AIO Set For Oct. 4-11

Measure Your Gift - - - - - - By The Golden Rule

"IF YOU DON'T DO IT, IT WON'T GET DONE. ONE GIFT WORKS MANY WONDERS. GIVE TIL IT HURTS." Sound familiar — sure it does! It's that time again — the time of year when we are called upon to open our heart and pocketbook to the company (and union) wide All-In-One appeal.

EMPLOYEE GOAL \$20,700

An employe contribution goal of \$20,700 has been set for this year's campaign. The \$20,700 when boosted by the corporate contribution should give us an excellent chance to improve last year's outstanding AIO total of \$30,244. The campaign to reach the \$20,700 mark will get underway October 4. To reach the goal, contributions must go up — a pledge increase of 7% from each employe would make our goal possible.

"Although last year our pledge was the best since 1960, it must be exceeded," noted AIO co-chairman, H.R. Sanson. "Each employe must give generously if we are to reach our \$20,700 goal and to continue to furnish our local United Fund agencies with the sup-

port they need, Agencies which will provide the services so vital to our communities."

KICK OFF — FRIDAY, OCTOBER 1

An in-plant kick-off meeting is scheduled Friday, October 1. Volunteers from all departments will gather at 10:00 a.m. in Room 310 - X-710 for an explanation of the solicitation procedure and information on the services offered by the various agencies. Soliciting will once again be done by salary and hourly volunteers. These volunteers will begin distribution of pledge cards and contact employes in their various departments on Monday, October 4. The campaign will close Monday, October 11.

PAYROLL DEDUCTIONS EMPHASIZED

Once again emphasis is being placed on the payroll deduction plan. Employees enlist in the plan simply by checking the amount to be deducted on the pledge card and signing it.

A volunteer solicitor will contact you and ask you to give. Welcome him and **GIVE GENEROUSLY — BY THE GOLDEN RULE.**

Gerstenmaier Jay Pilliod Rudder Minter

Management Moves Announced By GT&R

Election of three new executive vice presidents, the retirement of a fourth and the appointment of a new vice president of production was announced following the September meeting of the Goodyear board of directors.

The new executive vice presidents past four years Goodyear's top production executive.

John H. Gerstenmaier, formerly vice president of production.

Richard A. Jay, formerly vice president of general products.

Charles J. Pilliod Jr., who continues as President of Goodyear International Corporation.

Pilliod also was elected to the board of directors. Gerstenmaier and Jay already are board members.

