second with 39½. Buddy Recklaw was high bowler of the week with a 201-486 performance.

Pre-College Film Slated Dec. 27-28

A special note to employes whose children are looking forward to entering college:

An hour-long film from a national television program, describing the increasingly frustrating circumstances involving college admission, will be shown at 10 a.m. and 2 p.m. on Dec. 27 and 28 in Room 506, Goodyear Hall.

T. W. Prior, director of salaried personnel, said the film is that from a recent program presented on The Armstrong Circle Theater, a national network television series.

Prior, in announcing the film showing for employes whose children are high school juniors or seniors, explained "The film points up problem areas frequently encountered by the student seeking college admittance. Then it dwells on the several proper steps he might take."

Those attending the film presentation will also receive a pamphlet, "How to Visit Colleges," which was published by the National Vocational Guidance Association.

Tuesday Night Ladies

Al Backers are in the lead with 42 points. Elzey's Beauty Shop is next with 38 and Action Shirts third with 36. Charlie Strabic dominated singles play with scores of 228-554, while Action Shirts cleaned up in team competition with 922-2463.

Engineering A

Kenmore Construction continues to pace the teams with 41 points. Pioneer Tool & Die is second with 37. Luther Yount's 257 and Ohio Bates' 652 were highs for the week. Silver Dollar Cafe captured team honors with 978-2768.

Plant C Ladies

Fanoni Mold & Die leads with 43 points. Pin-Elopias have 41 and Four Roses 38½. Fran George dominated individual play with 201-497. Fireballs rolled a 656 game and Park Inn a 1714 series.

Open Bowling

Pat Pastoria, 375A, padded automotive products, registered a 265. His 14-pin handicap brought the total to 279. High women's bowler was Grace Cockran who rolled 167, plus 52, for a 219 total.

Development

Ernie Kravo's 223 and Harold Bryan's 545 were highs for the week, as were Golfers' 991-2711. Pintechs lead with 36 points, Kemiks are second, half a point behind and Pilots, Self Sealers and Pockethitters are tied for third with 34 each.

Plant C Men

Leon's Restaurant maintained the lead with 79 points by taking six points from Kesselring. Shaolin Institute shut out Cyphert Drugs to move into second place with 78. Three-game high was turned in by Andy Seitz — a 597 — while Paul Ketterman rolled a 244 game.

Bantam A

Peoples Grocery and Flintstones are tied for the lead with 26 points each. Yobos are third with 23. Craig Johnson's 165-260 was best individual effort, and People's Grocery swept team laurels with 921-488.

IMAGINATION was the keynote in some Christmas displays seen in the offices during the past week. Mary Ann Rozmajzl (above, right), tire sales, admires wreaths made by fellow secretary June West. The decorations were made with cardboard wreaths, clothespins, glue and gold paint. At the left, Emma Harbison (right) decorated a steering wheel display in the racing tire division. Terry Crimaldi attaches a star to complete the "tree."

3 Ex-Kent State Players On Cleveland Team

After eight weeks of competing against teams in the Far East, Goodyear's basketball squad will meet the Cleveland All-Stars on Friday, Dec. 28, in the curtain raiser for the 1962-63 season.

Game time is 8 p.m.

The visiting Cleveland team, composed of former college standouts, including three from Kent State University, represents the top performers in the Greater Cleveland Basketball League.

Ex-Kent State stars who will face the Goodyears are Forwards Skeeter Wallace and Clark Kellogg, and Guard Jerry McGinty.

C. E. Bloedorn, director of recreation, announced that all boys who are members of the Akron YMCA will be guests of Goodyear at the game.

On Sunday, Dec. 30, the Good-

year cagers will play hosts to Steubenville College at 7 p.m.

The Barons, under a new coach, John D. Bayer, former assistant coach at Kent State University, welcomed back nine letterman for the 1962-63 season.

The Steubenville team ended the 1961-62 season with a record of 14 wins and 8 defeats.

The visitors are led by Chuck Zerger, a senior forward from Rayland, O., who last year was tops in team scoring with an average of 19.4 points per game.