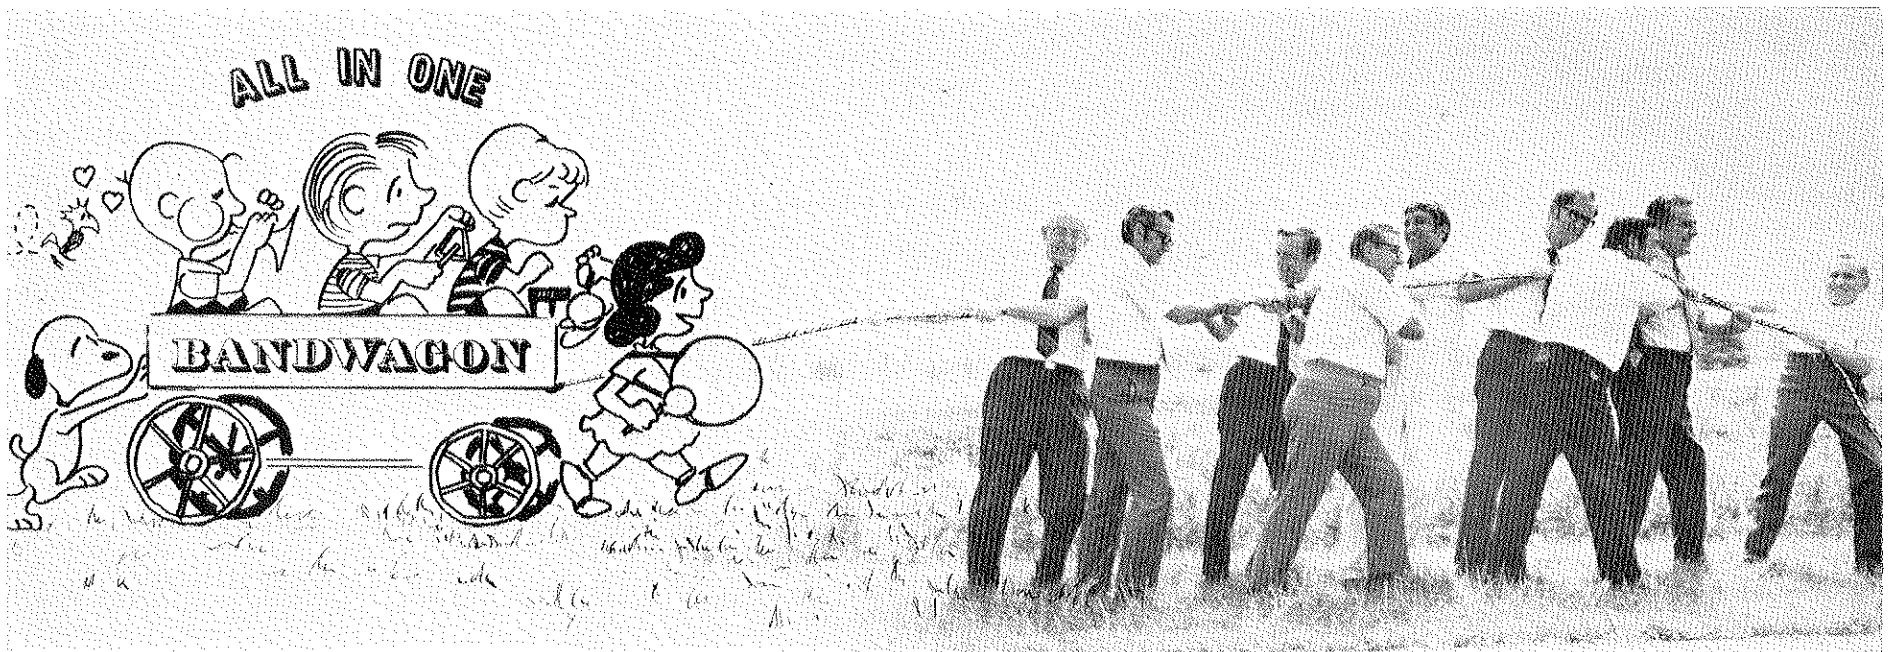

Retiring as executive vice president and director after 42 years of service is Walter H. Rudder, for the

Thomas F. Minter, who has been director of manufacturing services, was elected to replace Gerstenmaier as vice president of production.

JOHN H. GERSTENMAIER

Gerstenmaier, a University of Minnesota graduate, joined Goodyear in 1938. Transferring in 1941 to the St. Marys, Ohio, plant, he remained there in various capacities until 1957. While there, he was awarded a Sloan Fellowship to the
(Continued on Page 2)

Employe Goal \$20,700 - - - Let's Pull Together

GET ON THE BANDWAGON — LET'S ALL PULL TOGETHER — TEAM UP FOR THE ALL-IN-ONE. To union and management representatives on the AIO Guidance Committee it all means the same, that of a "united" effort. Their recommendations and advice help establish guidelines for our company-wide A.I.O. campaign. Committee members (not counting Lucy's gang) are (l to r) Merle Hartle (700 Div.), Maurice Zigler (100 Div.),

Jim Harshman (300 Div.), Fred Pickens (200 Div.), Bob Isaac (president OCAW Local 3-689), Harold Kelley (800 Div.) Vince DeVito (500 Div.), Charlie Ray (400 Div.) and Harold Sanson, campaign co-chairman. Committee members, Lucy's band and thousands of needy people everywhere urge you to **JUMP ON THE BANDWAGON — GIVE GENEROUSLY TO THE ALL-IN-ONE.**

Review of Labor Relations

The following arbitration award was received from Vernon L. Stouffer who acted as arbitrator and heard a case involving the UPGWA, Local 66, on August 24.

Issue: Was the Medical Termination of the aggrieved justified in accordance with Article XII, Section 1, of the agreement?

Discussion: The Company maintains that the grievant failed to respond to treatment by both the plant physician and other specialists regarding his drinking problem and that such problem has resulted in deterioration of his job performance and dependability.

The Union claims that the grievant's dismissal constituted a disciplinary discharge rather than a medical termination as the Company claims. It maintains that the discharge was improper for the reason that it was not preceded by the customary progressive discipline prior to discharge.

Decision: It is recognized that the excessive drinking took place off

Company premises. However, this resulted in numerous absences directly related to such drinking and in rendering the grievant much less alert than he would normally have been if he had not been drinking. Such dimunities of alertness detrimentally affected his ability to effectively carry out his duties as a Police Officer.

In the opinion of this Arbitrator the Company has been extremely lenient and patient over the past eighteen months in its effort to rehabilitate the grievant and it should not be further penalized by such tolerance.

Award: The Company's medical termination of the grievant was justified in accordance with Article XII, Section 1 of the currently-effective Collective Bargaining Agreement. Grievance denied and dismissed.

Chance To "Stock Up" Offered By MIP

One of GAT's special benefits, the Monthly Investment Plan, gives persons the opportunity to conveniently buy company stock through payroll deductions.

Goodyear employes have invested more than \$6.1-million for nearly 220,000 shares since the plan started in September, 1967. The average price has been \$27.85 per share, while in recent weeks Goodyear stock has been selling at \$33 or more per share.

More than 4,800 persons are using the Monthly Investment Plan, including 95 at GAT.

Here's how the plan works:

You select the amount you wish to invest and Goodyear transmits your deduction to Merrill Lynch, Pierce, Fenner and Smith, a national brokerage firm.

The number of shares you buy depends on the amount deducted and the average purchase price per share during the month.

For example, if the payroll deduction is \$75 and the average purchase price for the stock is \$30 per share, 2.5 shares are bought.

At the end of the month, Merrill

Lynch sends you an itemized statement.

Goodyear pays the brokerage fee for purchases.

You benefit from MIP when the company pays a dividend. Currently this is 2 1/4 cents per share a quarter, or 85 cents per year. And you may gain, of course, if the stock goes up.

You can sell your stock at any time at its market value (you pay the brokerage fees). And you can increase, decrease, temporarily stop or end your deduction at any time.

For more information call Payroll 2586.

Schlesinger New AEC Chairman

James Schlesinger recently returned from the Fourth United Nations International Conference on Peaceful Uses of Atomic Energy at Geneva, Switzerland, his first conference since taking over as new chairman of the Atomic Energy Commission.

Schlesinger replaced Glenn Seaborg, who has served as a member and chairman of the Commission since March, 1961. Schlesinger was sworn into office August 17 along with William O. Doub, also appointed to the Commission.

Before his appointment as chairman, Schlesinger served as Assistant Director of the Office of Management and Budget, with responsibility for budget and management development of national security and international programs. He originally joined the Administration in February, 1969 as Assistant Director of the Bureau of Budget.

Before joining the Bureau of the Budget, he served as Director of Strategic Studies at the RAND Corporation and directed a study on the control of nuclear proliferation

which RAND had undertaken for the federal government.