Randy Greene, a 6 foot, 7 inch sophomore, was second in the scoring margin with an average of 11.1 points per game.

An invitation has been extended to all scouts in the Akron Area Council to be guests of Goodyear at the Steubenville game. Scouts are asked to dress in their uniforms, or present their scout card at the game.

Ticket Application

This is a special application for 1962-63 season general admission basketball tickets to all Goodyear home games. Purchase one for \$12 and you receive an additional one free.

Fill in this application and send with check or money order for \$12, payable to The Goodyear Tire & Rubber Company, to the Employes Activities Office, Goodyear Hall. Tickets are good for admission to all 13 Goodyear home games. Individual general admission season tickets will not be sold.

ADDRESS CITY

(Answer To Puzzle on Page 5)

A HEAD OF THE CHRISTMAS toy parade is the doll, still tops with little women. These doll heads, awaiting the next assembly oper-

ation in an Ideal toy factory, show that the long traditional toy can still compete in our outer space age.

Goodyear Gives Santa's Helpers A Hand With Material For Toys

"All for the little ones, Christmas joys!"

Gaily colored dolls, airplanes, trucks, hobby kits, and other goodies that Santa is all set to deliver to little boys and girls might have their beginnings in a product of the Goodyear Chemical division.

But the plastic toys (including dolls' heads shown above) that give rise to rapturous cries of happiness at 5 o'clock on Christmas morning are a far cry from the raw material they are made of.

BABIES NEVER had it so good. Comforters and pillows of Vycron polyester fiberfill please baby because this modern bedding is lightweight and non-allergic. Vycron is a fiber produced by Beaunit Mills, Inc. from Vitel resin, a Goodyear chemical product manufactured at Point Pleasant, W. Va.

This raw material is Pliovic M-70, made in the Niagara Falls, N. Y., plant, and described by Goodyear's Chemical division as "a specialty modifier resin for vinyl plastisol compounds used for coating and molding applications."

Introduced last year as an experimental product, the resin has been used successfully in metal and fabric coatings and for toys and industrial goods made by "roto casting" and "slush molding methods."

Using Pliovic M-70, the toy makers can turn out a wide array of fascinating playthings that are part of the offerings of an industry that will sell nearly \$2 billion worth of products this year.

Most of this treasure of toys is earmarked for the little ones—youngsters between two and six years old. Even though they're only 36 per cent of the child population, they get 50 per cent of the toys. And despite all the efforts of the industry to the contrary, this is the time of year when most toys are bought. A natural circumstance, it might be said, but one that creates a host of problems for the toy manufacturers.

One of the toy makers' bread and butter items, sold throughout the year, is the hobby kit. Plastic autos form a large part of this output. One of the most unusual is Revell's re-creation of Mickey Thompson's Challenger I, authentic in miniature down to its special Goodyear tires. The prototype of this kit blazed across the Bonneville salt flats to a new one-way land speed mark.

Toy people say there are two requirements in the creation of a good toy. First is that it must

provide fun. Second is imitation of life on a small scale, which gives a clue to the success of the model kits. Sales in the hobby, model, and crafts branch of the toy industry shot up from \$15 million to \$540.6 million in only 14 years.

In Christmas Album

Vinyl Resin Means Ideal Sound

Goodyear employes, customers, and friends acquiring a copy of Album Two of "The Great Songs of Christmas" will be setting their phonograph needles down on a Goodyear product.

Base material for the great Christmas album is a vinyl chloride-vinyl acetate copolymer called Pliovic C50R, made by Goodyear in its Niagara Falls, N.Y., plant.

H. D. Allick, manager of the Chemical division's plastics department, said an advance toward the ideal in recording—sound-perfect records—has been made with the introduction of the new vinyl plastic resin.

Extensive testing indicates that Pliovic C50R will give record companies more economical production and the record buyer superior playing surfaces.

The new material's better plastic flow results in less production rejects caused by records failing to "fill" properly in the mold stage.

Its greater heat stability will make possible more extensive re-use of "flash," the material which is cut away from each record in the finishing stage. "We tested C50R's heat sta-

Famed Yule Poem 'Born' 140 Years Ago

It was on a star-lit Christmas Eve 140 years ago that the immortal poem, "Twas the Night Before Christmas" was born.