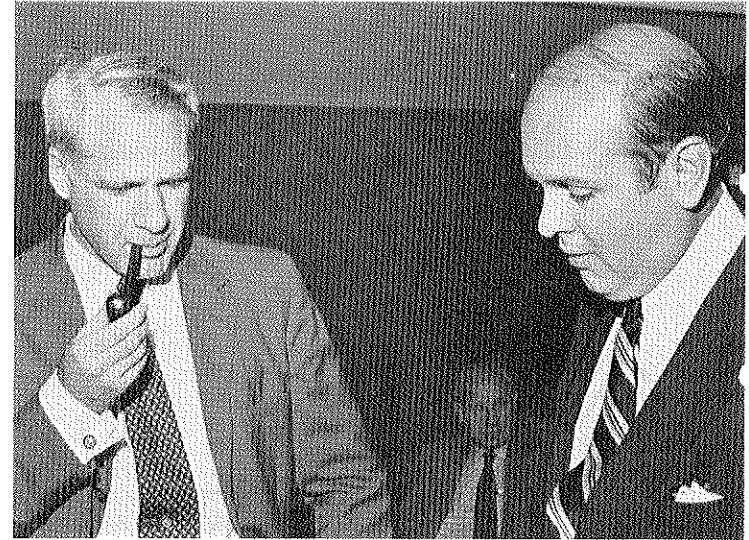

Schlesinger has written extensively on the role of systems analyses in relation to political decision making. His term will expire June 30, 1975.

Doub succeeded the late Theos Thompson and will serve a five year term expiring June 30, 1976.

Since 1957 Doub has practiced corporate law in Baltimore, most recently as a partner in the firm of

Niles, Barton and Wilmer. He is a member of the American Bar Association and the Maryland State and Baltimore Bar Associations.

Doub was appointed to the President's Air Quality Advisory Board in 1970, for a three year term. He is also serving as chairman of the Committee on Electrical and Nuclear Energy, National Association of Regulatory Utility Commissioners.

JOIN COMMISSION — Dr. James R. Schlesinger (l) and William O. Doub chat after appearing before the Joint Committee on Atomic Energy on August 4 following their nomination by President Nixon as members of the Atomic Energy Commission. The Senate confirmed the nominations on August 6. The President designated Dr. Schlesinger as Chairman succeeding Dr. Glenn T. Seaborg who resigned to resume his professorship at the University of California at Berkeley. When nominated, Dr. Schlesinger was serving as Assistant Director of the Office of Management and Budget and Mr. Doub as Chairman of the Maryland Public Service Commission. Mr. Doub succeeds the late Commissioner Theos J. Thompson who was killed in a plane crash in November 1970. Dr. Schlesinger was named for the balance of the Seaborg term ending June 30, 1975 and Mr. Doub to a full 5-year term ending June 30, 1976.

AEC Price Hike Held By Freeze

The Atomic Energy Commission announced September 3 that the application of its new charge of \$32 per unit of separative work for uranium enrichment services which becomes effective on September 6, 1971, was deferred as a result of President Nixon's wage-price freeze.

The deferral will apply to enrichment services contracts with overseas customers as well as with domestic customers. The Commission made public in the Federal Register on March 9 a notice establishing an increase in the charge from \$28.70 to \$32 effective September 6.

The charge for separative work is also used in determining the schedule of base charges for enriched and depleted uranium which the AEC offers for sale or lease under limited conditions.

Goodyear Board Names VP's

(Continued from page 1)

Massachusetts Institute of Technology, where he received a master's degree in industrial management.

After further service in industrial products development and production in Akron, Gerstenmaier became plant manager of the new foam products facility in Logan, Ohio, in 1963. The following year, when Motor Wheel Corporation became part of Goodyear's worldwide organization, he moved to its headquarters in Lansing, Mich., as its president.

In 1967 he returned to Akron and was elected vice president of production. Shareholders elected him to the board of directors at the annual meeting last April.

RICHARD A. JAY

Jay joined Goodyear in 1939 following graduation from Iowa State University, serving first in Jackson, Mich., and then Akron. Following three years of military duty he rejoined Goodyear and, in 1948, was made manager of the belting products plant in Lincoln, Neb. In 1956 he became manager of the engineering department with headquarters in Akron.

Appointed assistant to the presi-

dent in 1958, he was given the added responsibility of coordinating the work of Goodyear's general products groups later that year. Jay was elected vice president of general production in 1964, and was elected to the board of directors at the 1971 shareholders meeting.

CHARLES J. PILLIOD JR.

Pilliod has been president of Goodyear International and a vice president of its parent company since last January. A native of Cuyahoga Falls, Ohio, he attended Muskingum College and Kent State University, joining Goodyear in 1941.

Following military service, he became a sales staffman in Goodyear's foreign operations in 1945. Successive promotions found him serving in Costa Rica, Peru, Colombia, Brazil and Great Britain, where he became managing director in 1964. He returned to Akron in 1966 as director of operations of Goodyear International, and two years later was elected a vice president of GIC, a post he held until elected its president.

Rudder's retirement brings to a close a Goodyear career that began (Continued on page 4)

Latest MIP Report

This is the latest report covering six months' operation of the Monthly Investment Plan through which employes may purchase Goodyear common shares. The plan is entirely voluntary and Goodyear pays all brokerage commissions. Information on the plan may be obtained from Payroll or any office of Merrill Lynch, Pierce, Fenner & Smith, Inc.

	Purchase Price	Number Shares	Number Participants
March, 1971	31.564	5,714	4,840
April, 1971	32.328	5,559	4,841
May, 1971	31.660	5,691	4,832
June, 1971	32.652	5,525	4,839
July, 1971	33.219	5,463	4,809
August, 1971	32.680	5,584	4,798

Since the start of the plan in September 1967, and after adjusting for the two-for-one stock split on April 15, 1969, a total of 249,697 shares have been purchased by employes at an average cost of \$28.37 per share.

**If YOU Don't Do It,
It Won't
Get Done!**

Clan Chowder

Clan Chowder, a new feature in the Clan, welcomes letters to the editor and items of interest. Please limit your letters to 150 words.

The October Clan Chowder editorial was jointly submitted by Harold Sanson and Gordon Johnson, co-chairmen, of the company-wide All-In-One campaign.

This is Harold Sanson's third year as labor's representative to the AIO. An active union member, Harold has held the offices of Financial Secretary and Recording Secretary for OCAW Local 3-689. Harold has been with GAT since December, 1953. He is currently located in the Compressor Shop.

This is the fourth year Johnson has been responsible for coordination of the Community Relations Program. He has spearheaded the AIO drive as the company's representative during this time.

Be An Activist - - Get Involved

Involvement — a word on everyone's lips these days. We are constantly being urged to get involved. To get involved with moves toward injustice, discrimination, pollution, poverty and numerous other problems throughout our nation.

A small minority of those involved attempt to accomplish these goals by defying law and order and taking the matters into their own hands. A vast majority of Americans may sympathize with the goals but refuse to condone this type of lawlessness. They simply do not believe two wrongs will make a right. There is an alternative, there are several ways that Mr. Average Citizen can become involved in the work of helping others and do it in a sane and sensible law-abiding manner. One of the best of these ways is by supporting the All-In-One campaign conducted here at the plant.

The volunteer health, welfare and youth agencies supported by the United Fund are activists. They are devoted to the fight against poverty, injustice, ignorance and disease. Whether we use these agencies or not, we benefit each time a community problem is solved, suffering is alleviated or a young person served.

There is probably not an employe among us who has not witnessed a direct benefit from the United Fund. It may have been a member of your family, your neighbor or a co-worker that was benefited.

It is up to you to get involved. Involved enough to help solve today's problems by supporting the All-In-One campaign.

As members of the union-management team, and as co-chairmen of the All-In-One campaign, we urge you to get involved. Give generously to the All-In-One.

\$21 Million Monthly Peak Set In Aug.