The distinguished gentleman, Clement Clarke Moore, L.L.D., was being driven by his coachman from New York City to his home in Chelsea. His sleigh was full of toys for his children, and the sleigh bells jangled merrily as his horse jogged up the island of Manhattan.

Merry thoughts were dashing through his mind such as an ideal way to surprise his children. Couldn't he make up something that they would think the toys had been brought by some jolly old fellow—someone like the jovial old Dutchman who did odd jobs around his mansion, Chelsea House?

"Just the man for the piece," said Dr. Moore to himself. Give old Dutch a name to fit—St. Nicholas—and the story that Dr. Moore had in mind was finished as he turned into the drive of his country home.

That evening he read the poem, "A Visit from St. Nicholas," to the children before the fireplace.

"Twas the night before Christmas,

"When all through the house
"Not a creature was stirring,
not even a mouse."

The following year the Moore family had a visitor, Harriet Butler, daughter of the rector of St. Paul's Church of Troy, N. Y., which Bishop Moore, the

author's father, had dedicated several years before.

Miss Butler noticed the poem which they had got out to read again, and asked if she might make a copy. She took it back to Troy and there, in a spirit of enthusiasm sent it anonymously to the editor of "The Troy Sentinel" which published it on Dec. 23, 1823.

Someone sent a copy of the newspaper to Dr. Moore who became embarrassed to see made public what had been a mere private prank for his children.

The poem was copied by other newspapers, and soon was enjoyed and recited by thousands of children all over the world. These lines have now been reprinted oftener than any other poem about Christmas, according to the Encyclopedia Britannica.

Cover Painting

Norman Rockwell, one of America's best-loved artists, created the painting featured on this Christmas Clan cover. The painting is reproduced through the courtesy of Hallmark Cards, noted greeting card designer and publisher.

VINYL PLASTIC resin gives an ideal tone to Album Two of "The Great Songs of Christmas."

to guide our feet into the way of Peace.
80 And the child grew, and waxed strong in spirit, and was in the deserts till the day of his shewing unto Israel.

CHAPTER 2

And it came to pass in those days, that there went out a decree from Caesar Augustus, that all the world should be taxed.

2 (And this taxing was first made when Cyrenius was governor of Syria.)
3 And all went to be taxed, every one into his own city.

4 And Joseph also went up from Galilee, out of the city of Nazareth, into Judaea, unto the city of David, which is called Bethlehchem; (because he was of the house and lineage of David.)

5 To be taxed with Mary his espoused wife, being great with child.
6 And so it was, that, while they were there, the days were accomplished that she should be delivered.

7 And she brought forth her first-born son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn.

8 And there were in the same country shepherds abiding in the field, keeping watch over their flock by night.

9 And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid.

10 And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people.

11 For unto you is born this day in the city of David a Saviour, which is Christ the Lord.

12 And this shall be a sign unto you; Ye shall find the babe wrapped in swaddling clothes, lying in a manger.
13 And suddenly there was with the

The Birth of Christ

angel a multitude of the heavenly host praising God, and saying,
14 Glory to God in the highest, and on earth peace, good will toward men.

15 And it came to pass, as the angels were gone away from them into heaven, the shepherds said one to another, Let us now go even into Bethlehchem, and see this thing which is made known unto us.

16 And they came with haste, and found Mary, and Joseph, and the babe lying in a manger.
17 And when they had seen it, they made known abroad the saying which was told them concerning this child.

18 And all they that heard it wondered at those things which were told them by the shepherds.
19 But Mary kept all these things, and pondered them in her heart.

20 And the shepherds returned, glorifying and praising God for all the things that they had heard and seen, as it was told unto them.

21 And when eight days were accomplished for the circumcising of the child, his name was called JESUS, for he was conceived in the womb before he was conceived in the womb.

22 And when the days of her purification according to the law of Moses were accomplished, they brought him to Jerusalem, to present him to the Lord;

23 (As it is written in the law of the Lord, Every male that openeth the womb shall be called holy to the Lord.)
24 And to offer a sacrifice according to that which is said in the law of the Lord, A pair of turtledoves, or two young pigeons.