Goodyear Atomic established an all time high in August when it shipped over \$21 million worth of separative work for the nuclear power industry. GAT's previous high was in February when \$14.8 million worth of separative work was shipped.

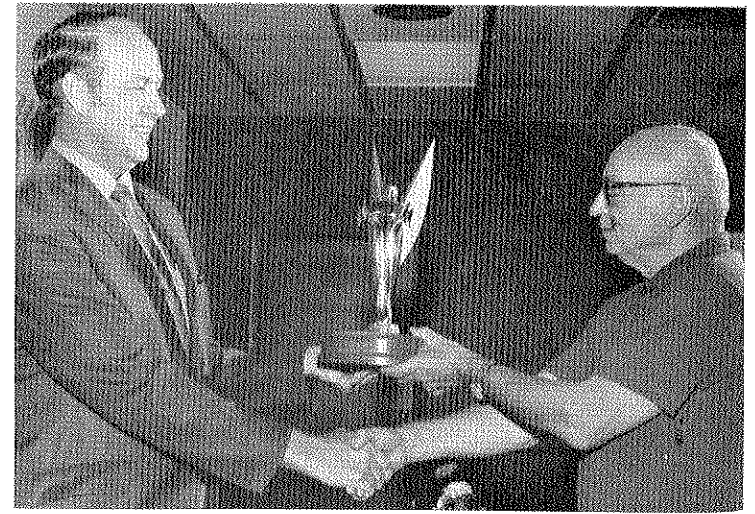

In addition to the \$21 million in separative work sold, a material sale order of over \$4.2 million in enriched product was shipped for the Sena Nuclear Reactor in Belgium.

Included in the separative work was an \$8.1 million shipment to Cooper Nuclear Power reactor in Brownsville, Nebraska. The Cooper Nuclear shipment was the largest monthly shipment to a single reactor in Goodyear Atomic's history.

Part of the \$21 million was for orders from foreign countries totaling \$6.2 million. Foreign nuclear power reactors receiving enriched product were located in Japan, Belgium and Germany. Orders placed in the U.S. included \$1.1 million to the India Point No 1 New York reactor; \$2.1 million to James A. Fitzpatrick — Scriba, New York and the Point Beach nuclear reactor in Wisconsin.

If I hadn't found John's UF pledge card I would never have known that we could afford it.

"D" SHIFT REPEATS AS SAFEST SHIFT

MEMBERS OF "D" SHIFT are showing everyone winning the shift safety title is no "accident." They repeated as shift safety champions for the fourth straight year (their sixth win). In recognition of being GAT's safest shift, each member was treated to luncheon and given a memento. Highlight of the luncheon was the presentation of the shift safety trophy to "D" Shift Superintendent, Sam Dirmeyer (R) by General Manager, C. D. Tabor.

Goodyear "Spirit" Nominations Due

Nomination forms for the 1971 Goodyear Spirit Award now are available in the Community Relations office.

The award, given each year in Akron at Christmastime, is presented to a Goodyear employe or retiree or a member of his or her family who best represents such characteristics as integrity, loyalty, zeal and human understanding.

The honor was established and is funded by former board chairman Edwin J. Thomas and his wife to recognize outstanding members of the Goodyear family. The winner receives a mounted bronze medallion and a \$1,600 check.

The award has been given each year since 1966.

Any employe of Goodyear can submit a nomination. Nominees must be associated with the parent company, Goodyear Atomic, Goodyear Aerospace, Goodyear International or The Goodyear Tire & Rubber Company, Ltd. of Canada.

To make a nomination, obtain a nomination form from the plant personnel office, fill it out and mail to O. M. Sherman, vice president of Industrial Relations, The Goodyear Tire & Rubber Company, Akron, Ohio 44316. All nominations must be received no later than November 15 to be considered.

An elaborate nomination presentation is not necessary. If more space than is provided on the form is needed to explain the nomination, attach additional sheets to the form. Any additions should be typed and double spaced on plain, white 8½ x 11 paper.

All nominations are acknowledged and submitted to the award committee in Akron for consideration. Persons not selected for the award in one particular year will be considered in subsequent years as nominations are carried over from year to year.

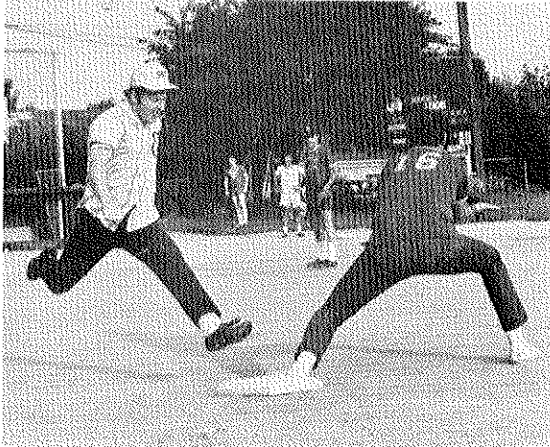

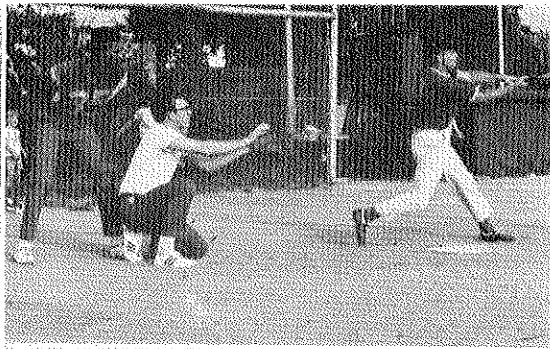

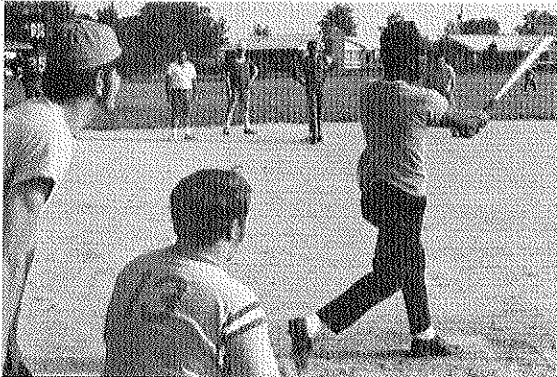

A key factor in considering a nominee is evidence of unselfish dedication of his time and talent to help others. Included may be:

— Active involvement in a service club, church group or other organization that help persons outside its own circle of members.

(Continued on Page 4)

CONGRATULATIONS (ON TWO COUNTS) were bestowed upon Laura Ewing (center), wife of Jack Ewing, utilities operations, at the Annual Safety Caption luncheon. The first congratulation was for the \$100 merchandise award Mrs. Ewing received for submitting the Annual Caption contest winner. The second congratulation was offered by safety supervisor Clyde French in celebration of Mrs. Ewing's "21st" birthday. In FY-1971, 1713 captions were submitted by GAT employes and their families. GT&R safety selected the annual winner from the twelve monthly caption contest winners.

GAT SOFTBALL CHAMPS. Winner in a play-off game was the Portsmouth team: (upper left) kneeling (l to r) Curtis Stewart (D-222), Earl Kalb (D-761), Ollie Vita (D-552), Clancy Parker (D-222) and Don Collins (D-222). Standing Mike Orlett (D-521), Jim Hamilton (D-224), Steve Battle (D-513) and Phil Callahan (D-527). Elmer Litteral (D-552) raps a sharp hit in front of umpire Jim Hamilton and catcher, Roger Foster (D-533). Below umpire Bob

Bush (D-701) and catcher, Frank Tremel (D-761) watch Clancy Parker (D-222) single over second. Background players are Ollie Vita, umpire Rod Mocherman (D-120) and Curtis Stewart (D-222) on third. (Right) Third to first combination of John Boggs (D-212) and Darryl Costin (D-523) nips Jay Furbay (D-411) by a half stride. Players in center are Al Stone (D-810), Jerry Komlos (D-542) and pitcher Dick Sparks (D-552).