25 And, behold, there was a man in Jerusalem, whose name was Simeon; and the same man was just and devout, waiting for the consolation of Israel;

and the Holy Ghost was upon him.
26 And it was revealed unto him by the Holy Ghost, that he should not see death, before he had seen the Lord's Christ.

27 And he came by the Spirit into the temple: and when the parents brought in the child Jesus, to do for him after the custom of the law,
28 Then took he him up in his arms, and blessed God, and said,
29 Lord, now lettest thou thy servant depart in peace, according to thy word:
30 For mine eyes have seen thy salvation,
31 Which thou hast prepared before the face of all people;
32 A light to lighten the Gentiles, and the glory of thy people Israel.

33 And Joseph and his mother marvelled at those things which were spoken of him.
34 And Simeon blessed them, and said unto Mary his mother, Behold, this child is set for the fall and rising again of many in Israel; and for a sign which shall be spoken against;
35 (Yea, a sword shall pierce through thy own soul also), that the thoughts of many hearts may be revealed.

36 And there was one Anna, a prophetess, the daughter of Phanuel, of the tribe of Aser: she was of a great age, and had lived with an husband seven years from her virginity;
37 And she was a widow of about fourscore and four years, which departed not from the temple, but served God with fastings and prayers night and day.
38 And she coming in that instant gave thanks likewise unto the Lord, and spake of him to all them that looked for redemption in Jerusalem.
39 And when they had performed all things according to the law of the

Childhood of Christ

and the Holy Ghost was upon him.

26 And it was revealed unto him by the Holy Ghost, that he should not see death, before he had seen the Lord's Christ.

27 And he came by the Spirit into the temple: and when the parents brought in the child Jesus, to do for him after the custom of the law,
28 Then took he him up in his arms, and blessed God, and said,
29 Lord, now lettest thou thy servant depart in peace, according to thy word:
30 For mine eyes have seen thy salvation,
31 Which thou hast prepared before the face of all people;
32 A light to lighten the Gentiles, and the glory of thy people Israel.

33 And Joseph and his mother marvelled at those things which were spoken of him.
34 And Simeon blessed them, and said unto Mary his mother, Behold, this child is set for the fall and rising again of many in Israel; and for a sign which shall be spoken against;
35 (Yea, a sword shall pierce through thy own soul also), that the thoughts of many hearts may be revealed.

36 And there was one Anna, a prophetess, the daughter of Phanuel, of the tribe of Aser: she was of a great age, and had lived with an husband seven years from her virginity;
37 And she was a widow of about fourscore and four years, which departed not from the temple, but served God with fastings and prayers night and day.
38 And she coming in that instant gave thanks likewise unto the Lord, and spake of him to all them that looked for redemption in Jerusalem.
39 And when they had performed all things according to the law of the

Lord, they returned into Galilee, to their own city Nazareth.

40 And the child grew, and waxed strong in spirit, filled with wisdom: and the grace of God was upon him.
41 Now his parents went to Jerusalem every year at the feast of the pass-

over.
42 And when he was twelve years old, they went up to Jerusalem after the custom of the feast.
43 And when they had fulfilled the days, as they returned, the child Jesus tarried behind in Jerusalem; and Joseph and his mother knew not of it.

44 But they, supposing him to have been in the company, went a day's journey; and they sought him among their kinsfolk and acquaintance.
45 And when they found him not, they turned back again to Jerusalem, seeking him.
46 And it came to pass, that after three days they found him in the temple, sitting in the midst of the doctors, both hearing them, and asking them questions.

47 And all that heard him were astonished at his understanding and answers.
48 And when they saw him, they were amazed: and his mother said unto him, Son, why hast thou thus dealt with us? behold, thy father and I have sought thee sorrowing.
49 And he said unto them, How is it that ye sought me? wist ye not that I must be about my Father's business?
50 And they understood not the saying which he spake unto them.
51 And he went down with them, and came to Nazareth, and was subject unto them: but his mother kept all these sayings in her heart.
52 And Jesus increased in wisdom and stature, and in favour with God and man.