Tennis - - Softball Champions Crowned

Summer recreational activities ended in a splash of action with the crowning of company tennis champions and a championship softball tournament.

Twenty-four GAT netters crossed rackets in Chillicothe City Park in quest of first prize in the doubles and singles.

Gordon Williams (D-540) showing flashes of his college form, performed brilliantly to defeat Larry Burt (D-541) 6-1, 6-1 for the singles title.

Team work and precision play by Larry Burt and Clarence (Red) Martin (D-540) earned them the top spot in the company doubles competition. The Burt-Martin combo edged runners-up Harold Kelley (D-850) and Don Rahe (OVEC) in the final set.

Upon completion of YMCA softball league competition, GAT ball players ran, batted and fielded their way through a company tourney. Over fifty players formed four teams for the season finale — a "double round robin" tourney.

The Portsmouth team captained by Jim Hamilton (D-224) won the tourney in a final playoff game. Team captains Clay Benner (D-523), Jim Whit (D-761) and Bob Bush (D-701) led their teams to fine ball playing throughout the tournament.

With seasonal changes, recreational interests will move toward indoor activities. Bowling leagues are underway, basketball teams are being organized and weekly activities nights for volleyball and basketball will soon be set up.

Details concerning winter activities are available from Recreation.

VP's Named

(Continued from Page 2)

in 1929 following his graduation from Auburn University. Starting as an analytical chemist, he worked on tire compounds at the Gadsden, Ala., plant almost continuously until 1942. At that time the plant turned to production of bullet-proof tanks for combat planes, and Rudder managed the operation.

A year later he became superintendent of the Lincoln, Neb., plant when it began turning out fuel tanks for B-29 bomber planes.

Following advanced management training at Harvard University in 1945, he returned to Gadsden, then, in 1947, moved to Topeka, Kan., as plant manager. He transferred to Akron as assistant to the vice president in 1955, became director of domestic production in 1957 and vice president of production in 1964. Rudder was elected executive vice president and a board member in 1967.

A native of Akron and graduate of the University of Akron, Minter joined Goodyear in 1941. Returning to the company after three years of military service, he served in various capacities in Akron until 1952. He then was assigned to the Jackson, Mich., tire plant as manager of technical services.

Returning to Akron in 1957, he was appointed manager of Goodyear's plant in Scotland the following year. He was sent back to Jackson in 1963 as production manager, and became plant manager there in 1964. Three years later he assumed the newly created post of director of manufacturing services.

In Sympathy

Mrs. Frank (Louisa) Simpson passed away August 23 at the Mercy Hospital, Portsmouth, Ohio. She was the sister of John F. Hall, Sr., (D-734) and the aunt of John F. Hall, Jr. (D-331).

Mr. Milton (Whitey) Thomas passed away August 28 at Highland District Hospital, Hillsboro, Ohio. He was the husband of Eloise Thomas (D-541).

Mr. Roscoe D. Robinson passed away August 12 at the Baptist Central Hospital, Lexington, Kentucky. He was the father of J. W. Robinson (D-554).

Letter To The Editor

To: ALL GAT EMPLOYEES

During my more than three months in hospitals this summer, I received flowers, visits, telephone calls, cards and/or letters from more than 300 people, and some of you wrote several times.

Hundreds of others (so I'm told) didn't contact me directly but made it a point to keep informed of my condition on almost a daily basis. My neighbors planted my garden, kept my lawn mowed, loaned me things to help me during my convalescence.

Until I got sick, I never knew I had so many friends. I'm sure your prayers, good wishes and other assistance were important factors in my recovery.

To all of you go my heartfelt thanks.

H. McClelland
